

## Research papers

<i>Romi F. Shamoyan, Olivera R. Mihalčić *</i> : On some extremal problems in Bergman spaces in weakly pseudoconvex domains . . . . .	81
<i>Xiaoyuan Wang, Wenchang Chu</i> : Approach of $q$ -Derivative Operators to Terminating $q$ -Series Formulae . . . . .	97
<i>Abderrahim Zagane, Mustapha Djaa</i> : Geometry of Mus-Sasaki metric . . . . .	111
<i>Gurupadavva Ingalahalli, C.S. Bagewadi</i> : A Study on $\phi$ -recurrence $\tau$ -curvature tensor in $(k, \mu)$ -contact metric manifolds . . . . .	125
<i>Amir Baghban, Esmail Abedi</i> : A new class of almost complex structures on tangent bundle of a Riemannian manifold . . . . .	135
<i>Jana Fialová</i> : A sequence adapted from the movement of the center of mass of two planets in solar system . . . . .	145
<i>Julien Roth</i> : New stability results for spheres and Wulff shapes . . . . .	151
<b>Contents of previous Volumes</b> . . . . .	167
