

Contents

PART ONE	Introduction	1
	1. The midwife	3
PART TWO	Anatomy and Physiology	11
	2. The reproductive organs	13
	3. Hormonal cycles: fertilisation and early development	33
	4. The placenta	42
	5. The fetus	49
	6. The female urinary tract	62
PART THREE	Pregnancy	73
	7. Preparing for pregnancy	75
	8. Psychological and physiological changes of pregnancy	90
	9. Preparing for parenthood: daily life in pregnancy	102
	10. Antenatal care	118
PART FOUR	Normal Labour	143
	11. The first stage of labour: physiology and early care	145
	12. Management of the first stage of labour	163
	13. Pain relief and comfort in labour	177
	14. Physiology and management of the second stage of labour	192
	15. Physiology and management of the third stage of labour	209

PART FIVE	The Normal Puerperium	223
	16. Physiology, psychology and management of the puerperium	225
	17. Family planning	242
PART SIX	Abnormalities of Pregnancy, Labour and the Puerperium	257
	18. Abnormalities of early pregnancy	259
	19. Sexually transmissible diseases	273
	20. Disorders caused by pregnancy	290
	21. Disorders of the pregnancy	303
	22. Diseases associated with pregnancy	317
	23. Multiple pregnancy	342
	24. Structural abnormalities affecting pregnancy	353
	25. Prolonged pregnancy and disorders of uterine action	362
	26. Malposition of the occiput and malpresentations	379
	27. Obstetric emergencies	406
	28. Obstetric anaesthesia and operations	415
	29. Complications of the third stage of labour	435
	30. Complications of the puerperium	449
PART SEVEN	The Newborn Baby	461
	31. The baby at birth	463
	32. The normal baby	476
	33. Feeding	489
	34. Jaundice and infection	508
	35. Small and large babies	527
	36. Intensive care of the newborn	546
	37. Trauma and haemorrhage	569
	38. Metabolic disorders and congenital abnormalities	582
PART EIGHT		597
	39. Community midwifery	599
	40. Special exercises for pregnancy, labour and the puerperium	612
	41. Specialised antenatal investigations	625
	42. The use of drugs by the midwife	639

43. Vital statistics	649
44. Sociology related to midwifery	657
45. Community health and social services	669
46. Organisation of health care	682
47. The education and practice of midwives in the 20th century	691
48. Statutory control of the practice of midwives	705
49. Counselling skills in midwifery practice	720
50. Research and the midwife	734
Self-testing questions	745
