Foreword ix

ROI matrix xi

Introduction xiii

Chapter 1 Decision support for budget and finance 1

Enterprise GIS benefits Newark's many departments

Strict quality control with GIS ensures accurate data for Denver

Exercise in decision support: Not letting city services get snowed under

Chapter 2 Defending a decision/reaching a compromise 17

Mulling controversial development in Frederick County

What to fix first in the twenty-first century

Assessing environmental vulnerability of Boston Harbor

Using GIS in tribal negotiations

Exercise in decision support: Defending a decision

Where to build a new fire station

Exercise in decision support: Reaching a compromise

Where to build—or not build—an adult business

Chapter 3 Facilitating public participation in decision making 47

Cleveland advances into the high-technology sector with GIS

Mapping derelict and sunken vessels along the coast of Georgia

Revitalizing Philadelphia's neighborhoods with GIS

Purchasing development rights in Washington County, Wisconsin

Exercise in decision support: GIS technology strengthens residents' case against adding a liquor store

Exercise in decision support: Determining special-district boundaries

Chapter 4 Making decisions under pressure 77

GIS helps Fort Bend County update emergency management

GIS plays a key role in Miami flood mitigation

Rapid mapping analysis helps disaster victims

Exercise in decision support: Increasing immunization rates

Chapter 5 Decision support for allocating resources 93

Denver Fire Department makes facility decisions based on GIS

Pasadena visualizes and manages field-inspection activity

Assessing natural-hazards risks with GIS

Utah uses GIS to map immunization registry data

Exercise in decision support: How can the county clerk prepare for multiple elections in a year?

Chapter 6 Making decisions on the fly 119

Executive dashboards improve situational awareness

County in Iowa finds multiple uses for digital data

GIS streamlines sewerage management

Chapter 7 Supporting policies with GIS 135

GIS helps pick up the pace in laid-back Curry County

GIS for healthy Georgia communities

Enterprise GIS streamlines water-quality assessments

Preserving open space for the Twin Cities

Using GIS to assess preservation legislation in New York

Maintaining downtown curb appeal in Sheridan, Wyoming

A Web-based GIS tool for railroad hazmat routing

Exercise in decision support: How can a community make green decisions?
