REVIEW ARTICLE

- Ellagic acid, pomegranate and prostate cancer — a mini review** 139–144
Carolyn Bell and Susan Hawthorne

RESEARCH PAPERS

Pharmaceutics and Drug Delivery

- In-vitro permeation of drugs into porcine hair follicles: is it quantitatively equivalent to permeation into human hair follicles?** 145–151
Yakov Frum, Gillian M. Eccleston and Victor M. Meidan

Biopharmaceutics and Drug Disposition

- Effects of cysteine on metformin pharmacokinetics in rats with protein-calorie malnutrition: partial restoration of some parameters to control levels** 153–161
Young H. Choi, Inchul Lee and Myung G. Lee

- Transport of fluoroalkyl dihydroartemisinin derivatives across rat intestinal tissue** 163–169
Federica Bigucci, Tayou Kamsu-Kom, Constance Cholet, Madeleine Besnard, Danièle Bonnet-Delpon and Gilles Ponchel

- Pharmacokinetics and brain uptake of AM-36, a novel neuroprotective agent, following intravenous administration to rats** 171–178
Joseph A. Nicolazzo, Tien T. Nguyen, Kasiram Katneni, Jessica A. Steuten, Gregg Smith, Bevy Jarrott, Jennifer K. Callaway and Susan A. Charman

Molecular and Clinical Pharmacology

- Anti-osteosarcoma effects and mechanisms of 4-O-amino-phenol-4'-demethylepipodophyllotoxin ether** 179–188
Tuan-Min Yang, Shi-Fang Guo, Chang-Rui Chen, Xiao-Yu Zhang and Wen-Guang Li

- Evaluation of the NO-releasing properties of NO-donor linkers** 189–195
Vincenzo Calderone, Maria Digiacomio, Alma Martelli, Filippo Minutolo, Simona Rapposelli, Lara Testai and Aldo Balsamo

- N-Acetyl-D-glucosamine oligosaccharides induce mucin secretion from colonic tissue and induce differentiation of human keratinocytes** 197–204
Alexandra Deters, Frank Petereit, Jörg Schmidgall and Andreas Hensel

- Cytotoxic effects and pro-apoptotic mechanism of TBIDOM, a novel dehydroabietylamine derivative, on human hepatocellular carcinoma SMMC-7721 cells** 205–211
Fu Li, Ling He, Zhan-Qian Song, Jin-Cheng Yao, Xiao-Ping Rao and Hai-Tao Li

- Anti-tumour effects of HL-37, a novel anthracene derivative, in-vivo and in-vitro** 213–219
Song-Qiang Xie, Guo-Qiang Hu, Zhong-Quan Zhang, Mei Xu and Bian-Sheng Ji

- Suppression of adjuvant arthritis by hesperidin in rats and its mechanisms** 221–228
Rong Li, Jun Li, Li Cai, Cheng-mu Hu and Lei Zhang

Drugs from Natural Sources

- Relaxant action mechanism of berberine identified as the active principle of *Argemone ochroleuca* Sweet in guinea-pig tracheal smooth muscle** 229–236
María Elena Sánchez-Mendoza, Carlos Castillo-Henkel and Andrés Navarrete

- Oral administration of submerged cultivated *Grifola frondosa* enhances phagocytic activity in normal mice** 237–243
Lisu Wang, Choi-Lan Ha, Tso-Lin Cheng, Su-Yun Cheng, Tzi-Wei Lian and Ming-Jiuan Wu

- Gastroprotective activity of ferruginol in mice and rats: effects on gastric secretion, endogenous prostaglandins and non-protein sulfhydryls** 245–251
Carlos Areche, Cristina Theoduloz, Tania Yáñez, Alba R. M. Souza-Brito, Víctor Barbastefano, Débora de Paula, Anderson L. Ferreira, Guillermo Schmeda-Hirschmann and Jaime A. Rodríguez

- Cytotoxic activity of an octadecenoic acid extract from *Euphorbia kansui* (Euphorbiaceae) on human tumour cell strains** 253–259
Farong Yu, Shunqing Lu, Fahong Yu, Junnian Shi, Peter M. McGuire and Rui Wang

- Antioxidant and antibacterial activity of two compounds (forsythiaside and forsythin) isolated from *Forsythia suspensa*** 261–266
Huanhuan Qu, Yongmin Zhang, Yan Wang, Baixue Li and Wenji Sun

COMMUNICATION

- Potential relationships between transaminase abnormality and valproic acid clearance or serum carnitine concentrations in Japanese epileptic patients** 267–272
Shuji Goto, Takayuki Seo, Takashi Hagiwara, Kentaro Ueda, Tsuyuko Yamauchi, Shiro Nagata, Yukio Ando, Takateru Ishitsu and Kazuko Nakagawa
