Stormbringer, Coming Your Way...

Recorded in Munich in August 1974, **STORMBRINGER** was the second - and final - album from the Mk 3 line-up of **DEEP PURPLE**. Building on the success of the preceding album *Burn*, and the months of touring during the year, the group began to take the music in a new and funkier direction, whilst retaining their trademark rock edge. Often overlooked at the time, this remaster includes the original album in full, along with a host of bonus material and several powerful brand new mixes from bassist Glenn Hughes done at Abbey Road especially for this release.
