

CONTENTS

PREFACE TO MACROECONOMICS	ix
---------------------------	----

PART ONE BASIC CONCEPTS	1
-------------------------	---

1 INTRODUCTION	3
----------------	---

For Whom the Bell Tolls / What Is Economics? 4 / Have You Ever Wondered . . . / A Historical Perspective / Definitions of Economics / The Scientific Approach 5 / Pitfalls in Economic Reasoning 7 / Failing to Keep "Other Things Equal" / The Post Hoc Fallacy / The Whole Is Not Always the Sum of the Parts / Subjectivity / Uncertainty in Economic Life / The Uses of Economics 10 / Economic Description and Policy / Economics in Government / Why Economists Disagree / Preview

Summary 12 Concepts for Review 13 Questions for Discussion 13

Appendix: 1 How to Read Graphs	14
---------------------------------------	----

The Production-Possibility Frontier 14 / Production-Possibility Graph / Slopes and Lines / Shifts of and Movement along Curves / Some Special Graphs

Summary to Appendix 21 Concepts for Review 21 Questions for Discussion 21

2 BASIC PROBLEMS OF ECONOMIC ORGANIZATION	23
---	----

A. Problems of Economic Organization	24
--------------------------------------	----

Inputs and Outputs / Alternative Economic Systems: Custom, Command, and Market / The Law of Scarcity

B. Society's Technological Possibilities 26

The Production-Possibility Frontier 26 / Efficiency / Putting the PPF to Work 29 / Pictures at an Exhibition / Opportunity Cost 32 / The Law of Diminishing Returns 33 / Some Examples

Summary 34 Concepts for Review 35 Questions for Discussion 36

3 MARKETS AND COMMAND IN A MODERN ECONOMY 37

Market, Command, and Mixed Economies

A. How Markets Solve the Basic Economic Problems 38

Not Chaos but Economic Order / The Market Mechanism 39 / Solution to the Three Problems / Who Rules? / A Picture of Prices and Markets / The Invisible Hand and 'Perfect Competition'

B. The Economic Role of Government 43

The Three Functions of Government 43 / Efficiency / Equity / Stability

C. Specialization, Money, and Capital 48

Specialization and Division of Labor 48 / The Perils of Overspecialization / Money: The Lubricant of Exchange 49 / Capital 50 / Capital, Time, and Interest

Summary 52 Concepts for Review 54 Questions for Discussion 54

4 THE ELEMENTS OF SUPPLY AND DEMAND 55

The Market Mechanism 56 / Analysis of Supply and Demand 56 / The Demand Schedule / The Demand Curve / Behind the Demand Curve / Supply Schedule and Supply Curve / Equilibrium of Supply and Demand 62 / Effect of a Shift in Supply or Demand Curves / Three Hurdles / Rationing by Prices / The Role of Perfect Competition / Three Markets

Summary 69 Concepts for Review 70 Questions for Discussion 70

PART TWO FUNDAMENTAL CONCEPTS OF MACROECONOMICS 73

5 OVERVIEW OF MACROECONOMICS 75

A. Macroeconomic Concepts and Goals 76

Objectives and Instruments in Macroeconomics 76 / Objectives / Instruments / Macroeconomic Policies and Objectives in Practice

B. Aggregate Supply and Demand 87

Inside the Macroeconomy: Aggregate Supply and Demand 87 / Definitions of Aggregate Supply and Demand / Aggregate Supply and Demand Curves / Long-Run vs. Short-Run Aggregate Supply / Output in the Short and Long Run / Aggregate Supply and Demand at Work 94 / Economic Policy / The Road Ahead

