<i>Preface</i>	v	
<i>Acknowledgments</i>	xiii	
<i>About the Authors</i>	xv	
Chapter 1	Antonie van Leeuwenhoek (1632–1723): The First Microbiologist	1
Chapter 2	Robert Hooke (1635–1703): The First to Observe the Existence of Microorganisms	10
Chapter 3	Lazzaro Spallanzani (1729–1799): Fighting Against the Odds	14
Chapter 4	Edward Jenner (1749–1823): The First and Greatest Success of Immunization	20
Chapter 5	Agostino Maria Bassi (1773–1856): Pioneer of Studying Contagious Disease	31
Chapter 6	Ignaz Philipp Semmelweis (1818–1865): Savior of Mothers	36
Chapter 7	Louis Pasteur (1822–1895): The Master of Microbiology	49
Chapter 8	Ferdinand Julius Cohn (1828–1898): Pioneer of Bacteriology	69

Chapter 9	Joseph Lister (1827–1912): Pioneer of Antisepsis	75
Chapter 10	Heinrich Anton de Bary (1831–1888): Pioneer of Mycology	84
Chapter 11	Thomas Jonathan Burrill (1839–1916): Pioneer of Microbe and Plant Diseases	90
Chapter 12	Gerhard Henrik Armauer Hansen (1841–1912): Pioneer of Leprosy Studies	97
Chapter 13	Robert Koch (1843–1910): The Great Medical Microbiologist	105
Chapter 14	Élie Metchnikoff (1845–1916): Phagocytosis and Immunology	121
Chapter 15	Charles Louis Alphonse Laveran (1845–1922): Discoverer of the Malaria Parasite	133
Chapter 16	Martinus Willem Beijerinck (1851–1931): Pioneer of General Microbiology	143
Chapter 17	Walter Reed (1851–1902): Yellow Fever Fighter	154
Chapter 18	Emile Roux (1853–1933): Diseases Fighter	167
Chapter 19	Emil von Behring (1854–1917): Pioneer of Serology	174
Chapter 20	Erwin F. Smith (1854–1927): Father of Plant Pathology	182
Chapter 21	David Bruce (1855–1931): Pioneer of Veterinary Microbiology	188
Chapter 22	Sergei N. Winogradsky (1856–1953): Founder of Soil and General Microbiology	195
Chapter 23	Kitasato Shibasaburo (1853–1931): First to Isolate <i>Clostridium tetani</i> and a Pioneer of Serology	214

Chapter 24	Theobald Smith (1859–1934): The Captain of American Microbe Hunters	224
Chapter 25	Alexandre Yersin (1863–1943): Pioneer of Plague Fighter	237
Chapter 26	Albert Leon Charles Calmette (1863–1933): Antituberculosis and BCG Vaccination	242
Chapter 27	Charles J. H. Nicolle (1866–1936): Pioneer of Typhus Studies	260
Chapter 28	Howard Taylor Ricketts (1871–1910): Pioneer of Rickettsial Diseases Studies	265
Chapter 29	Chaim A. Weizmann (1874–1952): Pioneer of Industrial Microbiology and First President of Israel	271
Chapter 30	Oswald Theodore Avery (1877–1955): Microbiological Genetic Transmission and DNA	281
Chapter 31	Frederick Griffith (1879–1941): Discovery of Transformation	289
Chapter 32	Alexander Fleming (1881–1955): The Discovery of Penicillin	296
Chapter 33	Albert Jan Kluyver (1888–1956): Unity of Biochemistry and Pioneer of General Microbiology	309
Chapter 34	Gerhardt J. Domagk (1895–1964): Pioneer of Sulfur Drug Chemotherapy	315
Chapter 35	Paul Henry de Kruif (1890–1971): Gas Gangrene Research and Historian of Microbiology	322
Chapter 36	William C. Frazier (1894–1991): Pioneer of Dairy and Food Microbiologist	329

Chapter 37	Ira Lawrence Baldwin (1895–1999): Pioneer of Agricultural Microbiology and Education	339
Chapter 38	Cornelis B. van Niel (1897–1985): Educator and Pioneer of Bacterial Photosynthesis and General Microbiology	349
Chapter 39	Max Theiler (1899–1972): Yellow Fever Vaccine Developer	358
Chapter 40	René Jules Dubos (1901–1982): Pioneer of Bacterial Antibiotics and Environmental Microbiology	369
Chapter 41	Barbara McClintock (1902–1992): Pioneer of Microcellular Directed Genetics	373
Chapter 42	George W. Beadle (1903–1989): Pioneer of Biochemical Genetics	381
Chapter 43	Edward Lawrie Tatum (1909–1975): Pioneer of Molecular Genetics	397
Chapter 44	Horace A. Barker (1907–2000): Pioneer of Anaerobic Metabolism	408
Chapter 45	Deam Hunter Ferris (1912–1993): Pioneer of Epizoonotic Studies	419
Chapter 46	Herman J. Phaff (1913–2001): Pioneer of Yeast Biology	430
Chapter 47	Harold Boyd Woodruff (1917–2017): Antibiotics Hunter and Distinguished Soil Microbiologist	441
Chapter 48	Ralph S. Wolfe (1921 to Present): Pioneer of Biochemistry of Methanogenesis	464
Chapter 49	Esther Miriam (Zimmer) Lederberg (1922–2006): Transduction and Replica Plating	472
Chapter 50	Marvin P. Bryant (1925–2000): Bacteria in Methanogenic Ecosystems	477

Chapter 51	Joshua Lederberg (1925–2008): Pioneer of Microbial Genetics	485
Chapter 52	Hubert A. Lechevalier (1926–2015): Antibiotics Hunter and Actinomycetologist	493
Chapter 53	Thomas D. Brock (1926 to Present): A Successful Modern Microbes Hunter	504
Chapter 54	Arnold L. Demain (1927 to Present): A Giant of Industrial Microbiology	516
Chapter 55	Bruce N. Ames (1928 to Present): A Pioneer of Genetic Toxicology and Molecular Mutagenesis	527
Chapter 56	Richard L. Crowell (1930 to Present): Cellular Receptors and Viral Infection	538
Chapter 57	Peter Charles Doherty (1940 to Present): Pioneer of Immunology	550
	<i>Name Index</i>	561
	<i>Subject Index</i>	573
