Preface	ix		
Acknowledgments	xi		
1. Cyclostomes			
Myxiniiformes	1		
Petromyzontiformes	2		
Petromyzontidae	3		
References	4		
2. Chondrichthyes 1: Sharks			
Chondrichthyes	5		
Elasmobranchs	5		
Chimaeras	7		
Dentitions of Sharks	7		
Galeomorph Sharks	10		
Heterodontiformes	10		
Heterodontidae	10		
Orectolobiformes	11		
Ginglymostomatidae	11		
Hemiscyllidae	11		
Rhincodontidae	11		
Lamniformes	11		
Lamnidae	11		
Alopiidae	12		
Odontaspidae	12		
Mitsukurinidae	13		
Cetorhinidae	14		
Megachasmidae	14		
Carcharhiniformes	14		
Hemigaleidae	15		
Sphyrnidae	15		
Carcharinidae	16		
Scyliorhinidae	16		
Triakidae	18		
Squalean Sharks	18		
Hexanchiformes	18		
Chlamydoselachidae	18		
Hexanchidae	18		
Echinorhiniformes	19		
Echinorhinidae	19		
3. Chondrichthyes 2: Rays and Chimaeras			
Batoidea	29		
Diet and Feeding	29		
Dentitions of Rays	30		
Myliobatiformes	30		
Dasyatidae	30		
Gymnuridae	31		
Myliobatidae	31		
Rajiformes	33		
Rajidae	33		
Rhinobatidae	33		
Pristiformes	35		
Pristidae	35		
Torpediniformes	38		
Torpedinidae	38		
Dentitions of Chimaeras	39		
Chimaeridae	39		
Callorhynchidae	40		
Online Resources	40		
References	41		
Further Reading	41		
4. Osteichthyes			
Classification	43		
Diet	43		
Feeding and Food Processing in Actinopterygii	44		
Oral Jaws	45		
Food Capture	46		
Intraoral Transport and Prey Manipulation	47		

Intrapharyngeal Transport and Prey Processing	48
Tooth Form	49
Tooth Attachment	50
Dentitions of Actinopterygii	54
Cladista	54
<i>Polypteriformes</i>	54
Neopterygii: Holostei	54
<i>Amiiformes</i>	54
<i>Lepisosteiformes</i>	55
Neopterygii: Teleostei	55
Elopomorpha	55
Ostariophys	57
Protacanthopterygii	70
Stomiati	71
Eurypterygia	72
Paracanthomorphacea	72
Euacanthomorphacea	74
Percomorphaceae	74
Gobiaria	74
Pelagiaria	78
Carangaria	78
Ovalentaria	82
Eupercaria	88
Sarcopterygii	105
Coelacanthomorpha (= Actinistia)	105
Dipnotetrapodomorpha	105
Online Resources	107
References	107
Further Reading	111

5. Amphibia

Gymnophiona	114
Rhinatremitidae	115
Ichthyophiidae	115
Scolecomorphidae	115
Herpeliidae	116
Caeciliidae	116
Typhlonectidae	119
Indotyphlidae	119
Siphonopidae	120
Dermophiidae	121
Chikilidae	121
Dentitions of Caecilian Larvae	121
Caudata (Urodela)	123
Cryptobranchioidei	128
Diadectosalamandroidei	128
Anura	137
Teeth of Larval Anurans	138
Dentitions of Adult Anurans	142
Non-Neobatrachian Anurans	144
Neobatrachia	145
Online Resources	150
References	150
Further Reading	152

6. Reptiles 1: Tuatara and Lizards

Reptiles: General	153
Reptilian Skull	153
Teeth of Reptiles	154
Egg Teeth	154
Lizards	155
Snakes	155
Diet and Feeding	155
Rhynchocephalia	157
Lizards	158
Gekkota	162
Carphodactylidae	162
Phyllodactylidae	162
Gekkonidae	162
Eublepharidae	164
Diplodactylidae	165
Pygopodidae	165
Scincoidea	166
Scincidae	166
Xantusiidae	168
Cordylidae	171
Lacertoidea	172
Teiidae	172
Lacertidae	175
Amphisbaenia	177
Rhineuridae	178
Bipedidae	179
Trogonophidae	179
Amphisbaenidae	179
Anguimorpha	181
Xenosauridae	181
Helodermatidae	182
Anguidae	183
Varanidae and Their Relatives	184
Shinisauridae	185
Lanthanotidae	185
Varanidae	186
Iguania	188
Acrodonta	189
Pleurodonta	193
Iguanidae	195
Dactyloidae and Polychrotidae	197
Online Resources	198
References	198
Further Reading	200