Summary 98 Concepts for Review 100 Questions for Discussion 100

6 MEASUREMENT OF NATIONAL OUTPUT AND INCOME 102

Gross National Product: The Yardstick of an Economy's Performance 103 / Real vs. Nominal GNP: "Deflating" GNP by a Price Index / Two Measures of National Product: Goods-Flow and Earnings-Flow / A Simple Example / The Problem of "Double Counting" / Details of the National Accounts 109 / Investment and Capital Formation / From Gross National Product to Net National Product / Treatment of Government / Net Exports / GNP and NNP: A Look at Numbers / From GNP to Disposable Income / The Identity of Measured Saving and Investment / Beyond GNP to Net Economic Welfare (NEW) 117

Summary 120 Concepts for Review 121 Questions for Discussion 122

7 CONSUMPTION AND INVESTMENT 123**A. Consumption and Saving 125**

Budgetary Expenditure Patterns / Consumption, Income, and Saving / The Consumption Function / The Marginal Propensity to Consume / The Marginal Propensity to Save / Brief Review of Definitions / National Consumption Behavior 133 / Determinants of Consumption / The National Consumption Function

B. The Determinants of Investment 136

Policy Channels on Investment / The Investment Demand Curve / Shifts in the Investment Demand Curve / Real vs. Nominal Interest Rates / Volatile Investment / The Declining U.S. Savings Rate 142 / On to Output Determination 144

Summary 145 Concepts for Review 145 Questions for Discussion 146

8 THE THEORY OF OUTPUT DETERMINATION 148**A. Foundations of Aggregate Supply and Demand 150**

Analytical Foundations of Aggregate Demand 150 / Behind the Aggregate Demand Curve / Alternative Views of Aggregate Demand / Determinants of Aggregate Supply 153 / Aggregate Supply and Potential Output / Alternative Views of Aggregate Supply / Keynesian and Classical Approaches Compared 158 / The Classical Model / The Keynesian Revolution Theories and Policy

B. Output Determination: The Multiplier Model 162

Using the Consumption and Savings Schedules / How Output Is Determined at the Level Where Savings and Investment Schedules Intersect 162 / The Meaning of Equilibrium / Output Determination by Consumption and Investment / An Arithmetic Analysis / The Multiplier 167 / Graphical Picture of the Multiplier / The Multiplier in Macroeconomics Today 169 / A Summing Up

Summary 170 Concepts for Review 172 Questions for Discussion 172

9 THE MULTIPLIER EXTENDED: FISCAL POLICY AND INTERNATIONAL TRADE 174

A. Fiscal Policy in the Multiplier Model 176

The Impact of Fiscal Policy 176 / Enter Government / Impact of Taxation on Aggregate Demand / A Numerical Example / Fiscal-Policy Multipliers 181 / Impact of Taxes / Fiscal Policy in Practice / The Paradox of Thrift 183 / Paradox Resolved

B. Output Determination in Open Economies 186

Impacts of Foreign Trade on Economic Activity 186 / Net Exports: Concepts and Trends / Impact of Trade on GNP / The Marginal Propensity to Import and the Spending Line / The Open-Economy Multiplier / Policy Implications 192 / Impacts of Trade Flows and Exchange Rates / Impacts of Trade Policies / Improving International Cooperation / How Large Are Multipliers? 194 / Qualifications

Summary 196 Concepts for Review 198 Questions for Discussion 198

10 AGGREGATE SUPPLY AND BUSINESS CYCLES 201

Incessant Fluctuations

A. The Supply Side 203

Determinants of Aggregate Supply / Source of Potential-Output Growth / What Causes Business Cycles? / Okun's Law 204 / Supply-Side Business Cycles / Supply-Side Economics 207

B. Business Cycles 211

Business-Cycle History 212 / Features of the Business Cycle / Business-Cycle Theories 214 / The Political Business Cycle / Combining External and Internal Factors / The Accelerator Principle / Interaction of Multiplier and Accelerator / Forecasting Business Cycles 217 / Econometric Modeling and Forecasting / The Accuracy of Economic Forecasts / Is the Business Cycle Avoidable?

