Introduction	1
1. Production trends and the importance of various species of domestic animals. .	3
1.1. Horses	3
1.2. Asses and mules	5
1.3. Cattle	6
1.4. Pigs	8
1.5. Sheep	9
1.6. Goats	11
1.7. Dogs	12
1.8. Fur animals	12
1.8.1. Rabbits	12
1.8.2. Coypus	13
1.8.3. Minks	13
1.8.4. Foxes	14
1.9. Poultry-domestic fowl	14
1.9.1. Hens.	14
1.9.2. Turkeys	15
1.9.3. Guinea fowl	15
1.9.4. Japanese quail	16
1.9.5. Geese	16
1.9.6. Ducks	16
1.9.7. Pigeons	17
1.10. Laboratory animals	17
1.11. Commercially exploited insects	18
2. Structure and density of livestock populations	22
2.1. Cattle	23
2.2. Pigs	24
2.3. Horses	25
2.4. Asses and mules	27
2.5. Sheep	27
2.6. Goats	28
2.7. Dogs	28
2.8. Fur animals	28
2.9. Poultry	29
2.10. Commercially exploited insects	30
3. Exterior	31
3.1. Head and neck	31

3.1.1.	Size of the head	31
3.1.2.	Relationships between the lengths and widths of the head, snout and forehead (Facial parts and brain case)	36
3.1.3.	Profile of the head	38
3.1.4.	Cheeks	39
3.1.5.	Jowl	40
3.1.6.	Ears	40
3.1.7.	Eyes	41
3.1.8.	Nostrils	42
3.1.9.	Oral cavity, incisors	44
3.1.10.	Horns.	48
3.1.11.	Beak and skin-derived structures on the heads of birds	49
3.1.12.	Setting of head	50
3.1.13.	Neck	51
3.2.	Trunk	52
3.2.1.	Withers	52
3.2.2.	Back	54
3.2.3.	Loins	55
3.2.4.	Sacral region	55
3.2.5.	Tail.	57
3.2.6.	Chest	59
3.2.7.	Barrel	60
3.2.8.	Flanks	61
3.2.9.	Anus	61
3.2.10.	External genital organs	61
3.2.11.	Udder	62
3.3.	Limbs	66
3.3.1.	Scapula	68
3.3.2.	Shoulder	69
3.3.3.	Forearm	69
3.3.4.	Carpus	70
3.3.5.	Thigh	70
3.3.6.	Stifle	71
3.3.7.	Gaskin	71
3.3.8.	Hock	71
3.3.9.	Cannons	73
3.3.10.	Fetlock joints	75
3.3.11.	Pasterns	76
3.3.12.	Coronet and heels	77
3.3.13.	Hooves and claws	77
3.4.	Setting of limbs	79
3.5.	Gait	84
3.6.	Complex descriptions of body proportions	86
3.7.	Body measurements	88
3.7.1.	Measurements made with a measuring rule	89

3.7.2.	Measurements made with a pair of compasses	90
3.7.3.	Measurements made with a measuring tape	91
3.7.4.	Measurements made with slide callipers	92
3.7.5.	Evaluation of measurement data.	92
3.8.	Determination of body weight	95
3.9.	Skin, coat, plumage	96
3.9.1.	Skin	96
3.9.2.	Coat	98
3.9.3.	Plumage.	105
3.9.4.	Colouration	107
3.10.	Anatomy of commercially exploited insects	113
4.	Origin of domestic animals	114
4.1.	Ancestors of cattle	114
4.1.1.	Large auroch	114
4.1.2.	Small auroch	115
4.2.	Ancestors of horses	115
4.2.1.	Przewalski horse	116
4.2.2.	Tarpan	117
4.3.	Ancestors of asses	118
4.4.	Ancestors of pigs	118
4.4.1.	Northern European wild boar	118
4.4.2.	Asiatic wild boar	119
4.4.3.	Mediterranean wild boar	119
4.5.	Ancestors of sheep	119
4.5.1.	European mouflon	119
4.5.2.	Steppe sheep	120
4.5.3.	Argali.	121
4.6.	Ancestors of goats	121
4.6.1.	Bezoar	121
4.6.2.	<i>Capra prisca</i>	122
4.6.3.	Markhor	122
4.7.	Ancestors of dogs	122
4.8.	Ancestors of the domestic rabbit	122
4.9.	Ancestors of the coypu	123
4.10.	Ancestors of the mink	123
4.11.	Ancestors of foxes	123
4.12.	Ancestors of laboratory animals	123
4.13.	Ancestors of domestic fowls	124
4.13.1.	Ancestor of hens.	124
4.13.2.	Ancestor of turkeys	124
4.13.3.	Ancestor of the guinea fowl	125
4.13.4.	Ancestor of the Japanese quail	125
4.13.5.	Ancestor of geese	125
4.13.6.	Ancestor of ducks	125
4.13.7.	Ancestor of domestic pigeons	125

