# Contents

Preface xv

## CHAPTER 1

### Earth and Its Atmosphere 3

The Atmosphere and the Scientific Method 4

Overview of Earth's Atmosphere 4

The Early Atmosphere 5

Composition of Today's Atmosphere 6

#### FOCUS ON A SPECIAL TOPIC 1.1

A Breath of Fresh Air 7

Vertical Structure of the Atmosphere 11

A Brief Look at Air Pressure and Air Density 11

Layers of the Atmosphere 12

#### FOCUS ON A SPECIAL TOPIC 1.2

The Atmospheres of Other Planets 14

#### FOCUS ON AN OBSERVATION 1.3

The Radiosonde 15

The Ionosphere 17

Weather and Climate 17

Meteorology—A Brief History 18

A Satellite's View of the Weather 19

Weather and Climate in Our Lives 22

#### FOCUS ON A SPECIAL TOPIC 1.4

What Is a Meteorologist? 26

Summary 27

Key Terms 27

Questions for Review 27

Questions for Thought 28

Problems and Exercises 29

## CHAPTER 2

### Energy: Warming and Cooling Earth and the Atmosphere 31

Energy, Temperature, and Heat 32

Temperature Scales 33

Specific Heat 34

Latent Heat—The Hidden Warmth 34

#### FOCUS ON A SPECIAL TOPIC 2.1

The Fate of a Sunbeam 36

Heat Transfer in the Atmosphere 36

Conduction 36

Convection 37

#### FOCUS ON A SPECIAL TOPIC 2.2

Rising Air Cools and Sinking Air Warms 38

Radiant Energy 39

Radiation and Temperature 40

Radiation of the Sun and Earth 40

Radiation: Absorption, Emission, and Equilibrium 41

#### FOCUS ON AN ENVIRONMENTAL ISSUE 2.3

Wave Energy, Sunburning, and UV Rays 42

Selective Absorbers and the Atmospheric Greenhouse Effect 43

Enhancement of the Greenhouse Effect 46

Warming the Air from Below 47

Shortwave Radiation Streaming from the Sun 47

#### FOCUS ON AN OBSERVATION 2.4

Blue Skies, Red Suns, and White Clouds 48

Earth's Annual Energy Balance 49

Solar Particles, the Aurora, and Space Weather 51

#### FOCUS ON A SPECIAL TOPIC 2.5

Characteristics of the Sun 52

Solar Storms and Space Weather 54

Summary 55

Key Terms 55

Questions for Review 55

Questions for Thought 56

Problems and Exercises 57

## CHAPTER 3

### Seasonal and Daily Temperatures 59

- Why Earth Has Seasons 60
  - Seasons in the Northern Hemisphere 60
- FOCUS ON A SPECIAL TOPIC 3.1**
  - Is December 21 Really the First Day of Winter? 64
- Seasons in the Southern Hemisphere 65
- Local Seasonal Variations 66
  - FOCUS ON AN ENVIRONMENTAL ISSUE 3.2**
    - Solar Heating and the Noonday Sun 67
- Daily Warming and Cooling of Air Near the Surface 68
  - Daytime Warming 68
  - Extreme High Temperatures 69
  - Nighttime Cooling 70
  - Cold Air at the Surface 71
  - Protecting Crops from the Cold Night Air 72
  - Record Low Temperatures 73
  - Daily Temperature Variations 75
- FOCUS ON A SPECIAL TOPIC 3.3**
  - When It Comes to Temperature, What's Normal? 77
- Regional Temperature Variations 77
- Applications of Air Temperature Data 80
  - Air Temperature and Human Comfort 82
- FOCUS ON AN OBSERVATION 3.4**
  - A Thousand Degrees and Freezing to Death 83
- Measuring Air Temperature 84
- FOCUS ON AN OBSERVATION 3.5**
  - Why Thermometers Should Be Read in the Shade 86
- Summary 87
- Key Terms 87
- Questions for Review 87
- Questions for Thought 88
- Problems and Exercises 89

