How to Use This Book..... ix

Abbreviations and Symbols x

Visual Analogy Index xi

1 Language of Anatomy..... 1

Planes of the Body.....	2
Directional Terms.....	4
Regional Terms.....	6
Body Cavities and Membranes.....	8
Abdominopelvic Regions and Quadrants.....	10

2 Physiology Overview..... 13

Integration Between Organ Systems.....	14
Homeostasis.....	16

3 Chemistry..... 19

Atoms and Elements

Atomic Number and Atomic Structure.....	20
Atomic Mass and Mass Number.....	22
Ions.....	24

Chemical Bonds

Octet Rule.....	26
The Ionic Bond and the Covalent Bond.....	28

Chemical Equations

Understanding Chemical Equations.....	30
---------------------------------------	----

Chemical Reactions

Types of Chemical Reactions.....	32
----------------------------------	----

Solutions

Introduction to Solutions.....	34
Colloids and Suspensions.....	36

Acids and Bases

Introduction to Acids and Bases.....	38
The pH Scale.....	40

Organic Chemistry

Common Functional Groups.....	42
Polymers: Synthetic and Natural.....	44

Amino Acids, Polypeptides, and Proteins

Formation of a Polypeptide or a Protein.....	46
Functions of Proteins.....	48

Enzymes

Enzyme Structure and Function.....	50
------------------------------------	----

Carbohydrates

Introduction to Carbohydrates.....	52
------------------------------------	----

Nucleotides, Nucleic Acids

Nucleotide Structure.....	54
DNA Double Helix.....	56

Lipids

Introduction to Lipids.....	58
Functions of Lipids.....	60

4 Cells: Structure and Function..... 63

Composite Cell.....	64
Plasma (<i>Cell</i>) Membrane Structure.....	66
Cell Cycle and Mitosis.....	68
DNA Replication and Cell Division.....	70
Protein Synthesis.....	72
Role of ATP.....	74
Pathways Directly through Plasma Membranes.....	76
Passive Membrane Transport:	
Simple Diffusion and Facilitated Diffusion.....	78
Passive Membrane Transport: Osmosis.....	80
Passive Membrane Transport: Filtration.....	82
Active Membrane Transport: Active Transport.....	84
Active Transport in Vesicles:	
Exocytosis and Endocytosis.....	86
Membrane Potentials.....	88
Sodium-Potassium Pump.....	90

5 Tissues..... 93

Epithelial Tissue

Epithelial Cells.....	94
Simple Squamous Epithelium.....	96
Simple Cuboidal Epithelium.....	98
Simple Columnar Epithelium.....	100
Pseudostratified Columnar Epithelium.....	102
Stratified Squamous Epithelium.....	104
Stratified Transitional Epithelium.....	106

Connective Tissue

Variations in Connective Tissues.....	108
Areolar Connective Tissue.....	110
Adipose Connective Tissue.....	112
Reticular Connective Tissue.....	114
Dense (<i>Fibrous</i>) Regular Connective Tissue.....	116
Dense Irregular Connective Tissue.....	118
Hyaline Cartilage.....	120
Elastic Cartilage.....	122
Fibrous Cartilage.....	124
Bone (<i>Osseous</i>) Tissue.....	126

Muscle Tissue

Skeletal Muscle Tissue.....	128
Cardiac Muscle Tissue.....	130
Smooth Muscle Tissue.....	132

Neural Tissue

Neural Tissue.....	134
--------------------	-----

6 Integumentary System 137

Overview.....	138
Hair Follicles, Hairs, and Sebaceous Glands.....	140
Sweat Glands.....	142
Nails.....	144

7 Skeletal System 147

General Information

Long Bone Structure.....	148
Osteon Structure.....	150

Axial Skeleton

Skull: Lateral and Midsagittal Views.....	152
Skull: Anterior View.....	153
Skull: Posterior View and Skullcap.....	154
Skull: Superior View Without Skullcap.....	155
Skull: Inferior View with Mandible Removed.....	156
Fetal Skull: Focusing on Fontanelles.....	157
Upper and Lower Jaws.....	158
Hyoid Bone and Ear Ossicles.....	159
Temporal Bone: Visualizing the Lateral View.....	160
Ethmoid: Visualizing the Bone.....	162
Sphenoid: Visualizing the Bone.....	164
Sphenoidal Foramina: Linking Them with Ros the Cowboy.....	166
Palatine Bones: Visualizing the Bones.....	168
Total Number of Each Type of Vertebrae.....	170
Atlas and Axis: Visualizing Structural Differences.....	172

PULLOUT: Bones of the Skeleton, Bones of the Skull

Lumbar Versus Thoracic Vertebrae: Distinguishing the Difference 1.....	174
Lumbar Versus Thoracic Vertebrae: Distinguishing the Difference 2.....	176
Sternum and Ribs.....	178