4.14. Ancestors of commercially exploited insects	125
5. Utility types of domestic animals	127
5.1. Utility types of cattle	128
5.1.1. Dairy type	128
5.1.2. Beef type	128
5.1.3. Working type	129
5.1.4. Dual-purpose type	129
5.1.5. Multi-purpose type	129
5.2. Utility types of horses	129
5.2.1. Riding type	130
5.2.2. Draught type	130
5.2.3. Multi-purpose type	131
5.2.4. Pack type	
5.3. Utility types of pig	131
5.3.1. Meat type	132
5.3.2. Fat-meat type	132
5.3.3. Lard type	133
5.3.4. General utility type	133
5.3.5. Laboratory type	133
5.4. Utility types of sheep	133
5.4.1. Wool type	133
5.4.2. Mutton-wool type	134
5.4.3. Milk-wool type	134
5.4.4. Fur-milk type	134
5.4.5. Pelt type	134
5.4.6. Fat-mutton type	134
5.4.7. General utility type	135
5.5. Utility types of goat	135
5.6. Utility types of dog	135
5.6.1. Guard dogs	135
5.6.2. Hunting dogs	135
5.6.3. Pet dogs	136
5.7. Utility types of fur animals	136
5.7.1. Utility types of rabbit	136
5.7.1.1. Meat-fur type	136
5.7.1.2. Fur-meat type	136
5.7.1.3. Wool type	136
5.7.2. Utility types of coypu	136
5.7.3. Utility types of mink and fox	137
5.8. Utility types of laboratory animals	137
5.9. Utility types of domestic fowl	138
5.9.1. Utility types of hen	138
5.9.1.1. Egg-laying type	138
5.9.1.2. Meat type	138
5.9.1.3. Fighting type	138

5.9.1.4.	Dual-purpose type	139
5.9.1.5.	Exhibition type	139
5.9.2.	Utility types of turkey	139
5.9.3.	Utility types of guinea fowl	139
5.9.4.	Utility types of Japanese quail	140
5.9.5.	Utility types of goose	140
5.9.6.	Utility types of duck	140
5.9.7.	Utility types of pigeon	140
5.10.	Types of utility insects	141
6.	Main European and extra-European breeds and regional types of animal . . .	142
6.1.	Breeds and types of cattle	144
6.1.1.	Dairy cattle	144
6.1.1.1.	Jersey and Guernsey cattle	145
6.1.1.2.	Ayrshire cattle	147
6.1.2.	Dual-purpose cattle	148
6.1.2.1.	Lowland Black and White cattle	148
6.1.2.2.	Lowland Red and White cattle	156
6.1.2.3.	Danish Red cattle (Rødt Dansk Malkekvaeg = RDM)	159
6.1.2.4.	Polish Red cattle	159
6.1.2.5.	Angeln cattle (Angler Rotvieh)	162
6.1.2.6.	Normandy cattle (Race Bovine Normande)	163
6.1.2.7.	Simmental cattle (Simmentaler)	164
6.1.2.8.	Swiss Brown cattle (Schweizer Braunvieh)	166
6.1.2.9.	Pinzgau cattle (Pinzgauer)	167
6.1.3.	Beef cattle	168
6.1.3.1.	Charolais (Charolaise)	168
6.1.3.2.	Limousin (Race Limousine)	170
6.1.3.3.	Hereford	171
6.1.3.4.	Shorthorn	172
6.1.3.5.	Aberdeen-Angus	174
6.1.3.6.	Italian beef-breeds derived from Grey Steppe cattle	175
6.1.3.7.	American beef-breeds with Zebu blood	178
6.1.3.8.	Żubroń—hybrid of the European bison and domestic cattle	180
6.2.	Breeds and types of horses	181
6.2.1.	Saddle and general-purpose horses	181
6.2.1.1.	Pure-bred Arabian horse (oo)	181
6.2.1.2.	Thoroughbred (xx)	186
6.2.1.3.	Barbs	190
6.2.1.4.	Anglo-Arabs	190
6.2.1.5.	Anglo-Normans (Race Normande)	191
6.2.1.6.	Hanover (Hannoveraner Pferd)	193
6.2.1.7.	Trakehnen (Trakehner Pferd)	194
6.2.1.8.	Oldenburg (Oldenburger Warmblutpferd)	194
6.2.1.9.	Hungarian half-breed strains—Shagya, Furioso, Gidran, Nonius and the Austrian Przedświt strain	195

