- Free text searching, 50
- Thesaurus searching, 51

Chapter 8 Searching healthcare databases, 55

- Finding the evidence: key steps, 55
- Medline, 57
- PubMed, 57
- Ovid Medline, 64
- CINAHL, 68
- Cochrane Library, 73
- Further reading, 80

Chapter 9 Refining search results, 81

- Limits, 81
- Methodological filters, 85
- Clinical Queries, 86
- Sensitivity versus specificity, 87
- Systematic reviews, 89
- Further reading, 90

Chapter 10 Saving citations, 93

- Logbooks, 93
- Reference management software, 94

Chapter 11 Citation pearl searching, 98

- Related items, 98
- Author search, 99
- Keywords, 99
- Journals, 100
- Snowballing, 100
- Alerts, 101
- RSS feeds, 101

**Chapter 12 Quality improvement and value:
sources, 102**

- Examples of quality improvement and value questions, 102
- Current awareness, 102
- Searching for evidence on quality improvement and value, 103
- Other useful sources of information, 105
- Networks, 113
- Further reading, 114

Chapter 13 Patient information: sources, 115

- Shared decision-making, 115
- Poor quality health information, 116
- Good quality health information, 116
- Appraising online consumer health information, 117

CHAPTER 1

- Trusted information sources, 118
- Rarer conditions, 120
- Third-party assistance, 121
- Patient decision aids, 121
- Writing patient information, 122
- Keeping up to date with patient information, 122
- Further reading, 123

Chapter 14 Critical appraisal, 124

- Definition, 124
- Critical appraisal checklists, 124
- Further reading, 125

Chapter 15 Glossary of terms, 126**Appendix 1 Ten tips for effective searching, 135****Appendix 2 Teaching resources, 138****Record your favourite resources, 142****Index, 143**
