PREFACE xi

CONTRIBUTORS xiii

## **PART I: Acute Renal Failure**

---

*Alan S.L. Yu*

- 1. Management of Volume Depletion and Established Acute Renal Failure, 3**  
*Friedrich C. Luft*
- 2. Dopaminergic and Pressor Agents in Acute Renal Failure, 13**  
*Daniel J. Ford, Brett Cullis, and Mark Denton*
- 3. Diuretics in Acute Kidney Injury, 35**  
*Mitra K. Nadim and Alan S.L. Yu*
- 4. Contrast Nephropathy, 41**  
*Brendan J. Barrett and Patrick S. Parfrey*
- 5. Management of Hepatorenal Syndrome, 47**  
*Marie-Noëlle Pépin and Pere Ginès*
- 6. Acute Dialysis Principles and Practice, 58**  
*Roy O. Mathew and Ravindra L. Mehta*
- 7. Continuous Renal Replacement Therapies, 73**  
*Dinna Cruz, Zaccaria Ricci, Sandra Silva, and Claudio Ronco*
- 8. Nutritional Management of Acute Renal Failure, 81**  
*Wilfred Druml and William E. Mitch*
- 9. Experimental Strategies for Acute Kidney Injury, 92**  
*Hye Ryoung Jang, Joseph V. Bonventre, and Hamid Rabb*

## **PART II: Diseases of Glomeruli, Microvasculature, and Tubulointerstitium**

---

*David J. Salant*

- 10. Immunosuppressive Agents for the Therapy of Glomerular and Tubulointerstitial Disease, 105**  
*Alice Sue Appel and Gerald B. Appel*
- 11. Dietary Modulation of the Inflammatory Response, 112**  
*Raffaele De Caterina and Carmine Zoccali*
- 12. Plasmapheresis in Renal Diseases, 125**  
*David Jayne*
- 13. Management of Infection-Associated Glomerulonephritis, 140**  
*Steven J. Chadban and Robert C. Atkins*
- 14. Cryoglobulinemia and Hepatitis C–Associated Membranoproliferative Glomerulonephritis, 151**  
*Giuseppe D'Amico and Alessandro Fornasieri*
- 15. Lupus Nephritis, 157**  
*James E. Balow, Meryl Waldman, and Howard A. Austin III*

- 16. IgA Nephropathy and Henoch-Schönlein Purpura, 172**  
*Jonathan Barratt and John Feehally*
- 17. Systemic Vasculitis and Pauci-Immune Glomerulonephritis, 187**  
*Jeremy B. Levy and Charles D. Pusey*
- 18. Antiglomerular Basement Membrane Antibody Disease, 197**  
*A. Neil Turner and Andrew J. Rees*
- 19. Minimal Change Disease, 205**  
*Laura M. Dember and David J. Salant*
- 20. Focal Segmental Glomerulosclerosis and Collapsing Glomerulopathy, 220**  
*Monique E. Cho and Jeffrey B. Kopp*
- 21. Idiopathic Membranous Nephropathy, 239**  
*Howard A. Austin III*
- 22. Idiopathic Membranoproliferative Glomerulonephritis, 249**  
*Peter Hewins, Richard J.H. Smith, and Caroline O.S. Savage*
- 23. Amyloidosis and Other Fibrillary and Monoclonal Immunoglobulin-Associated Kidney Diseases, 257**  
*Joline L.T. Chen and Laura M. Dember*
- 24. Hepatitis B– and HIV-Related Renal Diseases, 272**  
*Brian D. Raddbill, Christina M. Wyatt, Joseph A. Vassalotti, Mary E. Klotman, and Paul E. Klotman*
- 25. Management of Complications of Nephrotic Syndrome, 281**  
*Yvonne M. O'Meara and Jerrold S. Levine*
- 26. Thrombotic Microangiopathies, 294**  
*Piero Ruggenenti, Marina Noris, and Giuseppe Remuzzi*
- 27. Treatment of Acute Interstitial Nephritis, 313**  
*James P. Smith and Eric G. Neilson*

## **PART III: Diabetic Nephropathy**

---

*Tomas Berl*

- 28. Therapy for Diabetic Nephropathy, 323**  
*William L. Whittier, Julia B. Lewis, and Edmund J. Lewis*

## **PART IV: Disorders of Fluid, Electrolyte, and Acid-Base Homeostasis**

---

*Tomas Berl*

- 29. Therapy of Dysnatremic Disorders, 337**  
*Joshua M. Thurman and Tomas Berl*
- 30. Treatment of Hypokalemia and Hyperkalemia, 353**  
*Kamel S. Kamel, Man S. Oh, Shih-Hua Lin, and Mitchell L. Halperin*