6.2.1.10.	Lipizza	197
6.2.1.11.	Małopolski horse	198
6.2.1.12.	Wielkopolski horse	200
6.2.1.13.	Silesian horse	201
6.2.1.14.	Hunters	203
6.2.1.15.	Swedish saddle horses	204
6.2.1.16.	Don and Budionnyi horses (Donskaya poroda, Budion- novskaya poroda)	204
6.2.1.17.	Kabarda horses (Kabardinskaya poroda)	206
6.2.1.18.	Akhal-Teke horses (Akhal-tekinskaya poroda)	206
6.2.1.19.	Quarter horse	207
6.2.1.20.	Morgan	208
6.2.1.21.	American saddle horse	209
6.2.2.	Trotters	210
6.2.3.	Draught horses	213
6.2.3.1.	Ardennes (Race ardennaise)	214
6.2.3.2.	Breton (Race bretonne)	215
6.2.3.3.	Percheron (Race Percheronne)	217
6.2.3.4.	Boulonnais (Race boulonnaise)	218
6.2.3.5.	Brabancon (Brabançon)	218
6.2.3.6.	Shire and Clydesdale	220
6.2.3.7.	Döle and North Swedish (Nordsvenska hästar)	220
6.2.3.8.	Polish draught horses	222
6.2.3.9.	Russian draught horses	227
6.2.4.	Small horses and ponies of general utility	228
6.2.4.1.	Fjords	228
6.2.4.2.	Haflings	230
6.2.4.3.	Polish Konik	230
6.2.4.4.	Hutsul	232
6.2.4.5.	British and Irish ponies	233
6.2.4.6.	Icelandic ponies	235
6.3.	Breeds of asses	236
6.4.	Breeds and types of swine	239
6.4.1.	The Large White and its derivatives	241
6.4.1.1.	The Large White	241
6.4.1.2.	German Large White (German Yorkshire)	242
6.4.1.3.	Polish Large White	242
6.4.2.	White lop-eared	244
6.4.2.1.	Danish Landrace	245
6.4.2.2.	Swedish Landrace (Svensk Landras)	246
6.4.2.3.	German Landrace (Die Deutsche Landrasse)	246
6.4.2.4.	Dutch Landrace	247
6.4.2.5.	Belgian Landrace (le porc indigène amélioré)	248
6.4.2.6.	Norwegian Landrace	248
6.4.2.7.	American Landrace	248

