

Tables, Figures, and Boxes

Preface

About the Author

Introduction

What This Book Is About

Facts and Values in Perspective

The Scientific Approach

Conclusion

Notes

1. The Definition and Measurement of Concepts

Conceptual Definitions

Clarifying a Concept

A Template for Writing a Conceptual Definition

Operational Definitions

Measurement Error

Reliability and Validity

Evaluating Reliability

Evaluating Validity

Summary

Key Terms

Exercises

Notes

2. Measuring and Describing Variables

Measuring Variables

Levels of Measurement

Additive Indexes

Contents

44	Summary	ix
44	Key Terms	xiii
44	Exercises	xvii
44	Notes	
75	Introduction	xviii
75	What This Book Is About	xix
75	Facts and Values in Perspective	xx
75	The Scientific Approach	xxi
75	Conclusion	xxii
75	Notes	xxii
75	1. The Definition and Measurement of Concepts	1
75	Conceptual Definitions	3
75	<i>Clarifying a Concept</i>	3
75	<i>A Template for Writing a Conceptual Definition</i>	6
75	Operational Definitions	7
75	<i>Measurement Error</i>	9
75	<i>Reliability and Validity</i>	11
75	<i>Evaluating Reliability</i>	12
75	<i>Evaluating Validity</i>	14
75	Summary	17
75	Key Terms	18
75	Exercises	18
75	Notes	20
75	2. Measuring and Describing Variables	24
75	Measuring Variables	25
75	<i>Levels of Measurement</i>	25
75	<i>Additive Indexes</i>	27

Describing Variables	29
<i>Nominal Variables</i>	30
<i>Ordinal Variables</i>	32
<i>Interval Variables</i>	35
Summary	41
Key Terms	44
Exercises	44
Notes	46
3. Proposing Explanations, Framing Hypotheses, and Making Comparisons	48
Proposing Explanations	51
Framing Hypotheses	54
<i>Common Mistakes in Hypothesis Writing</i>	56
<i>Intervening Variables</i>	56
Making Comparisons	58
<i>Cross-tabulations</i>	59
<i>Mean Comparisons</i>	62
Graphing Relationships and Describing Patterns	63
Summary	69
Key Terms	70
Exercises	70
Notes	75
4. Research Design and the Logic of Control	78
Experimental Designs	80
<i>Random Assignment</i>	81
<i>A Laboratory Experiment</i>	82
<i>A Field Experiment</i>	83
Controlled Comparisons	84
Three Scenarios	86
<i>Spurious Relationships</i>	87
<i>Additive Relationships</i>	90
<i>Interaction Relationships</i>	92
<i>The Many Faces of Interaction</i>	94
Summary	96
Key Terms	97
Exercises	97
Notes	99
5. Making Controlled Comparisons	102
Cross-tabulation Analysis	103
<i>Control Tables</i>	103
<i>Partial Effect</i>	104
<i>Identifying the Pattern</i>	106
Graphing Controlled Comparisons	108

An Example of Interaction	109
Mean Comparison Analysis	112
<i>An Example of Additive Relationships</i>	113
<i>Another Example of Interaction</i>	115
Summary	118
Key Terms	118
Exercises	119
Notes	121
6. Foundations of Statistical Inference	123
Population Parameters and Sample Statistics	124
Random Sampling	125
<i>Sample Size and Random Sampling Error</i>	128
<i>Variation Revisited: The Standard Deviation</i>	130
<i>n and σ</i>	133
The Standard Error of a Sample Mean	136
<i>The Central Limit Theorem and the Normal Distribution</i>	137
Inference Using the Normal Distribution	141
Inference Using the Student's <i>t</i> -Distribution	145
What about Sample Proportions?	149
Summary	151
Key Terms	153
Exercises	153
Notes	155
7. Tests of Significance and Measures of Association	156
Statistical Significance	157
<i>Comparing Two Sample Means</i>	158
<i>Comparing Two Sample Proportions</i>	163
<i>The Chi-square Test of Significance</i>	165
Measures of Association	170
<i>Lambda</i>	171
<i>Cramer's V</i>	173
<i>Somers's d_{yx}</i>	174
Summary	177
Key Terms	178
Exercises	179
Notes	181
8. Correlation and Linear Regression	183
Correlation	184
Bivariate Regression	188
R-square	194
<i>Adjusted R-square</i>	197
Dummy Variable Regression	198
Multiple Regression	201

Interaction Effects in Multiple Regression	203
Multicollinearity	207
Summary	208
Key Terms	209
Exercises	209
Notes	213
9. Logistic Regression	215
The Logistic Regression Approach	217
Finding the Best Fit: Maximum Likelihood Estimation	226
Logistic Regression with Multiple Independent Variables	231
Working with Probabilities: MEMs and MERs	233
Summary	238
Key Terms	239
Exercises	239
Notes	241
10. Thinking Empirically, Thinking Probabilistically	244
Thinking Empirically	245
Thinking Probabilistically	246
Notes	247
Index	249
