

Inspired by the great John Coltrane, 1972's *Love Devotion Surrender* brought together two guitar virtuosos in Carlos Santana and John McLaughlin. Not only close friends but also devoted followers of Sri Chinmoy. *Love Devotion Surrender* would be not only a beautiful tribute to the jazz legend but also a spiritual roadmap for their fans. A combination of both Santana and Mahavishnu band members (aided by Larry Young) join in to make *Love Devotion Surrender* an album of large scale experimentation. An album of stunning texture and depth, *Love Devotion Surrender* stands as an essential document of two illustrious and revered guitarists and their bands.
