

TABLE OF CONTENTS

INTRODUCTION.....10

1 THEORETICAL FRAMEWORK.....13

1.1 Characteristics of physical activities 13

1.2 The benefits of physical activities..... 17

1.3 The significance of physical activities for elementary school pupils..... 21

1.4 Attitude of young people to physical activities..... 25

1.5 The most popular physical activities for adolescents 29

1.6 Motivation for exercise and physical activity 32

1.7 GPS games and geocaching 36

1.8 Educational aspects of the navigation game geocaching..... 39

1.9 Attitudes and their characteristics..... 44

1.10Attitudes of pupils to physical and sports education..... 50

2 OBJECTIVE, HYPOTHESIS AND TASKS.....56

2.1 Objective 56

2.2 Hypothesis 56

2.3 Tasks 56

3 METHODOLOGY.....58

3.1 Characteristics of the research group 58

3.1.1 Exploratory group 58

3.1.2 Experimental group..... 59

3.2 Methods of acquiring data 59

3.3 Methods of data processing 63

4 RESULTS AND DISCUSSION64

4.1 The evaluation of the pupils’ responses covering their free time..... 64

4.2 Evaluation of pupils’ responses in terms of activity content .. 69

4.3 Evaluation of pupils’ reasons for performing physical activities..... 76

4.4 Evaluation of pupils’ attitudes towards physical education with the use of navigation games and GPS 80

CONCLUSIONS AND SUGGESTIONS FOR PRACTICE.....86
