B. PHONEMES	207
C. PHONETIC TRANSCRIPTION	210
D. BOOKS FOR FURTHER STUDY	212
INDEX	215

INDEX

The numbers refer to paragraphs.

A. General

- Adam's apple, 21, 26, 27, 94.
 Adjacent sounds, influence of: 341-94; causing variation in length, 80-4, 157, 280-2, 306; in quality, 149, 207-8, 302-4, 335-6; causing omission of sounds, 233-4, 317-18.
 Adjectives, stress of, 421.
 Adverbs, stress of, 421.
 Air stream, 19, 20.
 Alveolar ridge, 32.
 Alveolar sounds: 214, 217, 229-35, 254-8, 288-91, 300-8, 309-19; assimilation to dentals, 363-4.
 American pronunciation, 16, 109, 113, 170, 326.
 Articles, definite and indefinite, 384-5, 421, 423-4.
 Aspirated consonants: [p], 220-1; [t], 230-1; [k], 237-8.
 Assimilation: 343-5; commonest forms in English, 353-65; African mistakes, 346, 348.
 Australian pronunciation, 16.
 Back of the tongue, 22, 33.
 Back vowels, 61, 106-29.
 Bilabial sounds: 214, 219-28, 283-7, 320-8; "bilabial f", 244.
 Blade of the tongue, 22, 33.
 Books for further study, App. D.
 Breath, 20, 23.
 Breath-groups, 20.
 Broad transcription, 13, App. C.
 Broken head, 456.
 Cardinal vowels, 65-71, 73-5.
 Central vowels, 72, 130-50.
 Centring diphthongs, 159, 160, 163, 185-205.
 Classification of sounds, 38-75.
 Clear [l], 302-4.
 Close vowels, 63.
 Closing diphthongs, 159, 160, 163, 165-84.
 Compounds: pronunciation of *ng* in, 297 (3); elision in, 370; stress in, 414-8.
 Conjunctions, 421, 423-4.
 Consonants: 54-6, 213, 321-323; classification, 214, 217-8; description, 219-340.
 Co-ordination of tone-groups, 459, 460-2, 466.
 Dark [l], 302-5.
 Delayed plosion, 371, 374.
 Dental sounds, 214, 249-53, 363-4.
 Dialects, 14-7.
 Diphthongs, 85, 151-212.
 Double stress, 414-8.
 Double-length consonants, 371-3.
 Drums, 26.
 Economy of effort, 344-5.
 Elision: 343-5; commonest forms in English, 366-70; African mistakes, 347.
 Emphasis: stress, 419-20, 422; intonation, 430, 440, 451-2, 456.
 Endings, inflexional, 355, 389-94.
 Epiglottis, 22, 28.
 Ewe, 14, 74.
 Fante, 3, 75.
 Flapped [r], 314, 315.
 French, 3.
 Fricatives, 46-7, 214, 217, 218, 243-74, 309-40.
 Front of the tongue, 22, 33.
 Front vowels, 61, 86-105.
 Ganda, 3.
 German, 3.
 Glottal sounds: 23, 55, 214, 217, 334-40; "glottal stop", 55, 217.
 Glottis, 21, 23, 24, 28, 55.
 Gramophone records, 73, 433, App. D (4) & (5).
 Half-close vowels, 71.
 Half-open vowels, 71.
 Head of a tone-group: 437-9, 443; broken, 456; low, 448, 449; scandent, 450.
 High vowels, 63.
 Imitation as factor in language-learning, 8, 9.
 Implosive sounds, 223.
 Incomplete plosion, 374.
 Intensified fall, 451, 452.
 Interjections, stress of, 421.
 Intonation: 430-68; Tune I, 436-7, 446; Tune II, 438-439, 447, 449; Tune III, 452-3; African difficulties, 442.
 Intrusive [r], 318.
 Jaw, lower, 34-5.
 Kikuyu, 14, 74.
 Labial sounds, 214, 217, 219-28, 320-8.
 Labiodental sounds, 214, 217, 243-8.
 Labio-velar sound, 320.
 Larynx, 21.
 Lateral plosion, 382.
 Lateral sounds, 52-3, 300-8, 309.
 Lax vowels, 94, 120, 122-3, 145, 147.
 Length: of vowels, 78-84, 157, 387-8; of consonants, 47, 49, 262, 280-2, 306, 371-3, 387-8.
 Linking [r], 318, 383.
 Lips, 6, 35, 60.
 Low head, 448, 449.
 Low vowels, 63.
 Lungs, 19, 20.
 Narrow diphthongs, 158, 160, 165-72.
 Narrow transcription, App. C.
 Nasal cavity, 29.
 Nasal plosion, 376, 377.
 Nasal sounds, 49, 214, 217, 218, 275-99.
 Nasalization, 276, 278, 279, 348.
 Neighbouring sounds, *see* Adjacent sounds.
 Neutral lip position, 35.
 Nose, 29; *see also* Nasal plosion, sounds, *and* Nasalization.
 Nouns, stress of, 421.
 Nucleus of a tone-group, 437, 438, 439, 443, 452.
 Numerals, stress of, 421.
 Open vowels, 63.
 Palatal sounds: 214, 329-33; plosives, 262.
 Palate: hard, 22, 32; soft, 22, 29.
 Palato-alveolar sounds, 214, 259-74.
 Parenthetical insertions, 457-8.
 Pharynx, 22, 28, 31.
 Phonemes, App. B.
 Phonetic transcription: principle, 11, 12, 13, App. B; symbols for vowels, 76-8, 153, 405, App. C; for consonants, 216-7, 284, 325, 330, 337, 371; stress-marks, 143, 401, 405.
 Phonetics, 6, 11.
 Piano strings, 25, 26.

