

CONTENTS

1. Introduction	7
2. History of Methanol Mass Poisoning Outbreaks	9
3. Overview of Methanol Mass Poisoning Outbreaks in Estonia (2001) and Norway (2002–2004)	13
4. Challenges of Timely Diagnosis and Treatment in Methanol Mass Poisoning Outbreaks	17
5. Experience with Out-of-Hospital Interventions in Methanol Mass Poisoning Outbreaks	21
6. Inhibition of Methanol Oxidation by Antidotes: Ethanol Versus Fomepizole	23
7. Role of Extracorporeal Treatment in Formic Acid and Methanol Elimination	27
8. Other Treatment Modalities: Bicarbonate Buffer, Folate Substitution, and Anticoagulation During Dialysis	31
9. Long-Term Sequelae of Acute Methanol Poisoning	35
9.1 Long-term visual sequelae of methanol-induced toxic optic neuropathy.....	35
9.2 Long term central nervous system sequelae of methanol poisoning.....	38
10. Epidemiology of the Czech Methanol Mass Poisoning Outbreak, Diagnostics of Acute Methanol Poisoning	41
10.1 Description of the Czech methanol mass poisoning outbreak	41
10.2 Epidemiology of the outbreak, clinical features, treatment, and outcomes	44
10.3 Analysis of serum osmolal gap and anion gap in the diagnosis of acute methanol poisoning.....	57
10.4 Serum formate concentration in the diagnosis, treatment, and prognosis of acute methanol poisoning.....	64
11. Out-of-Hospital Ethanol Administration to Improve Outcome in Methanol Mass Poisoning Outbreaks	73
12. Hospital Treatment of Acute Methanol Poisoning with Antidotes: Fomepizole Versus Ethanol	91
12.1 Fluctuations in serum ethanol concentration during the treatment of acute methanol poisoning.....	91
12.2 Experience with fomepizole application in the Czech Republic in 2012.....	102
12.3 Fomepizole versus ethanol: comparison of clinical effectiveness and safety profile of two antidotes	110

13. Intermittent Versus Continuous Veno-Venous Hemodialysis in the Treatment of Acute Methanol Poisoning	127
14. Prospective Study of Long-Term Health Sequelae of Acute Methanol Poisoning.....	141
14.1 Patients and procedures	141
14.2 Prevalence and character of visual damage after acute methanol poisoning...	144
14.3 Optic nerve remyelination and axonal degeneration after acute methanol-induced toxic optic neuropathy	153
14.4 Hemorrhagic and non-hemorrhagic necrotic brain lesions in the survivors of acute methanol poisoning	172
15. Conclusion.....	189
16. References.....	195
17. Abbreviations	217