Summary 220 Concepts for Review 221 Questions for Discussion 222

11 MONEY AND COMMERCIAL BANKING 224

A. History of Money 226

The Evolution of Money 226 / Definition of Money / Components of the Money Supply / Other Monetary Aggregates

B. The Demand for Money 230

Money's Functions / Motives for Holding Money 231 / Transactions Demand / Asset Demand

C. Banking and the Supply of Money 233

Banking as a Business 233 / A Business Venture / How Banks Developed from Goldsmith Establishments / Modern Fractional-Reserve Banking / Legal Reserve Requirements / The

Process of Deposit Creation 237 / Can Banks Create Money? / How Deposits Are Created: First-Generation Banks / Chain Repercussions on Other Banks / Final System Equilibrium / Deposit Destruction / Two Qualifications to Deposit Creation

Summary 243 Concepts for Review 245 Questions for Discussion 246

Appendix: 11 Stock Market Fluctuations 248

The Great Crash 249 / The Efficient-Market Theory 251 / Rationale for the Efficient-Market View / A Random Walk / Is Randomness Rational? / Objections / Investment Strategies 254

Summary to Appendix 255 Concepts for Review 255 Questions for Discussion 256

12 THE FEDERAL RESERVE AND CENTRAL BANK MONETARY POLICY 257

How Monetary Policy Works to Control Spending 258 / Recapitulation

A. The Nature of Interest Rates 260

An Array of Interest Rates / Real vs. Nominal Interest Rates

B. Central Banking 265

The Federal Reserve System 265 / Structure of the Federal Reserve / Overview of the Fed's Operations / Balance Sheet of the Federal Reserve Banks / The Nuts and Bolts of Monetary Policy 268 / Open-Market Operations / Operating Procedures / Discount-Rate Policy: A Second Instrument / Reserve Requirements / Interest-Rate Regulation / International Reserve Movements / Other Activities

Summary 276 Concepts for Review 278 Questions for Discussion 278

PART THREE MACROECONOMIC POLICY 281

13 UNEMPLOYMENT 283

Importance of Unemployment 284 / Economic Impact / Social Impact / Measuring Unemployment 284 / Criticisms of Official Estimates / Economic Interpretation of Unemployment 288 / Three Kinds of Unemployment / Microeconomic Foundations / Labor Market Issues 292 / Who Are the Unemployed? / Teenage Unemployment Primarily Frictional / The Natural Rate of Unemployment 296 / Concepts and Estimates / The Rising Natural Rate / Lowering the Natural Rate

Summary 301 Concepts for Review 303 Questions for Discussion 303

14 INFLATION: DEFINITIONS AND COSTS 305

What Is Inflation? 306 / Price Indexes / Inflation's Long History / Three Strains of Inflation / Do Inflation Accelerate? / The Impact of Inflation 313 / Impacts on Income and Wealth Distribution / Effects on Output and Employment / Analysis of Inflation's Costs 315 /

Balanced, Anticipated Inflation / Unbalanced Inflation: Inflation-Induced Distortions / Unanticipated Inflation / Unbalanced and Unanticipated Inflation / Recapitulation / The Macroeconomic Reaction / Final Appraisal

Summary 319 Concepts for Review 320 Questions for Discussion 320

15 INFLATION AND UNEMPLOYMENT 322

Alternative Sources of Inflation 324 / Inertial Inflation / Shocks to Inflation / Demand-Pull Inflation / Cost-Push Inflation / Expectations and Inertial Inflation / Price Levels vs. Inflation / The Phillips Curve 328 / Early Approaches / Applications of Early Phillips Curves / The Phillips Curve Shifts / The Natural Rate of Unemployment / The Shifting Phillips Curve / The Vertical Long-Run Phillips Curve / Review / Open Issues 336 / Is the Phillips Curve Dead? / How Long Is the Long Run? / Liquidation or Adaptation? / How Much Does It Cost to Reduce Inflation? / Wanted: An Effective Anti-Inflation Policy 339 / The Cruel Dilemma

