Table of Contents

Preface vii
What this book is about vii
What you need to know to make this book work for you viii
How the book is organized ix

Chapter 1: Why R? 1

Chapter 2: Import, Explore, Graph I—*Getting Started* 5
2.1 *Where* to put your data 7
2.2 Make a folder for your instructions (code, script) 10
2.3 How to get your data into R and where it is stored in R's brain 10
2.4 Working with R—hints for a successful first (and more) interaction 11
2.5 Make your first script file 15
2.6 Starting to control R 18
2.7 Making R work for you—developing a workflow 19
2.8 And finally... 21

Chapter 3: Import, Explore, Graph II—*Importing and Exploring* 23
3.1 Getting your data into R 23
3.2 Checking that your data is your data 26
3.3 Summarizing your data—quick version 28
3.4 How to isolate, find, and grab parts of your data—I 28
3.5 How to isolate, find, and grab parts of your data—II 30
3.6 Aggregation and how to use a help file 31
3.7 What your first script might look like (what you should now know) 35

Chapter 4: Import, Explore, Graph III—*Graphs* 39

4.1 The first step in data analysis—making a picture 39
4.2 Making a picture—bar graphs 40
4.2.1 Pimp my barplot 44
4.3 Making a picture—scatterplots 50
4.3.1 Pimp my scatterplot: axis labels 53
4.3.2 Pimp my scatterplot: points 54
4.3.3 Pimp my scatterplot: colours (and groups) 56
4.3.4 Pimp my scatterplot: legend 59
4.4 Plotting extras: pdfs, layout, and the lattice package 64

Chapter 5: Doing your Statistics in R—*Getting Started* 65

5.1 Chi-square 66
5.2 Two sample t-test 70
5.2.1 The first step: plot your data 72
5.2.2 The two sample t-test analysis 76
5.3 General linear models 77
5.3.1 Always start with a picture 78
5.3.2 Potential statistical and biological hypotheses—it's all about lines 80
5.3.3 Specifying the model 83
5.3.4 Plot, model, then assumptions 84
5.3.5 Interpretation 86
5.3.6 Treatment contrasts and coefficients 89
5.3.7 Interpretation 89
5.4 Making a publication quality figure 92
5.4.1 Coefficients, lines, and lines() 93
5.4.2 Expanded grids, prediction, and a more generic model plotting method 94
5.4.3 The final picture 99
5.4.4 An analysis workflow 101

Chapter 6: Final Comments and Encouragement 105

Appendix: References and Datasets 109
Index 111