- Pitch, 26; *see also* Intonation.
 Plosion, special kinds of, 371-82.
 Plosives: 42, 47, 55, 214, 217, 218, 219-42; dental, 363; palatal, 262; double-length, 371-2.
 Prefixes, 408-9, 416 (7).
 Prepositions, 386, 421, 423-424, 427.
 Pronouns: personal and relative, 421, 423-4, 427; demonstrative and interrogative, 421, 424.
 Pure vowels, 76-150.
- Quantity, *see* Length.
- Received Pronunciation, 17-18.
 Resonance, 58-60.
 Resonator, 59-60.
 Rhythm, 396-7, 417-8, 426.
 Rolled [r], 312-4.
 Roof of the mouth, *see* Palate.
 Root of the tongue, 22, 28.
 Rounded lip position, 35.
 R.P., *see* Received Pronunciation.
- Scandent head, 450.
 Scottish pronunciation, 16, 170, 326, 337.
 Secondary stress, 401-2.
 Semi-vowels, 321-3, 329.
 Sentence-stress, 399, 419-27, 435, 440.
- Shona, 75.
 Somali, 3.
 Sound systems, 3.
 Spanish, 3, App. B.
 Speech organs, 19-37.
 Spelling: 11, 76, 216, App. A; Africans misled by, 92, 381.
 Spirants, *see* Fricatives.
 Spread lip position, 35.
 Standard English, 17.
 Stops, *see* Plosives.
 Stress: 143, 395-427; influence on vowels, 145-6, 403-5; on consonants, 339-40, 406-7; relation to intonation, 435-40; African difficulties, 397, 415.
 Strong forms, 423-4, 426, 427.
 Style, 428-9.
 Subordination of tone-groups, 459, 463-8.
 Suffixes, 257 (1), 410-11, 416 (8).
 Syllabic consonants: [l], 305, 306, 382; [m], 284-5; [n], 93, 289, 377-81; [ŋ], 293.
- Tail of a tone-group, 437, 439, 448, 452, 457.
 Teeth, 32; *see also* Dental and Labiodental sounds.
 Teeth ridge, 32; *see also* Alveolar sounds.
 Tense vowels, 94, 122.
 Tip of the tongue, 33.
- Tone-groups, 455-68.
 Tone languages, 431, 442.
 Tongue, 28, 33, 60, 65-70.
 Transcription, *see* Phonetic transcription.
 Triphthongs, 164, 206-12.
- Uvula, 22, 31.
 Uvular [r], 31.
- Velar sounds: 214, 217, 236-242, 292-9; fricative, 337.
 Velum, 29.
 Verbs: auxiliary, 421, 423-4; principal, 421.
 Vibration: as origin of musical notes, 25-7; in pronunciation of [r], 31, 312-3.
 Vocal cords, 21-2, 25-6.
 Voice, 24-7.
 Voiced and voiceless sounds, 24, 27, 55, 57-8.
 Vowel harmony, 349-51.
 Vowel linkage, 383-6.
 Vowels: 57-8, 321-3; classification, 61-75; pure vowels, 76-150; diphthongs, 151-212.
- Weak forms, 423-4, 426.
 Whisper, 48, 57, 335, 337.
 Wide diphthongs, 158, 160, 173-84.
 Windpipe, 20, 22.
 Word-stress, 399, 400-13.
- Yoruba, 3, 14, 74, 75.

B. Phonetic

The symbols appear in the same order as in the list on p. viii.
