	<i>The cognitive approach to Chinese classifiers</i> 21	
	<i>Distinction between classifiers and measure words:</i>	
	<i>A redefinition of Chinese classifiers</i> 21	
	<i>The cognition-based functional approach to Chinese classifiers</i> 23	

Theoretical framework, methodology, and expected findings of the present study 24
Theoretical framework 24
Methodology 25
Expected findings 27

3 Linguistic relativity and empirical studies 29

Linguistic relativity and the Sapir-Whorf hypothesis 29
From Humboldt to Whorf 29
Interpretations of the Sapir-Whorf hypothesis 31
Empirical studies on linguistic relativity 31
Lexical categorization 32
Grammatical categorization 35

4 The etymological origins, embodied bases, and semantic extensions of Chinese classifiers 43

Body parts 45
The head in general 45
The top of the head 46
The neck 47
The face and the facial features 48
Lower appendages 49
Body cavities 50
Bodily actions 50
Head movements 50
Manual actions 51
Pedal and ambulatory actions 52
Posture 53
Plants, trees, and bamboo 54
Roots 54
Tree branches and twigs 56
Trunks 57
Flowers and leaves 58
Wooden strips 59
Seeds and grains 60
Architecture, construction, and buildings 61
Structures and buildings 61
Doors, gates, and entrances 63
Platforms and foundations 64
Shed frames and ridge poles 65

<i>Textiles</i>	66
<i>Filaments</i>	67
<i>Quality of silk</i>	67
<i>Woven textiles</i>	68
<i>Vessels</i>	69
<i>Drinking vessels</i>	69
<i>Actions associated with vessels</i>	70
<i>Vehicles</i>	71
<i>Wheels and vehicles</i>	71
<i>Groups of vehicles</i>	72
<i>Assembly of vehicles</i>	72
<i>Actions of vehicles</i>	73
<i>Soil, rock, and land</i>	73
<i>Soil</i>	74
<i>Rock and stone</i>	74
<i>Land</i>	75
<i>Discussion</i>	75
5 The semantic structures of classifier categories: A case study of body part-based classifiers	79
<i>The semantic structures of the head-based classifiers 首 (shǒu “head”), 頭 (tóu “head”), and 顆 (kē “small head”)</i>	79
首 (shǒu “head”)	79
頭 (tóu “head”)	87
顆 (kē “small head”)	99
<i>The semantic structure of the top-of-the-head-originated classifier 頂 (dǐng “top of the head”)</i>	117
<i>Objects in contact with the top of a person’s head</i>	118
<i>Objects traditionally used immediately above a person’s or persons’ head</i>	120
<i>Enclosed container-like objects for occupation by a person or persons</i>	121
<i>Objects with tops, without referencing to the head of people</i>	122
<i>The semantic structure of neck-based classifier 項 (xiàng “nape”)</i>	123
<i>Different kinds of events and tasks</i>	124
<i>Reports of events or activities</i>	128
<i>Aims and purposes</i>	129
<i>Preconditions</i>	130

<i>Causes</i>	131
<i>Guiding principles</i>	131
<i>Procedures, steps, and methods</i>	132
<i>Means</i>	133
<i>States</i>	135
<i>Actions</i>	135
<i>Difficulties</i>	136
<i>Results and outcomes</i>	137
<i>The semantic structure of face- and facial features-based classifiers 面 (miàn “face”) and 口 (kǒu “mouth”)</i>	139
面 (miàn “face”)	139
口 (kǒu “mouth”)	145
<i>The semantic structure of cavity in human body-based classifier 腔 (qiāng “cavity”)</i>	153
<i>Container objects</i>	153
<i>Contained substances</i>	154
<i>Discussion</i>	161
6 Cognitive effects of Chinese classifiers	163
<i>Studies of Chinese classifiers for linguistic relativity</i>	163
<i>The current research</i>	165
<i>Experimental design</i>	167
<i>Experiment 1: Picture-only similarity tests on Chinese and English native speakers</i>	168
<i>Method</i>	168
<i>Results</i>	171
<i>Experiment 2: Picture-only similarity tests on English native speakers with Chinese language proficiency at intermediate level or above</i>	173
<i>Method</i>	173
<i>Results</i>	174
<i>Experiment 3: Picture-with-label similarity tests on Chinese native speakers</i>	175
<i>Method</i>	175
<i>Results</i>	175
<i>Results of group comparison</i>	176
<i>Discussion</i>	177
7 Cognitive linguistics and teaching Chinese classifiers as a second language	183
