
CONTENTS

| | |
|---|-----|
| Preface | ix |
| 1. What Is Theoretical Morphology? | I |
| 2. The Concept of the Theoretical Morphospace | 10 |
| 3. Twists and Twigs: Theoretical Morphospaces of Branching Growth Systems | 34 |
| 4. Spirals and Shells I: Theoretical Morphospaces of Univalved Accretionary Growth Systems | 66 |
| 5. Spirals and Shells II: Theoretical Morphospaces of Bivalved Accretionary Growth Systems | 112 |
| 6. Step by Step: Theoretical Morphospaces of Discrete Growth Systems | 141 |
| 7. The Time Dimension: Evolution and Theoretical Morphospaces | 182 |
| 8. Theoretical Models of Morphogenesis: An Example | 209 |
| 9. Theoretical Models of Accretionary Growth Systems | 226 |
| 10. Theoretical Models of Other Aspects of Morphogenesis in Nature | 252 |
| 11. The Future of Theoretical Morphology | 277 |
| Glossary | 288 |
| References | 292 |
| Index | 309 |
