CONTENTS

PART I: STEPPING INTO THE WEB I

Chapter 1 The World Isn't Flat 3
Chapter 2 Virtually Amazing 27
Chapter 3 Window to the World: WebFX and Live3D 55
Chapter 4 Other Exposures 71

PART II: LEARNING 3D MODELING 93

Chapter 5 Creating Worlds with 3D Software 95
Chapter 6 The Basics of 3D Modeling 115
Chapter 7 Using Imagine 145
Chapter 8 Basic Modeling Tools 171
Chapter 9 3D Modeling Power Tools 199
Chapter 10 Skinning and Deformations 221
Chapter 11 Coloring and Shading Objects 249
Chapter 12 Applying Surface Attributes and Textures 275
Chapter 13 Creating a Scene in Fountain 299
Chapter 14 Trading Worlds: Converting 319

PART III: PROGRAMMING WITH VRML 331

Chapter 15 Very, Very VRML 333
Chapter 16 Building Blocks: Shape Nodes 367
Chapter 17 Ganging Up: Groups 389
Chapter 18 You've Got the Look: Properties 405
Chapter 19 Let There Be Light (and Texture and Cameras) 453
Chapter 20 Jumping from World to World 493
Chapter 21 I Want More: Extending VRML 511
Chapter 22 VRML Made-to-Order 521

PART IV: THE NITTY-GRITTY 533

Chapter 23 Delivering Reality: Server VRML 535
Chapter 24 The World's Gears: Client VRML 549
Chapter 25 Making It Really Real: VRML 2.0 555

Appendix A Software and Sources 577
Appendix B The VRML 1.1 Specification 583
Appendix C 3D Modeling Software and Windows 95 643
