Haywood, Kathleen, author.

Life span motor development / Kathleen M. Haywood, Nancy Gatchell. -- Sixth edition.

Includes bibliographical references and index.

Preface vii

Acknowledgments xiii

Credits xv

## PART I Introduction to Motor Development

### 1 Fundamental Concepts 3

Defining Motor Development 4

Constraints: A Model for Studying Motor Development 6

How Do We Know It Is Change? 10

A Developmental Paradox: Universality Versus Variability 14

Summary and Synthesis 15

### 2 Theoretical Perspectives in Motor Development 19

Maturational Perspective 20

Information Processing Perspective 23

Ecological Perspective 24

Summary and Synthesis 29

### 3 Principles of Motion and Stability 33

Understanding the Principles of Motion and Stability 35

Using the Principles of Motion and Stability to Detect  
and Correct Errors 44

Summary and Synthesis 45

## PART II Physical Growth and Aging

### 4 Physical Growth, Maturation, and Aging 51

Prenatal Development 53

Postnatal Development 58

Summary and Synthesis 74

### 5 Development and Aging of Body Systems 77

Development of the Skeletal System 78

Development of the Muscular System 82

Development of the Adipose System 86

Development of the Endocrine System 88

Development of the Nervous System 90

Summary and Synthesis 95

**PART III Development of Motor Skills  
Across the Life Span**

**6 Early Motor Development 101**

- How Do Infants Move? 103
- Why Do Infants Move? The Purpose of Reflexes 110
- Motor Milestones: The Pathway to Voluntary Movements 111
- Development of Postural Control and Balance in Infancy 118
- Summary and Synthesis 119

**7 Development of Human Locomotion 123**

- The First Voluntary Locomotor Efforts: Creeping and Crawling 125
- Walking Across the Life Span 126
- Running Across the Life Span 132
- Other Locomotor Skills 136
- Summary and Synthesis 154

**8 Development of Ballistic Skills 157**

- Overarm Throwing 158
- Kicking 170
- Punting 172
- Sidearm Striking 174
- Overarm Striking 178
- Summary and Synthesis 182

**9 Development of Manipulative Skills 185**

- Grasping and Reaching 186
- Catching 194
- Anticipation 198
- Summary and Synthesis 203

**PART IV Perceptual-Motor Development**

**10 Sensory-Perceptual Development 209**

- Visual Development 211
- Kinesthetic Development 218
- Auditory Development 224
- Intermodal Perception 229
- Summary and Synthesis 232

**11 Perception and Action in Development 235**

- The Role of Action in Perception 236
- Postural Control and Balance 246
- Summary and Synthesis 249

## **PART V Functional Constraints to Motor Development**

- 12 Social and Cultural Constraints in Motor Development 255**  
 Social and Cultural Influences as Environmental Constraints 257  
 Other Sociocultural Constraints: Race, Ethnicity,  
 and Socioeconomic Status 270  
 Summary and Synthesis 271
- 13 Psychosocial Constraints in Motor Development 273**  
 Self-Esteem 275  
 Motivation 280  
 Summary and Synthesis 285
- 14 Knowledge as a Functional Constraint  
 in Motor Development 289**  
 Knowledge Bases 290  
 Memory 295  
 Speed of Cognitive Functions 297  
 Summary and Synthesis 301

## **PART VI Interaction of Exercise Task and Structural Constraints**

- 15 Development of Cardiorespiratory Endurance 305**  
 Physiological Responses to Short-Term Exercise 307  
 Physiological Responses to Prolonged Exercise 309  
 Summary and Synthesis 323
- 16 Development of Strength and Flexibility 325**  
 Development of Strength 326  
 Development of Flexibility 338  
 Summary and Synthesis 343
- 17 Development of Body Composition 345**  
 Body Composition and Exercise in Children and Youths 347  
 Body Composition and Exercise in Adults 353  
 Obesity 355  
 Summary and Synthesis 358
- 18 Conclusion: Interactions Among Constraints 361**  
 Using Constraints to Enhance Learning in Physical Activity Settings 363  
 Interacting Constraints: Case Studies 374  
 Summary and Synthesis 376

Appendix: Skinfold, Body Mass Index, and Head Circumference Charts 379
