

CONTENTS

Preface	9
-------------------	---

I. Sport and Age

<i>Hollmann, W.; Liesen, H.; Rost, R.; Dufaux, B.</i> (Köln): Aging, physical performance capacity and trainability.	11
<i>Máček, M.</i> (Prague): Indications for sports in children.	23
<i>Bar-Or, O.</i> (Hamilton): The exercise laboratory in pediatric diagnosis.	30
<i>Frenkl, R.; Mészáros, J.; Mohácsi, J.; Szmodis, I.; Szabó, T.; Fönyedi, G.</i> (Budapest): The anthropometric characteristics of nonathletic and regular training athletic pupils in Hungary.	36
<i>Placheta, Z.</i> (Brno): Development of physical fitness in students with different motor activity.	42
<i>Georgev, N., Shunchev, P.</i> (Sofia): Dynamics of physical development in adolescent athletes	48
<i>Thoren, C.</i> (Stockholm): Sport practice by diseased and handicapped children.	52
<i>Kučera, M.; Brunclíková, Jitka</i> (Prague): Spontaneous physical activity in differential diagnosis of hyperkinetic syndrome in children.	58
<i>Rutenfranz, J.; Limmer, F.; Ilmarinen, J.</i> (Dortmund, Helsinki): Changes in working life and physical activities.	66
<i>Nowacki, P. E.; Hefermann Purelisa,; Tröger, M.</i> (Giesen): Physical and biological performance of trained und untrained women in relation to age.	76

II. Sport and Cardiology

<i>Widimský, J.</i> (Prague): Physical training and coronary artery disease.	85
<i>Komadel, L.</i> (Bratislava): Adaptation of the cardiorespiratory system to exercise.	92
<i>Horák, J.; Bašová, Josefa; Bartáková, Lenka; Čermáková, Irena; Hejna, M.; Hřebíček, J.; Jeschke, J.; Vizinová, Helena; Zelenka, P.</i> (Prague, Jičín, Jihlava, Písek, Šumperk, Plzeň, Olomouc, Sokolov): Circulatory performance and incidence of latent IHD in long distance runners and walkers.	96
<i>Jeschke, J.; Zeman, V.; Kučera, M.; Bočková, Eva; Poláčková, Jana; Holeček, V.</i> (Plzeň): Experience with training camps for patients after myocardial infarction.	101
<i>Vávra, J.; Sova, J.; Radvanský, J.</i> (Prague): An attempt of comprehensive evaluation of patients after myocardial infarction during exercise testing.	106
<i>Pahl, L.; Zott, H. J.; Heine, H.</i> (Berlin): The value of exercise echocardiography for estimation of heart function	110

III. Sport and Endocrinology

<i>Lestradet, H.</i> (Paris): Diabetes, obesity and physical exercise.	113
--	-----

<i>Lindner, W.; Jung, K.</i> (Mainz): Effect of prolonged stress on human protein metabolism with special reference to the immunological system.	120
<i>Novak, L.</i> (Dallas): Total body fluids of collegiate athletes.	125
<i>Thorén, C.</i> (Stockholm): The importance of physical activity and sports for obese children.	130
<i>Vidmar, J.; Franovič, A.</i> (Ljubljana): The possibilities and limits of physical activity of adipose persons.	134
<i>Keiholz, U.; Weicker, H.; Arbogast, D.; Hägele, H.</i> (Heidelberg): The catecholamine response to orthostasis.	137
<i>Tatár, P.; Štrec, V.; Valušková, Hana; Vigaš, M.</i> (Bratislava): The lack of growth response to exercise in hyperlipidemic patients.	145
<i>Šonka, K.; Šonka, J.</i> (Prague): Exercise and β -endorphin in plasma.	150
<i>Golebiowska, Maria; Radszynska, Jolanta</i> (Lodž): Concentration of free aminoacids in plasma and red blood cells in obese children before and after reducing therapy.	153
<i>Schwabeger, G.; Wolf, W.; Passenhofer, H.; Gleispach, H.; Reinprecht, M.; Schmid, P.</i> (Graz): Psycho-emotional stress, physical performance capacity and metabolic disorders using motor car racing as an example.	158
<i>Pařízková Jana; Macková Eva; Macková Jana; Škopková Marie</i> (Prague): Blood lipids, physical fitness, food intake and body composition in preschool children.	163
<i>Rontoyannis, G. P.; Buskirk, E. R.</i> (Pennsylvania): Method for faster blood lactate eliminating rate during muscular exercise.	167
<i>Greiter, F.; Bachl, N.; Prokop, L.; Müller, M.; Kreuzer, W.</i> (Vienna): The influence of solar radiation on β -endorphin, adrenaline, noradrenaline, oxygen uptake and heart rate of men.	172

