
Table of Contents

1	Introduction.....	1
	<i>Atsuyuki Okabe</i>	
2	A Tool for Creating Pseudo-3D Spaces with Hyperphoto: An Application in Ethnographic Studies	19
	<i>Hiroya Tanaka, Masatoshi Arikawa, Ryosuke Shibasaki, and Yuki Konagaya</i>	
3	A Laser-Scanner System for Acquiring Archaeological Data: Case of the Tyre Remains	35
	<i>Ryosuke Shibasaki, Takura Izumi, Hiroya Tanaka, Masafumi Nakagawa, Yosinori Iwamoto, Hidetomo Fujiwara, and Dinesh Manandhar</i>	
4	A Laser-Scanner System for Acquiring Walking-Trajectory Data and Its Possible Application to Behavioral Science.....	55
	<i>Huijing Zhao, Katsuyuki Nakamura, and Ryosuke Shibasaki</i>	
5	A Method for Constructing a Historical Population-Grid Database from Old Maps and Its Applications.....	71
	<i>Yoshio Arai and Shiro Koike</i>	
6	Urban Employment Areas: Defining Japanese Metropolitan Areas and Constructing the Statistical Database for Them.....	85
	<i>Yoshitsugu Kanemoto and Reiji Kurima</i>	
7	Data Modeling of Archaeological Sites Using a Unified Modeling Language	99
	<i>Teruko Usui, Susumu Morimoto, Yoshiyuki Murao and Keiji Shimizu</i>	
8	How to Find Free Software Packages for Spatial Analysis via the Internet	113
	<i>Atsuyuki Okabe, Atsushi Masuyama, and Fumiko Itoh</i>	
9	A Toolbox for Examining the Effect of Infrastructural Features on the Distribution of Spatial Events	127
	<i>Atsuyuki Okabe and Tohru Yoshikawa</i>	
10	A Toolbox for Spatial Analysis on a Network.....	139
	<i>Atsuyuki Okabe, Kei-ichi Okunuki, and Shino Shiode</i>	

11	Estimation of Routes and Building Sites Described in Premodern Travel Accounts Through Spatial Reasoning	153
	<i>Yasushi Asami, Takanori Kimura, Masashi Haneda, and Naoko Fukami</i>	
12	Computer-Simulated Settlements in West Wakasa: Identifying the Ancient Tax Regions — The <i>Go-Ri</i> System	163
	<i>Izumi Niiro</i>	
13	Site-Catchment Analysis of Prehistoric Settlements by Reconstructing Paleoenvironments with GIS	175
	<i>Hiro'omi Tsumura</i>	
14	Migration, Regional Diversity, and Residential Development on the Edge of Greater Cairo — Linking Three Kinds of Data — Census, Household-Survey Data, and Geographical Data — with GIS	191
	<i>Hiroshi Kato, Erina Iwasaki, Ali El-Shazly, and Yutaka Goto</i>	
15	Effect of Environmental Factors on Housing Prices: Application of GIS to Urban-Policy Analysis	211
	<i>Yasushi Asami and Xiaolu Gao</i>	
16	Estimating Urban Agglomeration Economies for Japanese Metropolitan Areas: Is Tokyo Too Large?.....	229
	<i>Yoshitsugu Kanemoto, Toru Kitagawa, Hiroshi Saito, and Etsuro Shioji</i>	
17	Evaluation of School Redistricting by the School Family System.....	243
	<i>Yukio Sadahiro, Takashi Tominaga, and Saiko Sadahiro</i>	
18	A Method for Visualizing the Landscapes of Old-Time Cities Using GIS.....	265
	<i>Eihan Shimizu and Takashi Fuse</i>	
19	Visualization for Site Assessment.....	279
	<i>Hiroyuki Kohsaka and Tomoko Sekine</i>	
20	Visualization of the Mental Image of a City Using GIS	299
	<i>Yukio Sadahiro and Yoshio Igarashi</i>
