|---|-----|
| Foreword | iii |
| Contributors | vi |
| ✓ Plant surfaces and insects – an overview <i>Sir Richard Southwood, FRS</i> | 1 |
| The cuticle, epicuticular waxes and trichomes of plants, with reference to their structure, functions and evolution <i>Christopher E. Jeffree</i> | 23 |
| ✓ Microclimatic effects on insects at the plant surface <i>P. Willmer</i> | 65 |
| Floral mimicry – mutualism and unidirectional exploitation of insects by plants <i>Amots Dafni</i> | 81 |
| The behaviour of bark beetles colonizing ponderosa pine <i>David L. Wood, R. Patrick Akers, Donald R. Owen, J. Richard Parmeter, Jr.</i> | 91 |
| ✓ Oviposition and feeding stimuli in leaf surface waxes <i>Erich Städler</i> | 105 |
| ✓ Insect behaviour and the chemistry of plant surface waxes <i>S. Woodhead and R. F. Chapman</i> | 123 |
| Sclerophylls, pachyphylls and pycnophylls: the nature and significance of hard leaf surfaces <i>P. J. Grubb</i> | 137 |
| Plant glandular trichomes: their partial role in defence against insects <i>Sean S. Duffey</i> | 151 |
| Insect-defensive chemistry of potato glandular trichomes <i>Peter Gregory, Dirk A. Avé, Pierre J. Bouthyette, Ward M. Tingey</i> | 173 |

| | |
|--|-----|
| Tropical legumes and their ability to immobilize and kill cattle ticks <i>R. W. Sutherst and L. J. Wilson</i> | 185 |
| The path to plant carnivory <i>B. E. Juniper</i> | 195 |
| Glandular structures in carnivorous plants: their role in mutual and uni- lateral exploitation of insects <i>Daniel M. Joel</i> | 219 |
| Foliar specializations for animal-assisted nutrition in Bromeliaceae <i>David H. Benzing</i> | 235 |
| Evolution of benevolent ant-plant relationships <i>C. R. Huxley</i> | 257 |
| Ant-gardens: mutual exploitation <i>Sally E. Kleinfeldt</i> | 283 |
| The role of extrafloral nectaries in <i>Acacia</i> <i>R. Bruce Knox, Robyn Marginson, Josephine Kenrick, Andrew J. Beattie</i> | 295 |
| Environmental influences on host plant susceptibility to insect attack <i>M. R. Speight</i> | 309 |
| Surface availability and insect community structure: the effects of architec- ture and fractal dimension of plants <i>J. H. Lawton</i> | 317 |
| The insect and the plant surface: a conspectus <i>J. Heslop-Harrison</i> | 333 |
| Posters | 341 |
