

Table of Contents Solid-Liquid Interface

Structure of the Solid-Liquid Interface
A. Bonissent 1

Melting and Solidification of Epitaxial Structures and Intergrowth Compounds
P. Bak 23

Microscopic Theory of the Growth of Two-Component Crystals
W. Haubenreisser and H. Pfeiffer 43

Statistics of Surfaces, Steps and Two-Dimensional Nuclei:
A Macroscopic Approach
V. V. Voronkov 75

Surface and Volume Diffusion Controlling Step Movement
J. van der Eerden 113

Author Index Volumes 1-9 145

II. Models of the Crystal-Melt Interface 3

III. Computer Simulations 11

IV. Perturbation Theory 13

V. Conclusion 19

VI. References 20