- 31. Metabolic and Respiratory Acidosis, 368**  
*Thomas D. DuBose, Jr.*
- 32. Treatment of Metabolic and Respiratory Alkalosis, 381**  
*Biff F. Palmer*
- 33. Diuretic Use in Edema and the Problem of Resistance, 388**  
*David H. Ellison and Christopher S. Wilcox*
- 34. Hypercalcemia, Hypocalcemia, and Other Divalent Cation Disorders, 412**  
*Pouneh Nouri and Francisco Llach*

### **PART V: Nephrolithiasis**

---

*Alan Yu*

- 35. Evaluation and Management of Kidney Stone Disease, 429**  
*Eric N. Taylor and Gary C. Curhan*
- 36. Nephrolithiasis: Lithotripsy and Surgery, 437**  
*John M. Fitzpatrick*

### **PART VI: Genitourinary Infections, Malignancy, and Obstruction**

---

*Jonathan Himmelfarb*

- 37. Therapy of Urinary Tract Infection, 447**  
*Nina E. Tolckoff-Rubin and Robert H. Rubin*
- 38. Primary Neoplasms of the Kidney, 455**  
*Marc B. Garnick*
- 39. Myeloma and Secondary Involvement of the Kidney in Dysproteinemias, 461**  
*Paul W. Sanders*
- 40. Obstructive Uropathy, 469**  
*Christopher J. Cutie and W. Scott McDougal*

### **PART VII: Renal Disease and Pregnancy**

---

*Barbara Murphy*

- 41. Hypertension in Pregnancy, 479**  
*Mounira Habli and Baha M. Sibai*
- 42. Renal Disease in Pregnancy, 486**  
*Mounira Habli and Baha M. Sibai*

### **Part VIII: Pediatric Nephrology**

---

*Barbara Murphy*

- 43. Management of Pediatric Kidney Disease, 497**  
*Nancy M. Rodig and Michael J.G. Somers*
- 44. Management of End-Stage Renal Disease in Childhood and Adolescence, 522**  
*Joana E. Kist-van Holthe, David M. Briscoe, and Vikas R. Dharnidharka*

### **PART IX: Inherited Renal Disease**

---

*Alan S.L. Yu*

- 45. Renal Cystic Disorders, 539**  
*Arlene B. Chapman and Frederic F. Rahbari-Oskoui*
- 46. Noncystic Hereditary Diseases of the Kidney, 547**  
*Russell W. Chesney*

- 47. Prospects for Gene Therapy, 557**  
*Enyu Imai, Yoshitaka Isaka, and Yoshitsugu Takabatake*

### **PART X: Management of Essential Hypertension**

---

*Christopher S. Wilcox*

- 48. Decisions for Management of High Blood Pressure: A Perspective, 567**  
*Lawrence R. Krakoff*
- 49. Nonpharmacologic Treatment, 575**  
*Paul R. Conlin*
- 50. Dietary Salt Reduction, 583**  
*Francesco P. Cappuccio*
- 51. Diuretics and  $\beta$ -Blockers, 591**  
*Andrew Hall, Hamish Dobbie, Giovambattista Capasso, and Robert Unwin*
- 52. ACE Inhibitors, Angiotensin Receptor Blockers, Mineralocorticoid Receptor Antagonists, and Renin Antagonists, 601**  
*Norman K. Hollenberg*
- 53. Calcium Channel Blockers, 610**  
*Douglas G. Shemin and Lance D. Dworkin*
- 54. Individualization of Pharmacologic Therapy, 620**  
*Norman M. Kaplan*
- 55. Hypertensive Emergencies, 624**  
*Samuel J. Mann*
- 56. Management of Associated Cardiovascular Risk in Essential Hypertension, 635**  
*Vasilios Papademetriou*

### **PART XI: Management of Secondary Hypertension**

---

*Christopher S. Wilcox*

- 57. Medical Management of Patients with Renal Artery Stenosis, 647**  
*Lance W. Dworkin and Christopher S. Wilcox*
- 58. Renovascular Hypertension and Ischemic Nephropathy: Angioplasty and Stenting, 660**  
*Stephen C. Textor and Michael McKusick*
- 59. Hypertension in Renal Transplant Recipients, 675**  
*John J. Curtis and Robert S. Gaston*
- 60. Management of Hypertension in Patients Receiving Dialysis, 680**  
*Pouneh Nouri and Christopher S. Wilcox*
- 61. Adrenal Disorders, 691**  
*Emmanuel L. Bravo*

