 Notes for instructors xiii
 GIS for Homeland Security concept map xxii

Chapter 1 Introduction to GIS and homeland security planning and operations 1

What is GIS? 2
 How does GIS support homeland security planning and operations? 7
 Introduction to ArcGIS components 12
Exercise 1.1 Introducing the ArcGIS interface 13

Chapter 2 Visualizing data for homeland security planning and operations 25

Exercise 2.1 Manipulate map layers in a map document 27
Exercise 2.2 View map layer properties 34
Exercise 2.3 View map layer attribute tables 46
Exercise 2.4 Zoom and pan 52
Exercise 2.5 Create spatial bookmarks 61
Exercise 2.6 Magnifier window 64
Exercise 2.7 Overview window 66
Exercise 2.8 Viewer window 68
Exercise 2.9 Measure distance 70
Exercise 2.10 Identify features 73
Exercise 2.11 Find features 76

Chapter 3 concept map 80

Chapter 3 Compiling data for homeland security planning and operations: Prepare 81

Exercise 3.1 Delineate DHS Urban Area 86
Exercise 3.2 Add boundary data to the MEDS map 101
Exercise 3.3 Add transportation data to the MEDS map 110
Exercise 3.4 Add hydrography data to the MEDS map 135
Exercise 3.5 Add structures data to the MEDS Map 141
Exercise 3.6 Add a raster image layer to the MEDS map 153
Exercise 3.7 Add Land Cover layer to the MEDS map 164
Exercise 3.8 Add a DEM layer to the MEDS map 170
Exercise 3.9 Add Geographic Names to the MEDS map 177
Exercise 3.10 MEDS data management 184

	Chapter 4 concept map	188
Chapter 4	Designing map layouts for homeland security planning and operations: <i>Prevent</i>	189
<i>Exercise 4.1</i>	Prepare scenario map	191
<i>Exercise 4.2</i>	Prepare warning report	197
<i>Exercise 4.3</i>	Build warning map layout	206
<i>Exercise 4.4</i>	GIS outputs	228
	Chapter 5 (5.1–5.3) concept map	232
Chapter 5	Analyzing data for homeland security planning and operations: <i>Protect</i>	233
<i>Exercise 5.1</i>	Prepare protect scenario map 1	236
<i>Exercise 5.2</i>	Locate critical infrastructure	239
<i>Exercise 5.3</i>	Protect critical infrastructure	242
	Chapter 5 (5.4–5.6) concept map	271
<i>Exercise 5.4</i>	Prepare protect scenario map 2	272
<i>Exercise 5.5</i>	Locate impacted population	275
<i>Exercise 5.6</i>	Protect impacted population	285
	Chapter 6 concept map	296
Chapter 6	Analyzing data for homeland security planning and operations: <i>Respond</i>	297
<i>Exercise 6.1</i>	Prepare respond scenario map 1	299
<i>Exercise 6.2</i>	Geocode missing persons	301
<i>Exercise 6.3</i>	Prepare respond scenario map 2	314
<i>Exercise 6.4</i>	Perform respond suitability analysis	329
<i>Exercise 6.5</i>	Create suitability model using ModelBuilder	332
<i>Exercise 6.6</i>	Add the U.S. National Grid	341
	Chapter 7 (7.1) concept map	348
Chapter 7	Analyzing data for homeland security planning and operations: <i>Recover</i>	349
<i>Exercise 7.1</i>	Prepare recover scenario map 1	352
	Chapter 7 (7.2) concept map	383
<i>Exercise 7.2</i>	Prepare recover scenario map 2	384
Appendix A	Data license agreement	405
Appendix B	Installing the data and software	409
Appendix C	Data sources	417
Appendix D	Online resources	421
