## BRITISH JOURNAL OF PHARMACOLOGY

www.brjpharmacol.org

Volume 159, Number 1, January 2010

**Themed Section: QT Safety**

**Guest Editor: J-P Valentin**

### EDITORIAL

- 1 **2010 Re-launch of BJP**  
JC McGrath

### THEMED SECTION

- 5 **Reducing QT liability and proarrhythmic risk in drug discovery and development**  
J-P Valentin  
*Editorial*
- 12 **An introduction to QT interval prolongation and non-clinical approaches to assessing and reducing risk**  
CE Pollard, NA Gerges, MH Bridgland-Taylor, A Easter, TG Hammond, J-P Valentin  
*Review, commented on by Guth and Rast, 22–24*
- 22 **Dealing with hERG liabilities early: diverse approaches to an important goal in drug development**  
BD Guth and G Rast  
*Commentary on Pollard et al., 12–21*
- 25 **Value of non-clinical cardiac repolarization assays in supporting the discovery and development of safer medicines**  
J-P Valentin, C Pollard, P Lainée and T Hammond  
*Review*
- 34 **Update on the evaluation of a new drug for effects on cardiac repolarization in humans: issues in early drug development**  
V Salvi, DR Karnad, GK Panicker and S Kothari  
*Review*
- 49 **The thorough QT/QTc study 4 years after the implementation of the ICH E14 guidance**  
B Darpo  
*Review*
- 58 **Drug-induced QT interval shortening: potential harbinger of proarrhythmia and regulatory perspectives**  
RR Shah  
*Review, commented on by Malik, 70–76*
- 70 **Facts, fancies and follies of drug-induced QT/QTc interval shortening**  
M Malik  
*Commentary on Shah, 58–69*
- 77 **Dog left ventricular midmyocardial myocytes for assessment of drug-induced delayed repolarization: short-term variability and proarrhythmic potential**  
N Abi-Gerges, J-P Valentin and CE Pollard  
*Research Paper*
- 93 **Dexrazoxane protects the heart from acute doxorubicin-induced QT prolongation: a key role for  $I_{Ks}$**   
J Ducroq, HMU Maati, S Guilbot, S Dilly, E Laemmel, C Pons-Himbert, JF Faivre, P Bois, O Stücker and ML Grand  
*Research Paper*

Contents continued ...

Contents continued

- 102 Pharmacological and electrophysiological characterization of nine, single nucleotide polymorphisms of the hERG-encoded potassium channel**  
R Männikkö, G Overend, C Perrey, CL Gavaghan, J-P Valentin, J Morten, M Armstrong and CE Pollard  
*Research Paper*

- 115 Integrated risk assessment and predictive value to humans of non-clinical repolarization assays**  
RM Wallis  
*Review*

**RESEARCH PAPERS**

- 122 Antidepressant-like effects of cannabidiol in mice: possible involvement of 5-HT<sub>1A</sub> receptors**  
TV Zanelati, C Biojone, FA Moreira, FS Guimarães and SRL Joca
- 129 Evidence that the plant cannabinoid cannabigerol is a highly potent  $\alpha_2$ -adrenoceptor agonist and moderately potent 5HT<sub>1A</sub> receptor antagonist**  
MG Cascio, LA Gauson, LA Stevenson, RA Ross and RG Pertwee
- 142 Transient supersensitivity to  $\alpha$ -adrenoceptor agonists, and distinct hyper-reactivity to vasopressin and angiotensin II after denervation of rat tail artery**  
D Tripovic, S Pianova, EM McLachlan and JA Brock
- 154 NS309 restores EDHF-type relaxation in mesenteric small arteries from type 2 diabetic ZDF rats**  
E Brøndum, H Kold-Petersen, U Simonsen and C Aalkjaer
- 166 Alagebrium attenuates acute methylglyoxal-induced glucose intolerance in Sprague-Dawley rats**  
A Dhar, KM Desai and L Wu
- 176 Pharmacokinetic-pharmacodynamic modelling of the analgesic effects of lumiracoxib, a selective inhibitor of cyclooxygenase-2, in rats**  
DA Vásquez-Bahena, UE Salazar-Morales, MI Ortiz, G Castañeda-Hernández and IF Trocóniz
- 188 Mechanisms involved in the regulation of bovine pulmonary vascular tone by the 5-HT<sub>1B</sub> receptor**  
C McKenzie, VR Alapati, A MacDonald and AM Shaw
- 201 Dopamine transporter down-regulation following repeated cocaine: implications for 3,4-methylenedioxymethamphetamine-induced acute effects and long-term neurotoxicity in mice**  
I Peraile, E Torres, A Mayado, M Izco, A Lopez-Jimenez, JA Lopez-Moreno, MI Colado and E O'Shea
- 212 Arachidonic acid release mediated by OX<sub>1</sub> orexin receptors**  
PM Turunen, ME Ekholm, P Somerharju and JP Kukkonen
- 222 Differential actions of urocortins on neurons of the myenteric division of the enteric nervous system in guinea pig distal colon**  
S Liu, W Ren, M-H Qu, GA Bishop, G-D Wang, X-Y Wang, Y Xia and JD Wood
- 237 Role of the signal peptide in the synthesis and processing of the glucagon-like peptide-1 receptor**  
Y Huang, GF Wilkinson and GB Willars