Appendicular Skeleton

Scapula and Clavicle: Visualizing the Bones.....	180
Humerus.....	182
Radius and Ulna: Distinguishing the Differences.....	184
Hand: Conquering the Carpals.....	186
Pelvis.....	188
Femur and Patella.....	190
Tibia and Fibula: Distinguishing the Difference.....	192
Foot: Targeting the Tarsals.....	194

8 Joints 197

Typical Synovial Joint.....	198
Shoulder Joint.....	200
Hip Joint.....	202
Elbow Joint.....	204
Knee Joint.....	206

9 Muscular System 209

General Structure and Function

Basic Structure of Skeletal Muscle.....	210
Actin and Myosin Filaments.....	212
Overview: Sliding Filament Mechanism of Muscle Contraction.....	214
Contraction Cycle.....	216
Sources of Energy for Muscle Contraction.....	218

Skeletal Muscles

Overview: Major Skeletal Muscles.....	220
Muscles of the Face and Head.....	222
Superficial and Deep Muscles of the Neck, Shoulder, Thorax, and Abdomen.....	224

Arm

Superficial Muscles of the Arm: Anterior and Posterior Views.....	226
----------------------------------------------------------------------	-----

Leg

Muscles of the Thigh: Anterior and Posterior Views.....	228
Superficial Muscles That Move the Ankle, Foot, and Toes: Anterior and Posterior Views.....	230

Neck to Gluteal Region

Superficial and Deep Muscles of the Neck, Shoulder, Back, and Gluteal Region.....	232
--------------------------------------------------------------------------------------	-----

10 Nervous System 235

Overview of Functions.....	236
----------------------------	-----

Neural Tissue and Impulse Conduction

General Cell Types.....	238
Multipolar Neuron and Myelination.....	240
Overview: Neuron Function.....	242
Overview: Neuron Structure and Impulse Conduction.....	244
Overview: Nerve Impulse Conduction.....	246
Nerve Impulse Conduction: Continuous Conduction.....	248
Nerve Impulse Conduction: Saltatory Conduction.....	250
Synaptic Transmission: Neuromuscular Junctions and Neuro-Neuro Junctions.....	252

Peripheral Nervous System (PNS)

Peripheral Nerve Structure.....	254
Peripheral Nerves: Upper Limbs.....	256
Peripheral Nerves: Lower Limbs.....	258
Receptors and Sensory Transduction.....	260

Central Nervous System (CNS)—Spinal Cord

Spinal Cord Structure and Function.....	262
Reflexes.....	264

Central Nervous System (CNS)—Brain

Meninges of the Brain and Spinal Cord.....	266
Creation, Circulation, and Reabsorption of CSF.....	268
Brain: Largest Regions, Brainstem, and Diencephalon.....	270
Hypothalamus Functions.....	272
Cranial Nerves: Functions.....	274
Brain Ventricles.....	276
Functional Regions of the Cerebral Cortex.....	278