6.4.2.8.	Polish White lop-eared (polish Landrace)	249
6.4.2.9.	Złotniki White (Złotnicka Biała)	249
6.4.3.	Tamworth	251
6.4.4.	Cornwall	251
6.4.5.	Berkshire	252
6.4.6.	Puławy	253
6.4.7.	Złotniki spotted	256
6.4.8.	Pietrain	257
6.4.9.	Poland-China	257
6.4.10.	Saddleback pigs—Wessex Saddleback and Hampshire	258
6.4.11.	Mangalitsa	259
6.5.	Breeds and types of sheep	260
6.5.1.	Wool and wool-mutton sheep	260
6.5.1.1.	Merinos and their derivatives	262
6.5.1.2.	Texel	271
6.5.1.3.	Leine	272
6.5.1.4.	Holstein	273
6.5.1.5.	Kent (Romney Marsh)	273
6.5.1.6.	Leicester	274
6.5.1.7.	Lincolns and Corriedales	275
6.5.1.8.	Southdowns	276
6.5.1.9.	German Blackheaded mutton (Deutsche schwarzköpfiges Fleischschaf)	277
6.5.1.10.	Charmoise	278
6.5.1.11.	Polish Longwool and Lowland	279
6.5.2.	Multi-purpose sheep	281
6.5.2.1.	Friesian (Das ostfriesische Milchscharf)	281
6.5.2.2.	Tsigai	281
6.5.2.3.	Finnsheep	283
6.5.2.4.	Lacaune	283
6.5.2.5.	Zackel	285
6.5.3.	Pelt and fur sheep	287
6.5.3.1.	Romanov (Romanovskaya poroda)	287
6.5.3.2.	Polish Heath (Wrzosówka)	290
6.5.3.3.	Karakul	290
6.6.	Breeds of goat	292
6.6.1.	Saanen (Saanenziege)	292
6.6.2.	German Improved White (Weisse Deutsche Edelziege)	292
6.6.3.	German Improved Fawn (Bunte Deutsche Edelziege)	294
6.6.4.	French Alpine	295
6.6.5.	Polish Improved White	295
6.6.6.	Polish Improved Fawn	296
6.7.	Breeds of dog	296
6.7.1.	German Shepherd (Deutscher Schäferhund)	298
6.7.2.	Podhale Sheepdog	299

6.7.3.	Polish Lowland Sheepdog	301
6.7.4.	Polish Bloodhound	303
6.7.5.	Collie	303
6.7.6.	Saint Bernard (St. Bernard)	304
6.7.7.	Boxer	305
6.7.8.	Pointers	306
6.7.9.	Terriers	307
6.7.10.	Spaniels	309
6.7.11.	Greyhounds	309
6.7.12.	Dachshunds	310
6.7.13.	Poodles	310
6.7.14.	Spitzes	311
6.7.15.	Pekingese	312
6.8.	Breeds of rabbit	313
6.8.1.	Polish Medium White rabbit	314
6.8.2.	Popielno rabbit	315
6.8.3.	Danish White rabbit	315
6.8.4.	Chinchilla rabbit	316
6.8.5.	French Silver rabbit	317
6.8.6.	Blue Vienna rabbit	318
6.8.7.	White Vienna rabbit	319
6.8.8.	Black-and-tan rabbit	319
6.8.9.	Flemish rabbit	319
6.8.10.	France lop rabbit	321
6.8.11.	German and Swiss derivatives of the Flemish rabbit	322
6.8.12.	New Zealand rabbit	322
6.8.13.	White Angora	323
6.9.	Colour varieties of coypus	323
6.10.	Colour varieties of minks	324
6.11.	Colour varieties of foxes	325
6.11.1.	Colour varieties of Polar foxes	325
6.11.1.1.	Polish Blue fox	326
6.11.1.2.	Finnish Blue fox.	326
6.11.1.3.	Norwegian Blue fox	326
6.11.1.4.	White Polar fox	327
6.11.2.	Colour varieties of the common fox	327
6.11.2.1.	Silver fox	327
6.11.2.2.	Platinum fox	327
6.12.	Breeds of cats	328
6.13.	Breeds of domestic fowls	329
6.13.1.	Breeds of hens.	329
6.13.1.1.	Leghorn	331
6.13.1.2.	Sussex	332
6.13.1.3.	Rhode Island Red	333
6.13.1.4.	New Hampshire	334

