Invited Review

Cummins EP, Taylor CT:
Hypoxia-responsive transcription factors 363

Cardiovascular System

Balanos GM, Talbot NP, Robbins PA, Dorrington KL:
Separating the direct effect of hypoxia from the indirect effect
of changes in cardiac output on the maximum pressure
difference across the tricuspid valve in healthy humans 372

Cell and Molecular Physiology

Knott TK, Velázquez-Marrero C, Lemos JR:
ATP elicits inward currents in isolated vasopressinergic
neurohypophysial terminals via P2X₂ and P2X₃ receptors 381

Endocrinology

Carnio EC, Stabile AM, Batalhão ME, Silva JS, Antunes-Rodrigues J,
Branco LGS, Magder S:
Vasopressin release during endotoxaemic shock in mice lacking
inducible nitric oxide synthase 390

Misler S, Dickey A, Barnett DW:
Maintenance of stimulus-secretion coupling and single beta-cell
function in cryopreserved-thawed human islets of Langerhans 395

Epithelial Transport

Musa-Aziz R, Mello-Aires M:
Action of ANG II and ANP on colon epithelial cells 405

Ion Channels, Transporters

Holm LM, Jahn TP, Møller ALB, Schjoerring JK, Ferri D, Klaerke DA,
Zeuthen T:
NH₃ and NH₄⁺ permeability in aquaporin-expressing *Xenopus*
oocytes 415

Hede SE, Amstrup J, Klaerke DA, Novak I:
P2Y₂ and P2Y₄ receptors regulate pancreatic Ca²⁺-activated K⁺
channels differently 429

Skeletal Muscle

Whitman SA, Wacker MJ, Richmond SR, Godard MP:
Contributions of the ubiquitin-proteasome pathway and
apoptosis to human skeletal muscle wasting with age 437

Acknowledgement to Referees 447

Abstracts

Belgian Society of Fundamental and Clinical Physiology and
Pharmacology:
Abstracts of the Spring Meeting
23 April 2005, Brussels, (Université Libre de Bruxelles), Belgium R1

Forthcoming articles in print

published online and citable with the DOI (Digital Object Identifier) can
be found at springerlink.com

Indexed in/abstracted by *Current Contents*, *Index Medicus*,
and *EMBASE/Excerpta Medica*

Cover illustration: Diagram representing hypoxia responsive transcription fac-
tors. Included below each transcription factor, in brackets, are some of the major
relevant references. For details, see article by Cummins and Taylor (2005)
