

Oncogene

REVIEW

- 7825 **A role for *LKB1* gene in human cancer beyond the Peutz–Jeghers syndrome**
M Sanchez-Cespedes

ORIGINAL ARTICLES

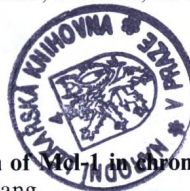

- 7833 **The evolutionarily conserved EBR module of RALT/MIG6 mediates suppression of the EGFR catalytic activity**
S Anastasi, MF Baietti, Y Frosi, S Alemà and O Segatto
- 7847 **Differential mitotic degradation of the CDC25B phosphatase variants**
I Kieffer, C Lorenzo, C Dozier, E Schmitt and B Ducommun
- 7859 **Molecular signatures of metaplastic carcinoma of the breast by large-scale transcriptional profiling: identification of genes potentially related to epithelial–mesenchymal transition**
HC Lien, YH Hsiao, YS Lin, YT Yao, HF Juan, WH Kuo, M-C Hung, KJ Chang and FJ Hsieh
- 7872 **Estrogen-induced and TAFII30-mediated gene repression by direct recruitment of the estrogen receptor and co-repressors to the core promoter and its reversal by tamoxifen**
H Hao, M d'Alincourt-Salazar, KMM Kelley, A Shatnawi, S Mukherjee, YM Shah and M Ratnam
- 7885 **Genetic analysis of p53 nuclear importation**
Q Li, RR Falsey, S Gaitonde, V Sotello, K Kislin and JD Martinez
- 7894 **Gene expression and the biological phenotype of papillary thyroid carcinomas**
L Delys, V Detours, B Franc, G Thomas, T Bogdanova, M Tronko, F Libert, JE Dumont and C Maenhaut

SHORT COMMUNICATIONS

- 7904 **Sphingosine kinase-1 mediates BCR/ABL-induced upregulation of *Mcl-1* in chronic myeloid leukemia cells**
Q-F Li, W-R Huang, H-F Duan, H Wang, C-T Wu and L-S Wang
- 7909 **RET(MEN 2B) is active in the endoplasmic reticulum before reaching the cell surface**
P Runeberg-Roos, H Virtanen and M Saarma
- 7916 **The clock gene *Per2* links the circadian system to the estrogen receptor**
S Gery, RK Virk, K Chumakov, A Yu and HP Koeffler

ONCOGENOMICS

- 7921 ***PRTFDC1*, a possible tumor-suppressor gene, is frequently silenced in oral squamous-cell carcinomas by aberrant promoter hypermethylation**
E Suzuki, I Imoto, A Pimkhaokham, T Nakagawa, N Kamata, K-i Kozaki, T Amagasa and J Inazawa
