

## CONTENTS

<i>C. Derouesné, D. Guez and J.P. Poirier (France)</i>	
Preface	v
<i>C. Duyckaerts (France)</i>	
Neuropathology of amnesic syndromes	1
<i>G. Chapouthier (France)</i>	
The search for a biochemistry of memory	7
<i>P. Leconte (France)</i>	
Chronobiological rhythm constraints of memory processes	21
<i>G. Tiberghien (France)</i>	
Models of human memory	37
<i>R. Jaffard, T. Durkin, A. Toumane, A. Marighetto and C. Lebrun (France)</i>	
Experimental dissociation of memory systems in mice: behavioral and neurochemical aspects	55
<i>R.J. Beninger, B.A. Wirsching, K. Jhamandas and R.J. Boegman (Canada)</i>	
Animal studies of brain acetylcholine and memory	71
<i>W. Mayo (France)</i>	
Comparative study of two types of cholinergic lesion in rats	91
<i>S.J. Sara (France)</i>	
Noradrenergic–cholinergic interaction: its possible role in memory dysfunction associated with senile dementia	99
<i>H. Allain, P. Moran, D. Bentue-Ferrer, J.-P. Martinet and A. Lieury (France)</i>	
Pharmacology of the memory process	109
<i>J. Delbecq-Derouesné and M.-F. Beauvois (France)</i>	
Memory processes and aging: a defect of automatic rather than controlled processes?	121
<i>C. Derouesné, A. Alperovitch, N. Arvay, P. Migeon, F. Moulin, M. Vollant, J.R. Rapin and M. Le Poncin (France)</i>	
Memory complaints in the elderly: a study of 367 community-dwelling individuals from 50 to 80 years old	151

<i>R. Jouvent (France)</i>	
Evaluating the affective and cognitive effects of a drug: theoretical and methodological considerations	165
<i>J. Poitrenaud, F. Moy, A. Girousse, Y. Wolmark and F. Piette (France)</i>	
Psychometric procedures for analysis of memory losses in the elderly	173
<i>J. Yesavage (USA)</i>	
Techniques for cognitive training of memory in age-associated memory impairment	185
<i>D. Guez (France)</i>	
Drug development in age-related memory disorders	191
<i>F. Piette (France)</i>	
Inclusion and exclusion clinical criteria to form homogeneous groups of patients in the therapeutic trials of a memory enhancing drug	95
<i>J. Wertheimer (Switzerland)</i>	
A logical approach to the clinical assessment of cerebro-active drugs	201
<i>A. Alperovitch (France)</i>	
Clinical trials in memory disorders: objectives and methodology	207
<i>J. Fermanian (France)</i>	
Methodology and statistical problems in the assessment of memory by rating scales	215
<i>L. Israël (France)</i>	
Memory training programs as a reference to the clinical evaluation of drugs in memory disorders	223
<i>M. Baldy-Moulinier (France)</i>	
Event-related potentials and brain aging	231
<i>C. Sebban (France)</i>	
Quantified EEG: a possible tool for classification of SDAT and prediction of drug effects on cognition	237
<i>E. Salmon and G. Franck (Belgium)</i>	
Positron emission tomographic study in Alzheimer's disease and Pick's disease	41
<i>J.-P. Aquino and J. Poitrenaud (France)</i>	
How to evaluate a drug efficacy at the behavioural level?	249
<b>Author index</b>	255