## CHAPTER 4

### Atmospheric Humidity 91

- Circulation of Water in the Atmosphere 92
- The Many Phases of Water 93
- Evaporation, Condensation, and Saturation 93
- Humidity 95
  - Absolute Humidity 95
  - Specific Humidity and Mixing Ratio 95
  - Vapor Pressure 96
  - Relative Humidity 97
- FOCUS ON A SPECIAL TOPIC 4.1**
  - Vapor Pressure and Boiling—The Higher You Go, The Longer Cooking Takes 98
- Relative Humidity and Dew Point 99
- Comparing Humidities 102
- Relative Humidity in the Home 103
- Relative Humidity and Human Discomfort 104
- FOCUS ON A SPECIAL TOPIC 4.2**
  - Computing Relative Humidity and Dew Point 105
- Measuring Humidity 107
- FOCUS ON A SPECIAL TOPIC 4.3**
  - Which Is "Heavier"—Humid Air or Dry Air? 108
- Summary 109
- Key Terms 109
- Questions for Review 109
- Questions for Thought 110
- Problems and Exercises 111

## CHAPTER 5

### Condensation: Dew, Fog, and Clouds 113

- The Formation of Dew and Frost 114
- Condensation Nuclei 115
- Haze 115
- Fog 116
  - Radiation Fog 117
  - Advection Fog 118
- FOCUS ON AN OBSERVATION 5.1**
  - Why Are Headlands Usually Foggier Than Beaches? 119
- Upslope Fog 119
- FOCUS ON A SPECIAL TOPIC 5.2**
  - Fog That Forms by Mixing 120
  - Evaporation (Mixing) Fog 120
- Foggy Weather 122
- Clouds 124
  - Classification of Clouds 124
  - Cloud Identification 124
  - Some Unusual Clouds 130
  - Cloud Observations 132
  - Satellite Observations 133