### **PART XII: Chronic Renal Failure and Its Systemic Manifestations**

---

*William E. Mitch*

- 62. Prevention of Progressive Renal Failure, 699**  
*Maarten W. Taal*
- 63. Cholesterol Management in Patients with Chronic Kidney Disease, 715**  
*Robert Toto, Gloria Lena Vega, and Scott M. Grundy*
- 64. Hyperhomocysteinemia, 725**  
*Joyce M. Gonin and Christopher S. Wilcox*
- 65. Antioxidant Therapy in Chronic Kidney Disease, 731**  
*Shakil Aslam*

- 66. Nutritional Therapy of Patients with Chronic Kidney Disease and Its Impact on Progressive Renal Insufficiency, 736**  
*Tahsin Masud and William E. Mitch*
- 67. Iron and Erythropoietin-Related Therapies, 749**  
*Steven Fishbane*
- 68. Treatment of Anemia and Bleeding in Chronic Kidney Disease, 756**  
*Giuseppe Remuzzi, Luigi Minetti, and Arrigo Schieppati*
- 69. Calcium, Phosphorus, Renal Bone Disease, and Calciphylaxis, 765**  
*Rizwan A. Qazi and Kevin J. Martin*
- 70. Cardiovascular Complications of End-Stage Renal Disease, 773**  
*Eberhard Ritz and Christoph Wanner*
- 71. Treatment of Erectile Dysfunction in Chronic Kidney Disease, 783**  
*Aaron C. Lentz, Manish P. Patel, J. Eric Derksen, and Culley C. Carson III*
- 72. Treatment of Sleep Disorders in Patients with Renal Dysfunction, 791**  
*Suraj Kapa, Elizabeth H. Nora, Eddie L. Greene, and Virend K. Somers*
- 73. Neuropsychiatric Complications and Psychopharmacology of End-Stage Renal Disease, 795**  
*Adam M. Mirot, Edward G. Tessier, Michael J. Germain, and Lewis M. Cohen*
- 74. Measures to Improve Quality of Life in End-Stage Renal Disease Patients, 818**  
*Catherine Blake and William D. Plant*
- 75. Palliative and Supportive Care, 828**  
*Sara N. Davison, Lewis M. Cohen, and Michael J. Germain*
- 76. Health Economics of End-Stage Renal Disease Treatment, 836**  
*Robert J. Rubin*

### **PART XIII: Maintenance Dialysis**

---

*Jonathan Himmelfarb*

- 77. Technical Aspects of Hemodialysis, 845**  
*Bryan N. Becker and Gerald Schulman*
- 78. Choice and Maintenance of the Vascular Access, 859**  
*Bradley S. Dixon*
- 79. Hemodialysis Adequacy, 875**  
*Jane Y. Yeun and Thomas A. Depner*
- 80. Complications Associated with Hemodialysis, 894**  
*Ravinder K. Wali, Jay R. Kaluvapalle, and Alfred K. Cheung*
- 81. Techniques in Peritoneal Dialysis, 913**  
*John Burkart*

- 82. Complications of Peritoneal Dialysis, 924**  
*John D. Williams and Simon J. Davies*
- 83. Adequacy of Peritoneal Dialysis, 935**  
*Peter G. Blake*
- 84. Patient Selection for Dialysis and the Decision to Withhold or Withdraw Dialysis, 946**  
*Alvin H. Moss*

### **PART XIV: Transplantation**

---

*Barbara Murphy*

- 85. Evaluation of the Kidney Transplant Recipient and Living Kidney Donor, 957**  
*Connie L. Davis*
- 86. Technical Aspects of Renal Transplantation and Surgical Complications, 970**  
*Susan M. Lerner and Jonathan Bromberg*
- 87. Transplant Immunology and Immunosuppression, 976**  
*Bernd Schröppel and Enver Akalin*
- 88. Diagnosis and Management of Renal Allograft Dysfunction, 994**  
*John P. Vella and Mohamed H. Sayegh*
- 89. Cardiovascular and Other Noninfectious Complications after Renal Transplantation in Adults, 1009**  
*William E. Braun*
- 90. Prevention and Treatment of Infection in Kidney Transplant Recipients, 1034**  
*Karen D. Sims and Emily A. Blumberg*

### **PART XV: Drugs and the Kidney**

---

*Christopher S. Wilcox*

- 91. Drug Dosing in Renal Failure, 1049**  
*D. Craig Brater*
- 92. Dialysis and Hemoperfusion in the Treatment of Poisoning and Drug Overdose, 1073**  
*Nikolas B. Harbord, Zachary Z. Brener, Donald A. Feinfeld, and James F. Winchester*

### **PART XVI: Use of the Internet**

---

*William E. Mitch*

- 93. Internet Resources for Nephrologists, 1083**  
*Stephen Z. Fadem*

INDEX 1093