Summary 340 Concepts for Review 342 Questions for Discussion 342

16 THE EFFECTS OF MONEY ON OUTPUT AND PRICES 345

A. How Money Affects Output 346

The Money Market 346 / Supply and Demand for Money / The Monetary Mechanism 349 / Graphical Analysis of Monetary Policy / Monetary Policy in the AD-AS Framework / Monetary Policy and Real Interest Rates

B. Issues in Monetary Policy 355

The Roots of Monetarism 355 / The Velocity of Money / The Quantity Theory of Prices / Modern Monetarism 358 / The Essence of Monetarism / Comparison with Mainstream Macroeconomics / The Monetarist Platform / Beyond Monetarism: Current Issues in Monetary Policy 363 / Effectiveness of Monetary Policy / Targets: Interest Rates or Money Stocks? / Rules vs. Discretion / Monetary Policy in an Open Economy / Monetary vs. Fiscal Policy

Summary 367 Concepts for Review 369 Questions for Discussion 370

Appendix: 16 The Rational-Expectations Approach 372

The Rational-Expectations Postulates 373 / Assumption I—Rational Expectations / Assumption II—Flexible Prices and Wages / Rational Expectations and the Labor Market 374 / Why High Unemployment? / Policy Ineffectiveness 377 / Fixed Rules Optimal / Monetarist Rules and the Lucas Critique / State of the Debate 378 / A New Synthesis

Summary to Appendix 381 Concepts for Review 382 Questions for Discussion 382

17 FISCAL POLICY, DEFICITS, AND THE GOVERNMENT DEBT 383

A. Budgets and Fiscal Policy 384

Basic Definitions / The Making of Fiscal Policy 385 / Automatic vs. Discretionary Policy / Automatic Stabilizers / Limitations of Automatic Stabilizers / Discretionary Fiscal Policy / Fiscal Deficits: Concepts and Trends 388 / Old-Fashioned Public Finance / Modern Public

Finance / Structural vs. Cyclical Deficits / Applications of Cyclical and Structural Budgets / The Soaring Fiscal Deficits after 1979

B. The Interaction of Monetary and Fiscal Policies 392

*Demand Management / The Policy Mix / The Mix in Practice / **The Crowding-Out Controversy 394** / Crowding Out and the Money Market / Impacts of Structural Deficits / Investment Encouragement / Empirical Evidence / A New Discipline?*

C. Economic Consequences of Government Debt 398

*Meaning and History of Government Debt 398 / Definitions / Historical Trends / Some Old Myths / **Genuine Debt Burdens 400** / External vs. Internal Debt / Efficiency Losses from Taxation / Displacement of Capital / Valediction*

Summary 405 Concepts for Review 406 Questions for Discussion 407

Appendix: 17 Advanced Treatment of Monetary and Fiscal Policy 410

*Classical Themes 410 / Modern Treatments: IS-LM Analysis 411 / The IS Curve / The LM Curve / Interaction / A Monetarist LM Curve / **Effect of Policy Shifts 414** / Monetary Policy / Fiscal Policy / Crowding Out / The Monetary-Fiscal Mix*

Summary to Appendix 416 Concepts for Review 416 Questions for Discussion 416

PART FOUR ECONOMIC GROWTH AND INTERNATIONAL TRADE 419

18 ECONOMIC GROWTH: THEORY AND EVIDENCE 421

A. The Theory of Economic Growth 422

*Stages of History 422 / Fact and Fiction / **Economic Theories 424** / The ‘Magnificent Dynamics’ of Smith and Malthus / Economic Growth with Capital Accumulation / Geometrical Analysis of the Neoclassical Model / Technological Change and Continued Growth*

B. The Trends and Sources of Economic Growth 429

*The Stylized Facts of Economic Growth 429 / Seven Basic Trends of Economic Development / Analyzing the Economic Growth of the Mixed Economy / **The Sources of Economic Growth 432** / The Growth-Accounting Approach / Detailed Studies / The Productivity Slowdown / Speeding Economic Growth / Epilogue*

