

TABLE OF CONTENTS

FOREWORD		vii
1. INTRODUCTION		1
1.1 Aims		1
1.2 Beyond Syntax		2
1.3 Bloomfield's Dilemma		3
1.4 The Research Strategy of the Isolable Subsystem		6
1.5 Theories of Language vs. Language Analysis		7
1.6 Theories of Logic		9
1.7 Logico-Linguistics		11
2. INFORMATION AND LANGUAGE		13
2.1 Information States		13
2.2 Input and Output		14
2.3 Information Automata		17
2.4 Language Automata		20
2.5 Black-Box Methodology		27
2.6 The What-Do-You-Know? Game		29
2.7 The Behavior-Analytic Interpretation of Language Automata		32
2.8 The Linguistic Priority of the Language Automaton		39
2.9 Languages		42
2.10 Summary		45
3. ON DESCRIBING LANGUAGES		47
3.1 Descriptive Strategies		47
3.2 Descriptive Equivalence		51
3.3 Language Descriptions as Scientific Theories		51
3.4 Basic Evidence Properties		56
3.5 The Evidence-Gathering Process		62

4.	LANGUAGE AND DEDUCTIVE LOGIC	68
4.1	Idealizations	68
4.2	Logical Relationships	73
4.3	Properties of the Logical Relationships	75
4.4	Logics	77
4.5	Informative Languages have Incomplete Logics	79
4.6	Quasi-logical Relationships	82
4.7	Quasi-logical Relationships are often Logical	83
4.8	Logic in the Evidence-Gathering Process	86
5.	SEMANTICS, AXIOMATICS	90
5.1	Semantically Structuralizable Languages	90
5.2	Examples of Artificial Semantically Structuralizable Languages	98
5.3	A Fragment of English	105
5.4	Semantics and Deductive Logic	115
5.5	Axiomatic Language Descriptions	117
5.6	Other Language Families	119
5.7	Logic as a Branch of Linguistics	121
5.8	Syntax, Semantics, Pragmatics	122
6.	MEANING	124
6.1	Purports and Imports	124
6.2	Purport-Import Glossaries	127
6.3	Specialized Glossaries	128
6.4	Synonymy	129
7.	LANGUAGE AND INDUCTIVE LOGIC	132
7.1	Credibility Weights	132
7.2	Probability Weights	134
7.3	Deductive Logic in Probability-Weighted Languages	138
7.4	The Semantics of Probability-Weighted Languages	142
7.5	Plausible Inference	148
7.6	Statistical Inference	151
7.7	Inductive Reasoning	155
7.8	Extended Semantics	156

8.	'IF-THEN': A CASE STUDY IN LOGICO-LINGUISTIC ANALYSIS	158
8.1	Preliminary Statement of Hypotheses to be Tested	158
8.2	History of Hypothesis A	159
8.3	History of Hypothesis B	161
8.4	History of Other Hypotheses	163
8.5	Delineation of Constructions of Interest	163
8.6	The Working Hypothesis of Extended Semantic Structuralizability	166
8.7	Exact Statement of Hypothesis A	167
8.8	Exact Statement of Hypothesis B	168
8.9	Remarks on Hypothesis B	171
8.10	Contraposition	178
8.11	Methodological Review	180
8.12	The Hypothetical Syllogism	183
8.13	Further Inference Patterns	185
8.14	The Paradoxes of Material Implication	187
8.15	The Second Paradox Re-examined Dynamically	188
8.16	Modus Ponens and Modus Tollens	190
8.17	Order of Premises	191
8.18	Incompatible Conditionals	192
8.19	Self-Contradictory Conditionals	193
8.20	Aristotle's Slip	194
8.21	Incompleteness of the Rules Governing Conditionals	196
8.22	Logically Disjunct Conditionals	196
8.23	Negations of Conditionals	197
8.24	Conjunctions of Conditionals	199
8.25	Conditionals Containing Other Conditionals	201
8.26	Lewis Carroll's Barbershop Paradox	204
8.27	Disjunctions of Conditionals	206
8.28	Conclusions about <i>If-then</i>	209
8.29	Further Case Studies	211
8.30	Concluding Remark	211
9.	PROBLEM AREAS AND COMPUTER APPLICATIONS	212
9.1	Choice of Linguistic Unit	212
9.2	Ambiguity	214
9.3	Context-Dependence	219

TABLE OF CONTENTS

9.4	Linguistic Incompleteness	223
9.5	Non-declarative Sentences	226
9.6	Physical Realizability	228
9.7	Automatic Question-Answering	230
9.8	Enthymemes, Analyticity	232
9.9	Further Computer Applications	236
9.10	Artificial Intelligence	239
9.11	The Future	241

REFERENCES

INDEX

245	Context-Dependence
251	Ambiguity
251	Choice of Linguistic Unit
252	PROBLEM AREAS AND COMPUTER APPLICATIONS
251	Further Case Studies
251	Concluding Remark
251	Conclusion about λ -men
251	Disjunctions of Conditionals
254	Low's Carnot's Barbershop Paradox
255	Conditionals Containing Other Conditionals
255	Conjunctions of Conditionals
255	Negation of Conditionals
255	Logically Disjunctive Conditionals
255	Incompleteness of the Rules Governing Conditionals
255	Aristotle's Slip
255	Self-Contradictory Conditionals
255	Incompatible Conditionalizations
255	Order of Premises
255	Modus Ponens and Modus Tollens