**FOCUS ON AN OBSERVATION 5.3**

Measuring Cloud Ceilings 134

**FOCUS ON AN OBSERVATION 5.4**

GOES-16: New Windows on the Atmosphere 135

**FOCUS ON A SPECIAL TOPIC 5.5**

Satellites Do More Than Observe Clouds 138

Summary 140

Key Terms 140

Questions for Review 140

Questions for Thought 141

Problems and Exercises 141

**CHAPTER 6**

**Stability and Cloud Development 143**

Atmospheric Stability 144

Determining Stability 145

A Stable Atmosphere 145

An Unstable Atmosphere 147

A Conditionally Unstable Atmosphere 148

Causes of Instability 148

**FOCUS ON A SPECIAL TOPIC 6.1**

Subsidence Inversions—Put a Lid on It 150

Cloud Development 152

**FOCUS ON A SPECIAL TOPIC 6.2**

Atmospheric Stability and Windy Afternoons—

Hold On to Your Hat 153

Convection and Clouds 153

Topography and Clouds 156

**FOCUS ON AN OBSERVATION 6.3**

Determining Convective Cloud Bases 157

Clouds That Form Downwind of Mountains 159

Changing Cloud Forms 159

**FOCUS ON AN ADVANCED TOPIC 6.4**

Adiabatic Charts 160

Summary 164

Key Terms 164

Questions for Review 164

Questions for Thought 165

Problems and Exercises 165

**CHAPTER 7**

**Precipitation 167**

Precipitation Processes 168

How Do Cloud Droplets Grow Larger? 168

Collision and Coalescence Process 169

Ice-Crystal (Bergeron) Process 171

**FOCUS ON A SPECIAL TOPIC 7.1**

The Freezing of Tiny Cloud Droplets 172

Cloud Seeding and Precipitation 174

Precipitation in Clouds 175

**FOCUS ON AN ENVIRONMENTAL ISSUE 7.2**

Does Cloud Seeding Enhance Precipitation? 176

Precipitation Types 177

Rain 177

Snow 178

**FOCUS ON A SPECIAL TOPIC 7.3**

Are Raindrops Tear Shaped? 179

Snowflakes and Snowfall 179

**FOCUS ON A SPECIAL TOPIC 7.4**

Snowing When the Air Temperature Is Well Above Freezing 180

A Blanket of Snow 182

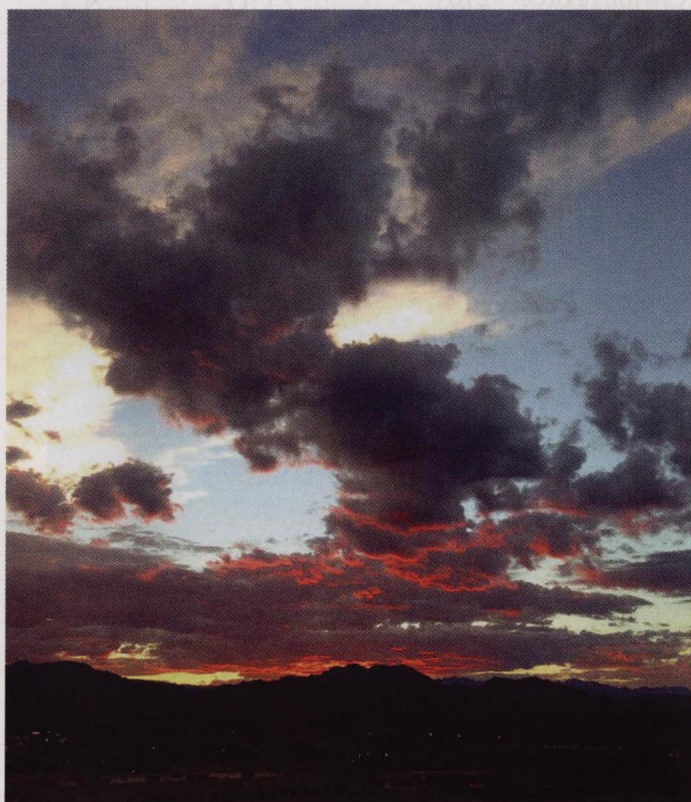

**FOCUS ON A SPECIAL TOPIC 7.5**

Sounds and Snowfalls 183

Sleet and Freezing Rain 183

**FOCUS ON AN OBSERVATION 7.6**

Aircraft Icing 185

| Summary                | 258 |
| Key Terms              | 258 |
| Questions for Review   | 258 |
| Questions for Thought  | 259 |
| Problems and Exercises | 260 |

## CHAPTER 10

### Wind: Global Systems 263

|  |     |
|--|-----|
| General Circulation of the Atmosphere              | 264 |
| Single-Cell Model                                  | 264 |
| Three-Cell Model                                   | 265 |
| Average Surface Winds and Pressure: The Real World | 267 |
| The General Circulation and Precipitation Patterns | 269 |
| Average Wind Flow and Pressure Patterns Aloft      | 270 |
| <b>FOCUS ON AN OBSERVATION 10.1</b>                |     |
| The "Dishpan" Experiment                           | 272 |
| Jet Streams  | 272 |
| The Formation of Jet Streams                       | 274 |
| Other Jet Streams                                  | 275 |
| Atmosphere-Ocean Interactions                      | 276 |
| Global Wind Patterns and Surface Ocean Currents    | 277 |
| Upwelling  | 278 |
| El Niño, La Niña, and the Southern Oscillation     | 279 |
| Pacific Decadal Oscillation                        | 285 |
| <b>FOCUS ON AN SPECIAL TOPIC 10.2</b>              |     |
| The Challenge of Predicting El Niño and La Niña    | 286 |
| North Atlantic Oscillation and Arctic Oscillation  | 287 |
| Summary  | 290 |
| Key Terms  | 290 |
| Questions for Review                               | 290 |
| Questions for Thought                              | 291 |
| Problems and Exercises                             | 291 |

