Keep a Workout Notebook	24
Making Progress	25

PART 2

Increase the Visibility of Your Abs 27

Exercising Your Abs for a Smaller Waist	28
Intensity First!	28
Diet as a Way to Slim Your Waist	28
Diet Plus Workout Synergy	29
Improving the Effectiveness of Your Diet	29
Role of Supplements	29
BCAAs for Losing Belly Fat	29
Calcium: The Anti-Belly Fat Mineral	30

PART 3

Basic Exercises to Sculpt Your Abs 33

Anatomical Considerations	34
Beware of Fake Abdominal Exercises! If You Have an Inguinal, Femoral, or Abdominal Hernia	38
Rectus Abdominis Exercises	40
Crunch	40
Lying Leg Raise	46
Seated Leg Raise	50
Oblique Exercises	52
Apollo's Belt	52
Twisting Crunch	54
Side Crunch	56
Stability Exercises	58
Static Stability, Back Against Wall	58
Plank	60
Breathing Exercises to Improve Athletic Performance	63
Lying Rib Cage Expansion With a Weight	63
Diaphragm Contraction	64
Stretching the Abdominal Muscles	66
On a Stability Ball	66
Stretching the Hip Flexors	67
Tilting of the Pelvis	67
Abdominal-Lumbar Balance	67
Lunge	68
Stretching the Low Back	70
Preventing Low Back Pain	70
Relaxation Stretch on a Stability Ball	71
Hanging From a Pull-Up Bar	72

PART 4
Advanced Exercises
and Techniques **75**

Three Difficulties of Abdominal Work 76
How to Isolate Upper Abdominal
Work From Lower Abdominal Work 76
Why Are the Lower Abdominal
Muscles So Hard to Develop? 76
1. It is difficult to recruit that part of the muscle 76
2. Lower abs lack strength 76
3. It is difficult to isolate the lower part 77
4. Lower abs are not robust 77
5. Many exercises are inappropriate 77
Three Zones of Attack
for Total Development 78
Relative Importance of Each Zone 78
Getting a Head Start on Recovery 78
Exercises for the
Upper Abdominal Muscles 79
Double Crunch 79
Sit-Up 80
Exercises for the
Lower Abdominal Muscles 88
Pelvic Tilt on the Pull-Up Bar 88
Leg Lift 89
Hanging Leg Raise 90
Exercises for the Obliques 96
Hanging Leg Raise to the Side 96
Lying Twist 98

PART 5
Exercises Using Machines
and Accessories **101**

Purpose of Home Equipment 102
Professional Machines 102
Exercises for the
Upper Abdominal Muscles 103
Machine Crunch 103
Swiss Ball Crunch 104
Rocking Machine Crunch 106
Standing Cable Crunch 108
Exercises for the
Lower Abdominal Muscles 110
Ab Coaster 110
Exercises for the Obliques 112
Cable Twist (Machine or Resistance Band) 112
Side Bend 114

PART 6
Workout Programs for
Abdominal and Core Muscles **119**

Six-Pack Programs 120
Beginning Programs 120
Advanced Programs 121
Very Advanced Programs 122
At-Home Programs Using Accessories 124
Programs Using Equipment in a Gym 126
Programs to Reduce Belly Fat 127
Programs to Reduce Love Handles 128
Programs to Highlight Apollo's Belt 129
Programs for Well-Being 129
Programs for Cardiovascular Health 129
Programs to Relax Your Back Before Sleep 130
Programs to Help Protect Your Lumbar Spine 132
Programs to Help With Bloating
and Other Digestive Problems 133
Sport-Specific Core Programs 133
Phase 1: Basic Muscle Conditioning 134
Phase 2: Circuit Training 135
Phase 3: Improving Overall Physical Qualities 135
Phase 4: Sport-Specific Training 137

Exercise Index **144**
