

# Contents

-  **Chapter 1** **1**  
**Basic Concepts in Electricity and Contemporary Terminology in Electrotherapy**  
Andrew J. Robinson
-  **Chapter 2** **31**  
**Instrumentation for Electrotherapy**  
Andrew J. Robinson
-  **Chapter 3** **81**  
**Physiology of Muscle and Nerve**  
Andrew J. Robinson
-  **Chapter 4** **121**  
**Electrical Stimulation of Muscle: Techniques and Applications**  
Anthony Delitto, Lynn Snyder-Mackler,  
and Andrew J. Robinson
-  **Chapter 5** **155**  
**Neuromuscular Electrical Stimulation for Control of Posture and Movement**  
Andrew J. Robinson
-  **Chapter 6** **211**  
**Neural Mechanisms of Pain**  
David J. Mayer and Donald D. Price

	<b>Chapter 7</b> <b>Electrical Stimulation for Pain Modulation</b> Lynn Snyder-Mackler	<b>279</b>
	<b>Chapter 8</b> <b>Electrical Stimulation for Tissue Repair</b> Lynn Snyder-Mackler	<b>311</b>
	<b>Chapter 9</b> <b>Iontophoresis</b> Charles D. Ciccone	<b>333</b>
	<b>Chapter 10</b> <b>Clinical Electrophysiologic Assessment</b> Andrew J. Robinson and Robert Kellogg	<b>359</b>
	<b>Chapter 11</b> <b>Electromyographic Biofeedback to Improve Voluntary Motor Control</b> Stuart A. Binder-Macleod	<b>433</b>
	<b>Appendix A</b> <b>Peripheral Neuroanatomy of the Upper and Lower Extremities</b> Andrew J. Robinson	<b>451</b>
	<b>Appendix B</b> <b>Answers to Study Questions</b>	<b>465</b>
	<b>Table and Figure Credits</b>	<b>481</b>