6.13.1.5. Cornish	335
6.13.1.6. White Rock	335
6.13.1.7. Green-legged Partridge	336
6.13.1.8. Polbars	338
6.13.1.9. Bantams—Exhibition breeds.	339
6.13.2. Breeds of turkeys	339
6.13.2.1. Bronze Standard	340
6.13.2.2. Broad-breasted Bronze and White turkeys	340
6.13.2.3. Beltsville	341
6.13.3. Varieties of guinea fowl	341
6.13.4. Varieties of Japanese quails	341
6.13.5. Breeds of geese	341
6.13.5.1. Pomeranian geese	342
6.13.5.2. Suwałki geese	344
6.13.5.3. Lublin-Kielce geese.	344
6.13.5.4. Podkarpacie geese	344
6.13.5.5. Italian geese	344
6.13.5.6. Toulouse geese	345
6.13.5.7. Embden geese	345
6.13.6. Breeds of ducks	345
6.13.6.1. Pekin duck	346
6.13.6.2. Rouen duck	346
6.13.6.3. Aylesbury duck	346
6.13.6.4. Khaki-Campbell	347
6.13.6.5. Musk duck	347
6.13.7. Breeds of pigeons	348
6.13.7.1. Field pigeons	348
6.13.7.2. Bagdads	349
6.13.7.3. Pouters	349
6.13.7.4. Highfliers	349
6.13.7.5. Jacobins.	349
6.13.7.6. Oriental Frills	349
6.13.7.7. Fantails	349
6.14. Breeds of insects	350
7. Reproduction	352
7.1. Sexual maturity, readiness for breeding, brooding instinct	352
7.2. Sexual cycle in mammals and laying rhythm in fowls	356
7.2.1. The heat period	358
7.2.2. Ovulation	359
7.2.3. Synchronization of oestrus and ovulation (control of sexual cycle)	362
7.3. Breeding season and times of service	363
7.3.1. Mating of cows	363
7.3.2. Breeding season in horses	366
7.3.3. Mating of sows	367
7.3.4. Breeding season in sheep	369

7.3.5.	Mating of goats	371
7.3.6.	Mating of bitches	371
7.3.7.	Mating of does	371
7.3.8.	Mating of coypus	372
7.3.9.	Breeding season in minks	372
7.3.10.	Breeding season in common and Polar foxes	372
7.3.11.	Mating of laboratory animals	373
7.3.12.	Mating of birds	373
7.4.	Conditioning females for breeding	373
7.4.1.	Proper conditions of keep	374
7.4.2.	Feeding of breeding females	374
7.4.3.	Special treatments	374
7.5.	Management of breeding males	375
7.5.1.	Conditions of keep	375
7.5.1.1.	Housing for breeding males.	375
7.5.1.2.	Exercise	376
7.5.1.3.	Feeding	377
7.5.1.4.	Care of hooves, claws and skin	381
7.5.2.	Frequency of matings and the number of females selected for service	382
7.5.2.1.	Stallions	382
7.5.2.2.	Bulls	383
7.5.2.3.	Boars	383
7.5.2.4.	Rams	383
7.5.2.5.	Bucks.	384
7.5.2.6.	Dogs	384
7.5.2.7.	Rabbits	384
7.5.2.8.	Coypus	385
7.5.2.9.	Minks	385
7.5.2.10.	Foxes	385
7.5.2.11.	Laboratory animals	385
7.5.2.12.	Domestic fowls	385
7.5.3.	Fertility tests and the use of auxiliary breeding males.	386
7.6.	Methods and organization of natural mating and of artificial insemination	386
7.6.1.	Random mating	387
7.6.2.	Hand mating	388
7.6.2.1.	Teasers	388
7.6.2.2.	Trying of mares	390
7.6.2.3.	Hand mating procedures	391
7.6.2.4.	Copulation and ejaculation	393
7.6.3.	Artificial insemination	395
7.7.	Management of pregnant females	397
7.7.1.	Diagnosis of pregnancy	397
7.7.2.	Protection against injury	398
7.7.3.	Feeding pregnant females	399