EEG, Sleep/Wakefulness, and Reticular Formation.....	280	Dynamics of Blood Flow.....	358
Limbic System Functions	282	Arterial Pressure and Its Measurement.....	360
Lateralization.....	284	Capillary Structure and Solute Diffusion.....	362
Brain Metabolism and Brain Function.....	286	Capillary Function: Filtration and Reabsorption	364
Autonomic Nervous System (ANS)		Return of Venous Blood to the Heart.....	366
Autonomic Reflexes Compared		Control and Measurement of Cardiac Output (CO).....	368
with Somatic Reflexes	288	Control of Blood Pressure.....	370
Sympathetic Division (SD) of the ANS.....	290	Circulatory Pathways	
Parasympathetic Division (PD) of the ANS	292	Hepatic Portal System.....	372
ANS Neurotransmitters and Their Receptors	294	Fetal Circulation	374
II Endocrine System..... 297		Blood Vessels—Arteries	
Overview: Hormone Function and Glands	298	Overview: Major Arteries.....	376
Cellular Responses to a Steroid Hormone	300	Arteries of the Head and Neck.....	378
Cellular Responses to a Nonsteroid Hormone.....	302	Major Branches of the Abdominal Aorta.....	380
Hormonal Regulation of Blood Glucose Levels.....	304	Arteries of the Right Upper Limb and Thorax.....	382
Hormonal Regulation of Blood Calcium Levels.....	306	Major Arteries of the Right Pelvis and Lower Limb.....	384
Hypothalamus and the Anterior Pituitary.....	308	Blood Vessels—Veins	
Hypothalamus and the Posterior Pituitary.....	310	Overview: Major Veins	386
The Adrenal Medulla and Catecholamines	312	Veins of the Head and Neck	388
The Adrenal Cortex: Aldosterone.....	314	Major Veins of the Abdominopelvic Cavity	390
The Adrenal Cortex: Cortisol and Stress.....	316	Veins of the Right Upper Limb and Shoulder.....	392
The Adrenal Cortex: Sex Steroids.....	318	Major Veins of the Right Pelvis and Lower Limb	394
12 Special Senses..... 321		15 Lymphatic System 397	
Vision		Creation and Circulation of Lymph	398
Eye: External Structure	322	Immune System	
Eye: Internal Structure.....	324	Overview.....	400
Hearing/Equilibrium		Cell-Mediated Immunity (CMI).....	402
Ear: General Structure.....	326	Antibody-Mediated Immunity (AMI).....	404
Taste		16 Respiratory System 407	
Tongue to Taste Buds	328	Overview: General Structures.....	408
Olfaction		Tracing the Pathway of an Oxygen Molecule	410
Sense of Smell.....	330	Mechanics of Breathing.....	412
13 Blood..... 333		Surfactant, Surface Tension, and Lung Compliance	414
Cell Types.....	334	Diffusion of O ₂ and CO ₂	416
Ranking the Leukocytes from		Hemoglobin: Structure and Function.....	418
Most Common to Least Common.....	336	Oxygen-Hemoglobin Dissociation Curve.....	420
14 Cardiovascular System 339		Transport of CO ₂ and O ₂	422
Overview.....	340	Neural Control of Respiration	424
Heart—Structure and Function		Chemical Control of Respiration.....	426
External Structure and Coronary Circulation.....	342	17 Digestive System..... 429	
Internal Structure	344	Structure and Function	
Intrinsic Conduction System.....	346	Overview: General Structures.....	430
Electrocardiogram (ECG)	348	Layers of the Wall of the Digestive Tract.....	432
Cardiac Cycle	350	Neural Regulation of Digestion.....	434
Neural Control of the Heart.....	352	Hormonal Regulation of Digestion	436
Blood Vessels—Structure and Function		Oral Cavity	
Arteries, Arterioles, Capillaries, Venules, and Veins.....	354	Oral Cavity.....	438
Overview of the General Pattern of Circulation.....	356	Tooth Anatomy and Tooth Types.....	440
		Digestion in the Mouth.....	442

Stomach	
Visualizing the General Structure.....	444
Function of the Stomach.....	446
Small Intestine	
Increasing Surface Area.....	448
Movement through the Small Intestine	450
Absorption in the Small Intestine.....	452
Pancreas	
Visualizing the General Structure.....	454
Role of the Pancreas in Digestion.....	456
Liver	
Structure and Function.....	458
Gallbladder and Bile	
Bile Production, Storage, and Release	460
Large Intestine	
Visualizing the General Structure.....	462
Function of the Large Intestine.....	464

18 Metabolic Physiology 467

Overview of Energy Metabolism.....	468
Carbohydrate Metabolism: Overview	470
Carbohydrate Metabolism:	
Cellular Respiration—Glycolysis.....	472
Carbohydrate Metabolism:	
Cellular Respiration—Citric Acid Cycle.....	474
Carbohydrate Metabolism: Cellular Respiration—	
Electron Transport System (ETS)	476
Carbohydrate Metabolism: Fermentation.....	478
Lipid Metabolism	480
Protein Metabolism.....	482

19 Urinary System 485

Overview: General Structures.....	486
Kidneys—Structure and Function	
Overview: General Structure	488
Blood Flow through the Kidneys	490
Nephron Structure and Function.....	492
Nephron Function 1: Filtration.....	494
Regulation of the Glomerular Filtration Rate	496

Nephron Function 2: Tubular Reabsorption.....	498
Nephron Function 3: Tubular Secretion	500
Introduction to Acid-Base Balance.....	502
Renal Regulation of Acid-Base Balance.....	504
Water Conservation	
and Antidiuretic Hormone (ADH)	506
Countercurrent Multiplier in the Nephron Loop.....	508
Countercurrent Exchanger in the Nephron Loop.....	510
Regulation of Extracellular Volume:	
Renin-Angiotensin-Aldosterone (RAA) System	512

20 Reproductive Systems 515

Overview of General Structures, Functions	516
Male Reproductive System—	
Structure and Function	
Duct System.....	518
Penis: Visualizing the Cross Section.....	520
Testes: Production of Sperm Cells.....	522
Hormonal Regulation of Sperm Cell Production	524
Female Reproductive System—	
Structure and Function	
External Genitalia.....	526
Midsagittal View.....	528
Internal Structures.....	530
Ovaries: Production of Ova	532
Ovaries and the Ovarian Cycle	534
Hormonal Regulation of the Ovarian Cycle.....	536
Hormonal Regulation of the	
Ovarian and Uterine Cycles.....	538
Human Growth and Development	
Pre-embryonic Development: Zygote to Blastocyst....	540
Pregnancy	542
Placenta and Umbilical Cord	544

Glossary of Prefixes and Suffixes.. 547

Glossary 549

Index 565
