

Table of Contents

Common Workups in Internal Medicine	5
Chest Pain.....	5
Abdominal Pain.....	7
Headache.....	9
Hypotension.....	11
Hypertension.....	13
Common Arrhythmias.....	14
Fever.....	16
Shortness of Breath.....	18
GI Bleeding.....	20
Common Diseases in Internal Medicine	22
Urinary Tract Infections.....	22
Pneumonia.....	29
COPD.....	37
Asthma.....	46
Pleural Effusion.....	55
Venous Thromboembolism (PE/DVT).....	62
Acute Coronary Syndrome.....	73
Heart Failure.....	87
Atrial Fibrillation.....	102
Syncope.....	111
Upper/Lower GI Bleeding.....	121
Chronic Liver Disease/Cirrhosis Complications.....	131
Acute Pancreatitis.....	144
Acute Kidney Injury.....	152
Chronic Kidney Disease.....	162
Hyponatremia.....	171
Anemia.....	177
Thrombocytopenia.....	187
Transient Ischemic Attacks and Ischemic Stroke.....	194
Acute Confusion/Delirium.....	204
Approach to the Acutely Ill Infected Febrile Patient.....	211
Sepsis Spectrum.....	215
Infectious Endocarditis.....	230

Acute Bacterial/Aseptic Meningitis.....	238
Cellulitis.....	250
Osteomyelitis.....	254
Miscellaneous Topics in Internal Medicine.....	259
Inpatient Diabetes Management.....	259
Hemoptysis.....	260
Back Pain.....	260
Diarrhea.....	261
Alcohol Withdrawal.....	262
Approach to LFTs.....	263
Approach to Pain Control.....	264
Approach to Reading Chest X-Rays.....	266
Approach to Reading EKGs.....	268
Approach to Arterial Blood Gases.....	275
Electrolyte Repletion.....	277
Basic ICU Topics.....	279
Shock Differential.....	279
Vasopressors.....	281
Indications for Intubation and Ventilatory Weaning.....	281
DKA Initial Labs and Management.....	284
Common Medications.....	286
Cardiac Medications.....	286
Respiratory Medications.....	287
Gastrointestinal Medications.....	288
Antibiotics.....	289