7.7.4.	Exercise, and care of the skin.	403
7.7.5.	Drying off of milking females	403
7.8.	Preparation for parturition	404
7.8.1.	Housing	404
7.8.2.	Special pre-parturient treatment	406
7.9.	Parturition	406
7.9.1.	Signs of approaching parturition	407
7.9.2.	The process of parturition and assistance	407
7.10.	Post-parturient care	408
7.10.1.	Food and drink provision after parturition	408
7.10.2.	Care of the udder	409
7.11.	Hatching	410
7.11.1.	Production and selection of hatching eggs	410
7.11.1.1.	Factors influencing the quality of hatching eggs—feeding of fowls producing eggs for hatching	410
7.11.1.2.	Characteristics of good hatching eggs	414
7.11.1.3.	Keeping and transport of hatching eggs	415
7.11.2.	Incubation.	415
7.11.2.1.	Natural incubation	417
7.11.2.2.	Artificial incubation	419
7.11.2.3.	Timing of hatching	421
7.12.	Reproduction of commercially exploited insects	421
7.12.1.	Reproduction of bees.	421
7.12.2.	Reproduction of silkworms	425
8.	Management of young	429
8.1.	Management of young in the period of suckling	429
8.1.1.	Handling of newborns	429
8.1.1.1.	Cleansing the newborn's skin	429
8.1.1.2.	Housing and equipment for the young.	430
8.1.1.3.	The beginning of sucking. Colostrum	432
8.1.1.4.	Feeding newborns deprived of their mother's milk	435
8.1.2.	First walk and exercise	438
8.1.3.	Feeding with milk and its substitutes	439
8.1.4.	Supplementary feeding of sucklings	442
8.1.4.1.	Cow's milk	442
8.1.4.2.	Concentrates	443
8.1.4.3.	Roughage	445
8.1.4.4.	Fodders and sources of minerals and vitamins	447
8.1.4.5.	Supplying fodder to sucklings and chicks	447
8.1.5.	Feeding chicks	449
8.1.6.	Attendance and special care of sucklings and chicks	452
8.1.6.1.	Protection against injury	452
8.1.6.2.	Taming and training	453
8.1.6.3.	Marking of sucklings and chicks	454

8.1.6.4. Castration	456
8.1.6.5. Vermifugal treatment	456
8.1.7. Care and feeding of nursing females	457
8.1.8. Weaning the young	459
8.2. Management beyond weaning	461
8.2.1. Selection of young animals according to their future use	461
8.2.2. Common terms used for animals at different ages	462
8.2.3. Maintenance of weanlings.	463
8.2.4. Feeding of young after weaning	466
8.3. Rearing in intensive production systems	474
8.4. Control of growth and development	474
8.4.1. Control of weight gains	475
8.4.2. Control of body measurements	480
8.4.3. Moulting in chicks and young fowls	482
8.4.4. Symptoms of underdevelopment	483
9. Utility and production techniques	484
9.1. Production techniques	484
9.1.1. Small-scale production techniques	485
9.1.1.1. Traditional techniques	485
9.1.1.2. Specialized small-scale techniques	486
9.1.2. Large-scale production techniques	487
9.1.2.1. Traditional large-scale techniques	487
9.1.2.2. Large-scale commercial production techniques	488
9.2. Dairy use	491
9.2.1. Lactation	491
9.2.2. Factors affecting milk yield	493
9.2.2.1. Characteristics of species and breed	493
9.2.2.2. Individual characteristics	493
9.2.2.3. Age	493
9.2.2.4. Duration of dry period and milk yield in the preceding lactation	493
9.2.2.5. Feeding	494
9.2.2.6. Health	494
9.2.2.7. Environmental conditions	494
9.2.2.8. Frequency and methods of milking	494
9.2.3. Factors influencing properties of milk	495
9.2.4. Milking technique	497
9.2.4.1. Housing	497
9.2.4.2. Milking hygiene	498
9.2.4.3. Udder stimulation	499
9.2.4.4. Hand milking	499
9.2.4.5. Machine milking	501
9.2.5. Handling of milk	504
9.2.6. Processing of milk	504

