57	Surfaces	113
58	Perspective Views	114
63	Perspective Views Using ARCTOOLS	121
63	Simple 3D View	121
71	Hypometric Coloring and 3D Masses	123
75	Draping Images and Coordinates	124
78	Perspective Views Using ARCPLOT Commands	124
79	Simple 3D Surface	125
80	Draping Features on a Surface	125
81	<b>Introduction</b>	<b>1</b>
82	Typographical Conventions	2
82	Companion CD-ROM	3
82	File Installation	5
86	CD Files by Chapter	9
88	Variations in Shaded Relief Displaying ArcView	121

## Part I. Image Display

### Chapter 1

93	<b>Grayscale and Color</b>	<b>19</b>
94	Panchromatic Display	21
94	Contrast Enhancements	22
95	Panchromatic Display Using ARC/INFO	24
97	Panchromatic Display Using ArcView	25
99	Grid Display	26
99	Grid Display Using ARCPLOT	26
99	Grid Display Using ArcView GIS Spatial Analyst	30
100	Color Display	36
101	Color Models in ARC/INFO	36
102	Color Image Display Using ARC/INFO	42
106	Color Display Using ArcView	44
107	Image-Based Slide Shows	47
110	Slide Show Using ARCPLOT	48
110	Hot Link in ArcView	50

**Chapter 2**

<b>Surfaces</b>	<b>57</b>
Perspective Views	58
Perspective Views Using ARCTOOLS	63
Simple 3D View	63
Hypsometric Coloring and 3D Views	71
Draping Images and Coverages	75
Perspective Views Using ARCPLLOT Commands	78
Simple 3D Surface	79
Draping Features on a Surface	80
Hypsometric Coloring	81
Shaded Relief	82
Shaded Relief Display Using ARCTOOLS	82
Shaded Relief Display Using ARCPLLOT	85
Shaded Relief Display in ArcView	86
Variations in Shaded Relief Display Using ArcView	88

**Part II. Image Data****Chapter 3**

<b>Scanning</b>	<b>93</b>
Bits and Bytes	94
Color versus Grayscale Scanning	94
Binary Threshold Scanning	95
Scanning Density	97
Computing Scan File Size Requirements	99
Packaging Scanned Images	99
Generic Image Formats	99
Proprietary Image Formats	100
Heads-up Digitizing Using ARCSCAN	101
Simple Raster to Vector Data Conversion	102
Changing the Straightening Properties	106
Changing Raster Line Parameters	107
Arc Editing Environment	110
Using ARCSCAN Utilities with ARCEDIT	110

<b>Chapter 4</b>		216
<b>Remote Sensing</b>		<b>113</b>
Spectral Regions	.....	114
Image Resolution	.....	121
Spatial Resolution	.....	121
Spectral Resolution	.....	123
Temporal Resolution	.....	124
Radiometric Resolution	.....	124
Satellite Imagery	.....	125
Historic Data	.....	125
High Spatial Resolution Satellite Images	.....	125
Quality Control	.....	126
Digital Orthophotographs	.....	128
Displaying Remotely Sensed Images	.....	128
Single-Band	.....	128
Multi-Band Images	.....	132
<b>Part III Unwarping Images</b>		
<b>Chapter 5</b>		
<b>Map Projection and Coordinate Systems</b>		<b>139</b>
Map Projections	.....	139
Commonly Used Map Projections	.....	143
Datums	.....	147
Coordinate Systems	.....	148
Universal Transverse Mercator	.....	149
Universal Polar Stereographic	.....	150
State Plane Coordinate	.....	150
National Map Accuracy Standards	.....	151
Map Projections and Coordinate Systems in ARC/INFO	..	151
Map Projections and Coordinate Systems in ArcView	...	153
<b>Chapter 6</b>		
<b>Image Rectification</b>		<b>157</b>
Affine Transformation	.....	158

	Developing Affine Transformation Models:	
	A Simple Example .....	159
	Image Adjustments By Affine Transformation .....	161
	Unwarping Images in ARC/INFO .....	164
	Transforming Scanned Maps in ARC/INFO .....	171
	Rectifying Images .....	176
	Resampling Options .....	176
	Image Rectification Using ARC/INFO .....	179
	Rectifying Grids Using ArcView .....	181
<b>Part IV. Classifying Images</b>		
<b>Chapter 7</b>		
	<b>Unsupervised Classification</b>	<b>187</b>
	Unsupervised Classification Using ArcView .....	188
	Spectral Clustering .....	189
	Assigning Cover Types to Spectral Classes .....	191
	Unsupervised Classification Using ARC/INFO .....	194
	Single Band versus Multiband Classification .....	194
	Spectral Clustering Using ARC/INFO GRID .....	196
	Mapping Spectral Similarity with Hierarchical Cluster Analysis .....	196
	Assigning Cover Types to Spectral Classes .....	199
<b>Chapter 8</b>		
	<b>Supervised Classification</b>	<b>203</b>
	Training Area Selection .....	204
	Using ARCEDIT to Delineate Training Areas .....	205
	Developing Training Area Statistics .....	206
	Maximum Likelihood Classification .....	208
	Using ARC/INFO GRID .....	211
<b>Chapter 9</b>		
	<b>Accuracy Assessment</b>	<b>215</b>
	Reference Data .....	216

Random Sampling of Individual Image Pixels	216
Using a GIS to Generate an Error Matrix	218
Stratified Random Sampling with ARC/INFO	218
Assigning Reference Data Values Using ARCEDIT	222
Producing an Error Table with ARC/INFO	223
Assigning Reference Data Values Using ArcView	224
Producing An Error Table	
Using ArcView Spatial Analyst	227
Creating an Error Matrix from the Error Table	228
Accuracy Types from the Error Matrix	229

## Part V. Grid Operations and System Integration

### Chapter 10

#### Grid Management, Clipping, and Resampling 233

Management Operations 233

    Describing, Copying, Renaming,  
    and Deleting Grids in ARC/INFO 234

    Describing, Copying, Renaming,  
    and Deleting Grids in ArcView 235

Clipping and Stitching 236

    Clipping in ARC/INFO GRID 236

    Clipping with ArcView Spatial Analyst 237

    Cutting Grids Using a Polygon Coverage  
    in ARC/INFO GRID 240

    Stitching Grids in ARC/INFO GRID 240

    Cutting and Stitching Grids  
    Using a Polygon in ArcView 241

Resampling 241

    Grid Resampling Using ARC/INFO 242

    Grid Resampling Using ArcView 244

### Chapter 11

#### Noise Removal with ARCSAN Tools 247

Removing Speckles 248

Removing Noise Regions 252

ARCSCAN Sketch Tools .....	254
Interactive Image Classification .....	260
<b>Chapter 12</b>	
<b>Filtering and Eliminating Groups of Pixels</b> .....	<b>263</b>
Grid Filtering .....	263
Edge Enhancement .....	264
Filters For Smoothing Grids .....	268
Eliminating Groups of Pixels .....	273
REGIONGROUP and NIBBLE .....	273
GRID .....	275
Spatial Analyst .....	277
<b>Chapter 13</b>	
<b>System Integration</b> .....	<b>279</b>
Automatic Batch Processing .....	280
ARC/INFO Batch Jobs .....	280
ARC/INFO GRID Batch Jobs .....	281
Communication Between ArcView and ARC/INFO .....	282
<b>Index</b> .....	<b>289</b>
Noise Removal with ARCSCAN Tools .....	215
Removing speckles .....	216
Removing Noise Regions .....	216
