

# Contents

<b>1   Elements of the Nervous System</b> .....	2
<b>Information Flow in the Nervous System</b> ..	2
<b>Neurons and Synapses</b> .....	2
Neurons .....	2
Synapses.....	5
<b>Neurotransmitters and Receptors</b> .....	6
<b>Functional Groups of Neurons</b> .....	7
<b>Glial Cells</b> .....	8
<b>2   Somatosensory System</b> .....	10
<b>Peripheral Components of the Somatosensory System and Peripheral Regulatory Circuits</b> .....	10
Receptor Organs.....	10
Peripheral Nerve, Dorsal Root Ganglion, Posterior Root.....	12
Peripheral Regulatory Circuits.....	16
<b>Central Components of the Somatosensory System</b> .....	22
Posterior and Anterior Spinocerebellar Tracts ..	22
Posterior Columns.....	24
Anterior Spinothalamic Tract.....	26
Lateral Spinothalamic Tract .....	27
Other Afferent Tracts of the Spinal Cord.....	29
<b>Central Processing of Somatosensory Information</b> .....	30
<b>Somatosensory Deficits due to Lesions at Specific Sites along the Somatosensory Pathways</b> .....	30
<b>3   Motor System</b> .....	34
<b>Central Components of the Motor System and Clinical Syndromes of Lesions Affecting Them</b> .....	34
Motor Cortical Areas.....	34
Corticospinal Tract (Pyramidal Tract) .....	36
Corticonuclear (Corticobulbar) Tract.....	37
Other Central Components of the Motor System .....	37
Lesions of Central Motor Pathways .....	38
<b>Peripheral Components of the Motor System and Clinical Syndromes of Lesions Affecting Them</b> .....	41
Clinical Syndromes of Motor Unit Lesions....	42
<b>Complex Clinical Syndromes due to Lesions of Specific Components of the Nervous System</b> .....	42
Spinal Cord Syndromes .....	42
Vascular Spinal Cord Syndromes.....	54
Spinal Cord Tumors.....	54
Nerve Root Syndromes (Radicular Syndromes).....	55
Plexus Syndromes .....	60
Peripheral Nerve Syndromes .....	63
Syndromes of the Neuromuscular Junction and Muscle.....	69

<b>4   Brainstem</b> .....	72		
<b>Surface Anatomy of the Brainstem</b> .....	72	Vestibulocochlear Nerve (CN VIII)—Cochlear Component and the Organ of Hearing .....	107
Medulla.....	72	Vestibulocochlear Nerve (CN VIII)—Vestibular Component and Vestibular System.....	113
Pons.....	74	Vagal System (CN IX, X, and the Cranial Portion of XI).....	119
Midbrain.....	74	Hypoglossal Nerve (CN XII) .....	125
<b>Cranial Nerves</b> .....	74	<b>Topographical Anatomy of the Brainstem</b> ..	127
Origin, Components, and Functions.....	74	Internal Structure of the Brainstem.....	127
Olfactory System (CN I) .....	79	<b>Brainstem Disorders</b> .....	137
Visual System (CN II) .....	81	Ischemic Brainstem Syndromes .....	137
Eye Movements (CN III, IV, and VI).....	85		
Trigeminal Nerve (CN V) .....	97		
Facial Nerve (CN VII) and Nervus Intermedius .....	103		
<b>5   Cerebellum</b> .....	150		
<b>Surface Anatomy</b> .....	150	<b>Cerebellar Function and Cerebellar Syndromes</b> .....	156
<b>Internal Structure</b> .....	151	Vestibulocerebellum.....	156
Cerebellar Cortex .....	151	Spinocerebellum .....	158
Cerebellar Nuclei .....	152	Cerebrocerebellum .....	158
Afferent and Efferent Projections of the Cerebellar Cortex and Nuclei .....	153	<b>Cerebellar Disorders</b> .....	159
<b>Connections of the Cerebellum with Other Parts of the Nervous System</b> .....	154	Cerebellar Ischemia and Hemorrhage .....	159
		Cerebellar Tumors .....	160
		Genetic and Metabolic Diseases of the Cerebellum .....	161
<b>6   Diencephalon and Autonomic Nervous System</b> .....	164		
<b>Location and Components of the Diencephalon</b> .....	164	<b>Hypothalamus</b> .....	172
<b>Thalamus</b> .....	166	Location and Components .....	172
Nuclei .....	166	Hypothalamic Nuclei .....	173
Position of the Thalamic Nuclei in Ascending and Descending Pathways.....	167	Afferent and Efferent Projections of the Hypothalamus .....	173
Functions of the Thalamus.....	170	Functions of the Hypothalamus .....	176
Syndromes due to Thalamic Lesions .....	170	<b>Peripheral Autonomic Nervous System</b> ....	182
Thalamic Vascular Syndromes.....	171	Fundamentals.....	182
<b>Epithalamus</b> .....	171	Sympathetic Nervous System.....	184
<b>Subthalamus</b> .....	172	Parasympathetic Nervous System .....	186
Location and Components .....	172	Autonomic Innervation and Functional Disturbances of Individual Organs.....	187
		Visceral and Referred Pain .....	192