9.2.7.	Feeding of dairy animals	505
9.2.8.	Milk production techniques	507
9.2.8.1.	Traditional small-scale production	507
9.2.8.2.	Specialized small-scale production	508
9.2.8.3.	Traditional large-scale production	508
9.2.8.4.	Intensive dairy production	509
9.3.	Egg production	512
9.3.1.	Factors affecting egg production	512
9.3.1.1.	Breed origin (Utility crosses).	512
9.3.1.2.	Hatching time	512
9.3.1.3.	Time taken to reach maturity	513
9.3.1.4.	Age	513
9.3.1.5.	Laying rate	514
9.3.1.6.	Winter break	514
9.3.1.7.	Brooding	514
9.3.1.8.	Moult	514
9.3.2.	Factors affecting the quality of eggs	514
9.3.3.	Management during laying	516
9.3.4.	Handling of eggs	517
9.3.5.	Feeding of laying fowls.	518
9.3.6.	Egg production techniques	518
9.3.6.1.	Traditional small-scale production	519
9.3.6.2.	Specialized small-scale production	519
9.3.6.3.	Large-scale commercial production	520
9.4.	Production of meat and fat	520
9.4.1.	Types of slaughter livestock	520
9.4.1.1.	Types of beef cattle	520
9.4.1.2.	Types of pork swine	522
9.4.1.3.	Types of sheep sent for slaughter	525
9.4.1.4.	Types of goat sent for slaughter	526
9.4.1.5.	Types of horse sent for slaughter	526
9.4.1.6.	Types of fur animals reared for slaughter	527
9.4.1.7.	Types of table fowl	527
9.4.2.	Methods and conditions of fattening	529
9.4.2.1.	Fattening of sucklings and broilers	530
9.4.2.2.	Fattening of young stock	535
9.4.2.3.	Fattening of adult and old stock	542
9.4.3.	Techniques employed in the production of slaughter livestock	546
9.4.3.1.	Traditional small-scale production	546
9.4.3.2.	Specialized small-scale production	548
9.4.3.3.	Traditional large-scale production	548
9.4.3.4.	Large-scale commercial livestock production	549
9.5.	Wool production	551
9.5.1.	Factors affecting the quality and yield of wool	551
9.5.2.	Shearing schedule	552

9.5.3.	Preparation for shearing	552
9.5.4.	The shearing process	553
9.5.5.	Wool production	554
9.5.5.1.	Traditional small-scale production	554
9.5.5.2.	Specialized small-scale production	555
9.5.5.3.	Large-scale production	555
9.6.	Production of feathers and down.	556
9.7.	Production of pelts, fur and skins	556
9.7.1.	Feeding of wool and fur animals	559
9.7.2.	Methods employed in the production of furs and pelts	561
9.7.2.1.	Traditional small-scale production	561
9.7.2.2.	Specialized small-scale production	561
9.7.2.3.	Large-scale production	562
9.8.	Draught work	562
9.8.1.	Types of draught work	562
9.8.2.	Harnesses and harnessing	563
9.8.3.	Driving	568
9.8.4.	Training young animals to work in harness	569
9.8.5.	Standards and efficiency of draught work	571
9.8.5.1.	Work; actual, normal and maximum pulling power	571
9.8.5.2.	Relationship between power, speed, and working time	574
9.8.5.3.	Work efficiency with a group harness.	575
9.8.6.	Feeding of draught animals	575
9.9.	Use for riding and pack	580
9.9.1.	Riding and pack gear. Principles of saddling	580
9.9.2.	Horsemanship	582
9.9.3.	Training of young animals for work under saddle	587
9.9.4.	Working under saddle and pack	588
9.9.5.	Feeding of riding and pack horses.	589
9.9.6.	The production of draught horses	590
9.9.6.1.	Traditional small-scale production	590
9.9.6.2.	Specialized small-scale production	591
9.9.6.3.	Large-scale (Stud) production	591
9.10.	Working dogs	592
9.10.1.	Training of the young dog	592
9.10.2.	Feeding of working dogs	597
9.10.3.	Breeding of working dogs	599
9.11.	Laboratory animals	599
9.12.	Commercial use of insects	600
9.12.1.	Management of bees	600
9.12.2.	Management of silkworms	602
9.13.	Production of manure	602
9.13.1.	Quantity and quality of manure	603
9.13.2.	Removal and storage of manure	605