IV. Sports Injuries

<i>Franke, K.</i> (Berlin): Sports injuries.	179
<i>Orava, S.</i> (Kokkola): Ten-year experience of athletic overuse injuries.	185
<i>Giehl, G.; Langevoort, D. L.; Zeiler, G.</i> (Nürnberg): The treatment of acromioclavicular joint injuries in athletes.	191
<i>Kujala, U.; Kvist, M.</i> (Turku): Knee injuries in an outpatient sports clinic material.	194
<i>Lehto, M.</i> (Turku): Muscle injuries in athletes.	199
<i>Paul, B.</i> (Berlin): Osteochondral lesions of the knee joint after trauma and overloading.	203
<i>Hulkko, A.; Orava, S.; Nikula, P.</i> (Kokkola): Stress fractures in athletes.	206
<i>Michael, J.</i> (Geseke): Stress fractures in athletes, clinical signs and treatment.	208
<i>Pellinen, P.; Hulkko, A.; Orava, S.; Puranen, J.</i> (Oulu, Kokkola): Experience with the treatment of stress fracture of the hallux sesamoids in athletes.	214
<i>Mironova, Zoja; Mironov, S. P.; Merculova, R. I.; Pavlova, M. N.; Arkhipov, S. V.</i> (Moscow): Subacute chronic damage of articular patellar cartilage and femoral condyles in athletes.	216
<i>Seggl, W.; Reschauer, R.; Summers, B.</i> (Graz, Overstry): The surgical management of isolated acute ruptures of the anterior cruciate ligament (ACL).	219
<i>Arndt, K. H.</i> (Erfurt): Re-rupture of Achilles tendon in sports.	223
<i>Behfar, A. S.; Refior, H. J.; Haus, J.</i> (Hannover): Diagnosis and therapy of luxate peroneal tendons.	228

V. Sport, Exercise and Back Pain

<i>Janda, V.</i> (Prague): Sport, exercise and back pain.	231
<i>Blažek, O.; Středa, A.; Čermák, V.; Skallová Olga</i> (Prague): Morphological changes in the spine of sportsmen.	236

<i>Mahlamäki, S.; Michelsson, J. E.; Pekkarinen, Herve, R.</i> (Kuopio, Helsinki): Therapeutic exercises in the prevention of back pain in adolescent cross-country skiers.	240
---	-----

VI. Miscellaneous

<i>Tittel, K.</i> (Leipzig): Functional-anatomical and biomechanical fundamentals for safeguarding the "arthro-muscular balance" in sports.	244
<i>Kvist, M.; Viitasalo, J.</i> (Turku, Jyväskylä): Biomechanical aspects of simple orthrotic devices under the heel and/or forefoot area.	256
<i>Máčková Jiřina; Máček, M.; Javůrek, J.</i> (Prague): Some disturbances of the muscle function in trained and untrained boys.	262
<i>Krejčová Hana; Jeřábek, J.; Bojar, M.; Polechová Pavla, Tutzká Eva; Černý, R.</i> (Prague): Correlation of vestibular changes and sports load.	267
<i>Gavazzi, P.; Mognoni, P.; Rovelli, E.</i> (Milan): Field and laboratory tests in alpine skiing.	272
<i>Kukkonen-Harjula Katriina; Pekka Oja; Nieminen Raija; Vuori Ilkka</i> (Tampere): Physiological strain in prolonged bicycling, rowing, jogging and cross-country skiing mass events.	276
<i>Stouvenel, O.</i> (Joinville le Pont): The French canoe team adaptation to time change carried out in France before the olympics in Los Angeles.	281
<i>Cortilli, G.; Lorenzelli, F.; Ligammari, F.; Mognoni, P.</i> (Milan): Effect of aerobic work on 10's "all out" exercise.	284
<i>Iokl, E.</i> (Lexington): Sudden death of athletes.	287