## CHAPTER 11

### Air Masses and Fronts 293

|                                      |     |
|--------------------------------------|-----|
| Air Masses                           | 294 |
| Source Regions                       | 294 |
| Classification                       | 294 |
| Air Masses of North America          | 295 |
| <b>FOCUS ON A SPECIAL TOPIC 11.1</b> |     |
| Lake-Effect (Enhanced) Snows         | 297 |
| <b>FOCUS ON A SPECIAL TOPIC 11.2</b> |     |
| The Return of The Siberian Express   | 300 |
| <b>FOCUS ON A SPECIAL TOPIC 11.3</b> |     |
| Rivers in the Atmosphere             | 303 |
| Fronts                               | 305 |
| Stationary Fronts                    | 306 |
| Cold Fronts                          | 306 |
| Warm Fronts                          | 309 |

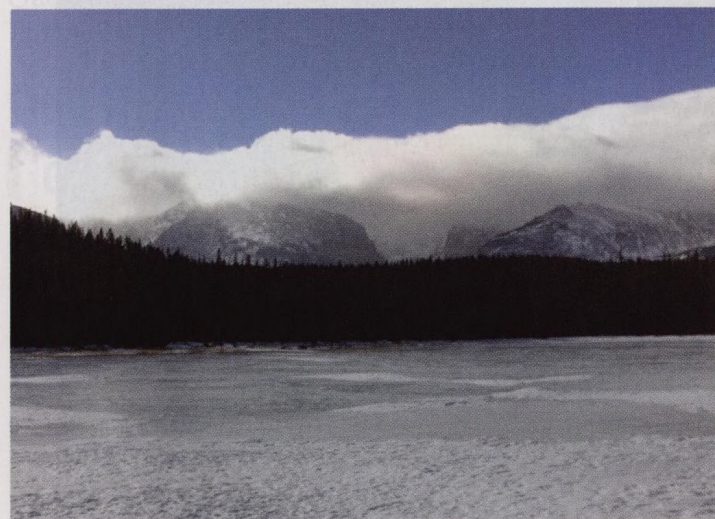

### FOCUS ON A SPECIAL TOPIC 11.4

|                        |     |
|------------------------|-----|
| The Wavy Warm Front    | 312 |
| Drylines               | 312 |
| Occluded Fronts        | 313 |
| Upper-Air Fronts       | 315 |
| Summary                | 317 |
| Key Terms              | 317 |
| Questions for Review   | 317 |
| Questions for Thought  | 318 |
| Problems and Exercises | 319 |

## CHAPTER 12

### Middle-Latitude Cyclones 321

|   |     |
|---|-----|
| Polar Front Theory  | 322 |
| Where Do Mid-Latitude Cyclones Tend to Form?                    | 323 |
| <b>FOCUS ON A SPECIAL TOPIC 12.1</b>                            |     |
| Nor'easters   | 325 |
| Vertical Structure of Deep Dynamic Lows                         | 326 |
| The Roles of Converging and Diverging Air                       | 327 |
| <b>FOCUS ON A SPECIAL TOPIC 12.2</b>                            |     |
| A Closer Look at Convergence and Divergence                     | 328 |
| Upper-Level Waves and Mid-Latitude Cyclones                     | 328 |
| The Necessary Ingredients for a Developing Mid-Latitude Cyclone | 330 |
| Upper-Air Support   | 330 |
| The Role of the Jet Stream                                      | 331 |
| <b>FOCUS ON A SPECIAL TOPIC 12.3</b>                            |     |
| Jet Streaks and Storms  | 332 |
| Conveyor Belt Model of Mid-Latitude Cyclones                    | 333 |
| A Developing Mid-Latitude Cyclone—The March Storm of 1993       | 334 |
| Vorticity, Divergence, and Developing Mid-Latitude Cyclones     | 337 |
| Vorticity on a Spinning Planet                                  | 337 |

**FOCUS ON A SPECIAL TOPIC 12.4**

- Vorticity and Longwaves 339
- Vorticity Advection and Shortwaves 340
- Putting It All Together—A Massive Snowstorm 341
- Polar Lows 342

- Summary 343
- Key Terms 343
- Questions for Review 343
- Questions for Thought 344
- Problems and Exercises 344

**CHAPTER 13****Weather Forecasting 347**