10. Care and handling of animals	609
10.1. Manipulation and restraint of animals	609
10.2. Care of skin and coat	611
10.2.1. Cleansing	611
10.2.2. Washing and bathing	613
10.2.3. Prevention of skin injuries	614
10.3. Care of hooves and claws	614
10.4. Qualifications of attendance staff and their duties	620
10.5. Daily routine of animal husbandry	621
10.6. Apiary work	625
10.7. Transport of animals	627
10.7.1. Transport within the boundaries of the farm	627
10.7.2. Transport beyond the farm	628
11. Housing and stock equipment	631
11.1. Location of stock houses	631
11.2. Essentials of a stock house	631
11.2.1. Foundations	631
11.2.2. Walls	632
11.2.3. Floors	633
11.2.4. Ceilings and floor slabs	634
11.2.5. Roofs	634
11.2.6. Windows	635
11.2.7. Ventilation	637
11.2.8. Waste removal systems	638
11.2.9. Water supply systems and automatic drinkers	639
11.2.10. Heating	640
11.2.11. Feeding appliances	640
11.2.12. Milking systems	643
11.3. Housing for different categories of stock	645
11.3.1. Housing for cattle	646
11.3.1.1. Barns	646
11.3.1.2. Rearing houses for calves	649
11.3.1.3. Housing for rearing heifers and bullocks	651
11.3.1.4. Housing for young fattening cattle	651
11.3.2. Stables for horses	651
11.3.3. Housing for pigs	655
11.3.4. Housing for sheep	660
11.3.5. Housing for dogs	662
11.3.6. Housing for fur animals	663
11.3.7. Housing for poultry	667
11.3.8. Housing for laboratory animals	670
11.3.9. Housing for insects	670
11.4. Pastures	673
11.4.1. Properties of a good pasture	673
11.4.2. Utilization of pastures	673

11.4.3. Quarter grazing	677
11.4.4. Behaviour of different kinds of animals on pastures	677
12. Breeding technique	678
12.1. Introduction	678
12.2. Registration of breeding stock	678
12.2.1. Herdbooks	679
12.2.2. Computer registration	680
12.3. Stock pedigree and stock-producing farms	681
12.3.1. Large stock pedigree farms	681
12.3.2. Small stock pedigree farms	681
12.3.2.1. Pedigree poultry farms	682
12.3.2.2. Pedigree fur animals farms	682
12.3.2.3. Pedigree apiaries	683
12.4. Performance evaluation	685
12.4.1. Milk yield evaluation	685
12.4.2. Meat productivity evaluation	687
12.4.3. Evaluation of the performance of draught and saddle animals	691
12.4.4. Evaluation of wool and fur-producing stock	698
12.4.5. Evaluation of working dogs	701
12.4.6. Monitoring and evaluation of laying performance in fowls.	703
12.4.7. Evaluation of productivity in bees and silkworms	704
12.5. Evaluation of exterior proportions	704
12.6. Marking of pedigree animals.	708
12.7. Evaluation of breeding performance	710
12.7.1. Evaluation of the breeding value of dams	711
12.7.2. Evaluation of the breeding value of sires	712
12.8. Selection for breeding and mating	716
12.9. Breeding programmes	721
13. Organization of stock breeding and rearing	724
13.1. Breeding institutes and enterprises	724
13.1.1. State breeding farms	724
13.1.1.1. National studs	725
13.1.1.2. State Animal Breeding Centres	725
13.1.2. Utility Test Stations	725
13.1.2.1. Slaughter Testing Stations	725
13.1.2.2. State Racecourses	726
13.1.2.3. Training schools	726
13.1.3. Breeding stations	726
13.1.3.1. Artificial Insemination Stations	726
13.1.3.2. State Depots of Stallion	726
13.1.4. Silkworm breeding enterprises	727
13.1.5. EDP Stations	727
13.2. Animal breeding associations	727
13.2.1. Breeders' societies	728
13.2.2. Associations concerned with the breeding of stock	728

13.2.2.1. Dairy Co-operative Societies	728
13.2.2.2. Riders' Associations	729
13.2.3. State aid given as credits and purchase contracts to breeding organiza- tions and farms	729
13.2.4. FAO Animal Production and Health Division	730
13.3. Private enterprises and trading companies	730
13.4. Marketing of breeding, utility and slaughter animals	730
13.4.1. Breeding Stock Traders	730
13.4.2. Animex	731
13.5. Breeding experiments	731
14. Development of animal husbandry science	733
14.1. Development of literature	733
14.2. Development of educational system, experimenting and scientific organiza- tions and associations	736
14.3. Development of professional organizations and of breeding practice.	748
