

# CONTENTS

Introduction .....	5
<b>PART I Reading and study skills and strategies .....</b>	<b>9</b>
Skills chart .....	10
Unit 1 .....	12
The identifying characteristics of living matter .....	14
Unit 2.....	21
Biochemistry and the living state .....	22
Unit 3 .....	28
The molecular logic of the living state .....	30
Unit 4 .....	36
Unit 5 .....	46
The self-replication of living organisms .....	48
Unit 6 .....	57
Inflammation and repair .....	59
Unit 7 .....	69
Inflammation - the vascular and cellular response to injury .....	70
Section 1 .....	70
Section 2 .....	73
Section 3 .....	80
Unit 8 .....	86
The origins of human genetics .....	88
Unit 9 .....	97
Genetic disorders .....	

Unit 10 .....	118
Genes in action .....	
Unit 11 .....	126
Characteristics of technical and scientific journals .....	126
Unit 12 .....	133
A regimen for low-dose aspirin? .....	134
 PART II Discussion topics .....	151
Health care in Czechoslovakia .....	153
Talking with patients .....	155
On telling dying patients the truth .....	158
The bearing of prognosis on the ethics of medicine .....	162
 PART III Medical terminology in context .....	167
Cardiology and hematology .....	169
Urology and nephrology .....	177
Gastroenterology .....	180
Pulmonary medicine .....	182
Neurology .....	184
Endocrinology .....	187
Immunology .....	189
Stomatology .....	191
 Appendix A Prefixes .....	199
Appendix B Suffixes .....	201
Appendix C Combining forms .....	203
Appendix D Pronunciation of technical terms .....	207
 Key to exercises of Part I .....	214
Glossary .....	233
References .....	243