Summary 437 Concepts for Review 438 Questions for Discussion 438

Appendix: 18 Modern Economic-Growth Theories 444

Schumpeterian Innovation 441 / Neoclassical Growth Model 442 / Explaining the Trends / Input-Output Tables 443

Summary to Appendix 446 Concepts for Review 446 Questions for Discussion 446

19	THE ECONOMICS OF DEVELOPING COUNTRIES	447
	A. Developing Countries	448
	<i>Definitions / Life in Low-Income Countries</i>	
	B. Population and Economic Conditions	449
	<i>The Legacy of Malthus 450 / The New Malthusians / Modern Views on Population 452 / Birth and Death Rates / The Demographic Transition / Population Explosion</i>	
	C. The Process of Economic Development	455
	<i>The Four Elements in Development 455 / Human Resources / Natural Resources / Capital Formation / Foreign Borrowing and the Debt Crisis / Technological Change and Innovations / Vicious Cycle / Strategies of Economic Development 458 / Comprehensive Theories / Recent Approaches to Development / Issues in Economic Development</i>	
	Summary 463 Concepts for Review 465 Questions for Discussion 465	
20	INTERNATIONAL TRADE AND THE THEORY OF COMPARATIVE ADVANTAGE	467
	<i>International vs. Domestic Trade</i>	
	A. Economic Basis for International Trade	468
	<i>Trends in Foreign Trade / The Sources of International Trade 469 / Diversity in Conditions of Production / Decreasing Costs / Differences in Tastes / The Principle of Comparative Advantage 471 / Uncommon Sense / The Logic of Comparative Advantage / Ricardo's Analysis of Comparative Advantage / The Economic Gains from Trade / Effects of Tariffs and Quotas / Extensions to Many Commodities and Countries 475 / Many Commodities / Many Countries / Triangular and Multilateral Trade / Graphical Analysis of Comparative Advantage 476 / America without Trade / Opening Up to Trade / Qualifications and Conclusions</i>	
	B. The Balance of International Payments	480
	<i>Balance-of-Payment Accounts 480 / Debits and Credits / Details of the Balance of Payments / Stages of the Balance of Payments 483</i>	
	Summary 484 Concepts for Review 486 Questions for Discussion 486	
21	PROTECTIONISM AND FREE TRADE	489
	<i>Supply-and-Demand Analysis of Trade and Tariffs 490 / Supply-and-Demand Analysis of a Single Traded Good / Tariffs and Quotas / The Economic Costs of Tariffs / Diagrammatic Analysis / An Example of Tariffs on Textiles / The Economics of Protectionism 495 / Non-Economic Goals / Grounds for Tariffs Not Based on Sound Economics / Arguments for Protection under Dynamic Conditions / Other Barriers to Trade / Multilateral Trade Negotiations 501 / Negotiating Free Trade</i>	
	Summary 503 Concepts for Review 504 Questions for Discussion 504	

22	EXCHANGE RATES AND THE INTERNATIONAL FINANCIAL SYSTEM	507
	A. The Determination of Foreign Exchange Rates	508
	<i>Foreign Exchange Rates 508 / The Foreign Exchange Market 509 / Terminology for Exchange-Rate Changes / Three Major Exchange-Rate Systems 511 / The Classical Gold Standard 513 / Hume's Gold-Flow Equilibrating Mechanism / Flexible Exchange Rates 513 / Freely Floating Exchange Rates / Managed Floating Exchange Rates</i>	
	B. Evolution of the International Monetary System	515
	<i>Building International Institutions after World War II 515 / The Bretton Woods System / The International Monetary Fund (IMF) / The World Bank / Demise of the Bretton Woods System / Today's System of Managed Floating Exchange Rates / Current International Economic Problems 518 / What Role for Gold? / The Volatile Dollar / Assessment of Flexible Exchange Rates / America in Decline?</i>	
	Summary 526 Concepts for Review 527 Questions for Discussion 528	
	EPILOGUE	531
	GLOSSARY	535
	INDEX	555