<b>7   Limbic System</b> .....	196		
<b>Anatomy</b> .....	196	<b>Functions of the Limbic System</b> .....	200
Internal and External Connections.....	197	Types of Memory.....	201
<b>Major Components of the Limbic System</b> ..	197	Memory Dysfunction—the Amnesic Syndrome and Its Causes.....	203
Hippocampus.....	197		
Microanatomy of the Hippocampal Formation .....	197		
Amygdala.....	199		
<b>8   Basal Ganglia</b> .....	210		
<b>Preliminary Remarks on Terminology</b> .....	210	<b>Function and Dysfunction of the Basal Ganglia</b> .....	215
<b>The Role of the Basal Ganglia in the   Motor System: Phylogenetic Aspects</b> .....	210	Clinical Syndromes of Basal Ganglia Lesions .....	215
<b>Components of the Basal Ganglia and Their   Connections</b> .....	211		
Nuclei .....	211		
Connections of the Basal Ganglia .....	213		
<b>9   Cerebrum</b> .....	224		
<b>Development</b> .....	224	Association Fibers .....	233
<b>Gross Anatomy and Subdivision of   the Cerebrum</b> .....	226	Commissural Fibers .....	234
Gyri and Sulci.....	226	<b>Functional Localization in the Cerebral Cortex</b> .....	235
<b>Histological Organization of the   Cerebral Cortex</b> .....	228	Methods .....	235
Laminar Architecture .....	228	Primary Cortical Fields.....	237
<b>Cerebral White Matter</b> .....	232	Association Areas.....	244
Projection Fibers .....	232	Frontal Lobe.....	245
		Higher Cortical Functions and Their Impairment by Cortical Lesions .....	245
<b>10   Coverings of the Brain and Spinal Cord; Cerebrospinal Fluid and Ventricular System</b> .....	256		
<b>Coverings of the Brain and Spinal Cord</b> .....	256	Structure of the Ventricular System.....	258
Dura Mater.....	256	Cerebrospinal Fluid Circulation and Resorption.....	259
Arachnoid.....	258	Disturbances of Cerebrospinal Fluid Circulation—Hydrocephalus.....	260
Pia Mater .....	258		
<b>Cerebrospinal Fluid and Ventricular   System</b> .....	258		

<b>11   Blood Supply and Vascular Disorders of the Central Nervous System</b> .....	266
<b>Arteries of the Brain</b> .....	266
Extradural Course of the Arteries of the Brain..	266
Arteries of the Anterior and Middle Cranial Fossae .....	268
Arteries of the Posterior Fossa.....	271
Collateral Circulation in the Brain .....	273
<b>Veins of the Brain</b> .....	274
Superficial and Deep Veins of the Brain .....	274
Dural Sinuses .....	275
<b>Blood Supply of the Spinal Cord</b> .....	276
Arterial Anastomotic Network .....	276
Venous Drainage .....	278
<b>Cerebral Ischemia</b> .....	278
Arterial Hypoperfusion .....	278
Particular Cerebrovascular Syndromes.....	290
Impaired Venous Drainage from the Brain ...	296
<b>Intracranial Hemorrhage</b> .....	298
Intracerebral Hemorrhage (Nontraumatic)...	298
Subarachnoid Hemorrhage.....	300
Subdural and Epidural Hematoma.....	304
<b>Vascular Syndromes of the Spinal Cord</b> ....	305
Arterial Hypoperfusion .....	305
Impaired Venous Drainage .....	306
Spinal Cord Hemorrhage and Hematoma ....	307
<b>Bibliography</b> .....	308
<b>Index</b> .....	313
