

# *Contents*

Foreword	vii
<b>1</b> Industrial Power Plants and Steam Systems	1-1
<b>2</b> Steam Power Plants for Utility Stations	2-1
<b>3</b> Power Plant Costs—Their Estimation and Use	3-1
<b>4</b> Cogeneration Engineering and Design	4-1
<b>5</b> Hydroelectric Power Systems	5-1
<b>6</b> Geothermal, Solar, Wind, Wave, and Ocean Thermal Difference Energy Systems	6-1
<b>7</b> Energy from Municipal Wastes	7-1
<b>8</b> Energy Storage Systems	8-1
<b>9</b> Environmental Aspects of Power Generation	9-1
<b>10</b> Economic Operation of Power Systems	10-1
<b>11</b> Power System Reliability Factors	11-1
Bibliography	11-16
Index	I-1