7. Reptiles 2: Snakes

Introduction	201
Venom and Fangs	202
Aglyphous Snakes	204
Opisthoglyphous Snakes	204
Proteroglyphous Snakes	204
Solenoglyphous Snakes	205

Snake Dentitions	207	Growth	255
Scolophidia	207	Age-Related Changes of Tooth Form	255
Alethinophidia	209	Compensation for Wear	255
Aniliidae	209	Ontogeny of the Dentition	256
Boidae	210	Tooth Replacement	256
Pythonidae	210	Chondrichthyes	256
Viperidae	211	Rates of Replacement	257
Subfamily Viperinae	212	Osteichthyes	257
Subfamily Crotalinae	213	Development of Replacement Teeth	257
Lamprophiidae	214	Patterns of Replacement	258
Subfamily Lamprophiinae	214	Amphibians	264
Subfamily Atractaspidinae	215	Caecilians	264
Elapidae	216	Urodeles	265
Colubridae	218	Anurans	265
Subfamily Natricinae	218	Reptiles	266
Subfamily Dipsadinae	220	Mode of Tooth Replacement	266
Subfamily Colubrinae	220	Patterns of Tooth Replacement	266
Subfamily Homalopsinae	221	Longitudinal Studies of Replacement	267
References	224	The Zahnreihen Theory	268
Further Reading	224	Ontogeny of the Dentition	269
8. Reptiles 3: Crocodylia		Reptiles	269
Introduction	225	Amphibians	272
Feeding	225	Bony Fish	276
Dentition	225	Sequence of Tooth Initiation	276
Tooth Attachment	226	Loss of Teeth During Growth	278
Crocodylian Dentitions	227	Changes in Tooth Form During Growth	278
Alligatoridae	227	Chondrichthyes	279
Crocodylidae	229	Batoidea	279
Ghavidalidae	232	Selachii	280
Online Resources	233	Molecular Control of Ontogeny of the	
References	233	Dentition and Tooth Replacement	280
9. Tooth Formation		Patterning of the Dentition in Mammals	281
Introduction	235	Patterning of the Dentition in Non-Mammalian	
Tooth Development	235	Vertebrates	282
Tooth Germ Initiation	235	Polyphyodonty Versus Diphyodonty	284
Crown Formation	237	References	285
Tooth Eruption	242	11. Dentine and Dental Pulp	
Tooth Attachment	242	Dentinogenesis	291
Control of Tooth Development	245	Odontoblast Differentiation	291
Tooth Formation in Mice	245	Formation of Dentine	292
Tooth Formation in Non-Mammalian		Mineralization of Dentine	293
Vertebrates	248	Dental Pulp	296
Missing Teeth	249	Organization of Pulp	296
Hen's Teeth	250	Secondary and Tertiary Dentine Formation	297
Oral Tooth Loss in Bony Fish	252	Immune Responses	298
References	252	Tooth Sensitivity	298
10. Tooth Replacement and Ontogeny		Dental Pulp in Non-Mammalian Vertebrates	299
of the Dentition		Orthodontine	300
Introduction	255	Mechanical Properties	300
Functions of Polyphyodonty	255	Mammalian Orthodontine	300
		Incremental Markings	302
		Ivory	303
		Non-Mammalian Orthodontine	304

Osteodentine	305	Actinopterygian Enameloid	315
Vasodentine	306	Cap Enameloid	316
Plicidentine	307	Collar Enameloid and Enamel	321
Hypermineralized Tissues of Tooth Plates	307	Sarcopterygian Enamel	322
Pleromin	308	Amphibian Enameloid and Enamel	323
Petrodentine	308	Iron and Cuticles	323
Online Resources	309	Reptilian Enamel	323
References	309	Evolution of Hypermineralized Tissues	324
12. Enameloid and Enamel		Enamel	326
Composition and Properties	311	Actinopterygian and Urodele Enameloid	326
General Aspects of Formation	311	Chondrichthyan Enameloid	327
Enamel	311	Relationships Between Dentine, Enameloid, and Enamel	327
Enameloid	313	References	328
Chondrichthyan Enameloid	313	Index	331
Structure	313		
Formation	314
