

vi Introduction

2 Chapter one

Product research

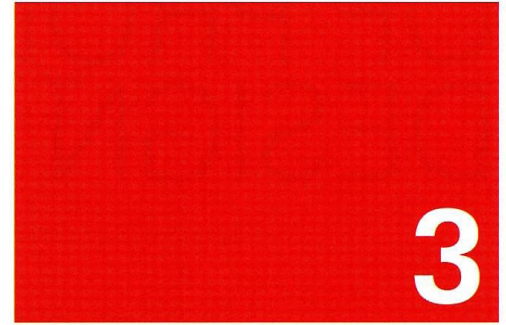

- 5** Designing for people
- 14** Case study: Tord Boontje
- 17** Product requirements
- 22** Case study: Sir Jonathan Ive
- 24** Defining needs
- 32** Case study: Thomas Heatherwick
- 34** Chapter summary and assignments

36 Chapter two

Product concepts

- 38** Generating ideas
- 54** Case study: Wayne Hemingway MBE
- 56** Nurturing ideas
- 66** Case study: Naoto Fukasawa
- 67** Recognizing design trends
- 76** Case study: Luigi Colani
- 78** Chapter summary and assignments

80 Chapter three

Product development

- 82** Concept selection
- 90** Case study: Royal Philips
- 92** Functionality
- 100** Case study: d3O
- 102** Form
- 108** Case study: Matthew White
- 110** Chapter summary and assignments

4

112 Chapter four

Production

- 114** Pre-production
- 126** Case study: Assa Ashuach
- 128** Manufacturing
- 136** Case study: Tom Dixon
- 138** Operations
- 142** Case study: Salter
- 144** Chapter summary and assignments

5

146 Chapter five

Product launch

- 148** Roll out
- 154** Case study: Sir James Dyson
- 156** Sales
- 164** Case study: Vertu
- 166** Chapter summary and assignments

- 168** Conclusion
- 171** Glossary
- 174** Further Resources
- 175** Further Reading
- 177** Index
- 182** Acknowledgments and credits
