Rat

Rat

Rattus norvegicus
f. domestica

228	Skeleton	14	283	Right shoulder and arm; view of the medial surface	69
229	Superficial muscles of the body; cutaneous muscles removed	15	284	Skeletotopia of the arteries of the proximal end of the right thoracic limb; view of the medial surface	70
230	View of viscera showing the right side	16	285	The right forearm, view of the medial surface	71
231	View of viscera showing the left side	17	286	Left forearm and distal end of the limb; view of the lateral surface and diagram of the veins, showing the dorsal surface	72
232	Skeleton of the head from the lateral side	18	287	Muscles, veins and nerves of the distal end of the left thoracic limb; view of the dorsal surface	73
233	Mandible; view of the lateral and medial surfaces	19	288	Distal end of the right thoracic limb; view of the palmar surface	74
234	Skeleton of the head; dorsal surface	20	289	Muscles of the distal end of the right thoracic limb; view of the palmar surface, deep layer	75
235	Skeleton of the head; ventral surface	21	290	Skeleton of the distal end of the right thoracic limb; view of the dorsal surface and the third digit with the metacarpal bone, side view	76
236	Median section of the skeleton of the head	22	291	Skeleton of the distal end of the thoracic limb; view of the palmar and articular surfaces of the bones of the forearm	77
237	Base of the skull with the cerebral nerves and arteries; dorsal view	23	292	Skeletotopia of the arteries of the distal end of the left thoracic limb; view of the dorsal and palmar surfaces	78
238	Chondrocranium and early osteocranium on the right side; dorsal view	24	293	Skeleton of pelvis; view of the lateral surface of the left pelvic bone with the sacrum and medial surface of the right pelvic bone	79
239	The muscles of the head; lateral view, superficial layer	25	294	Skeleton of the pelvis; dorsal view with the sacrum and without the sacrum	80
240	Skeletotopia of the arteries of the head	26	295 A	Topography of the male pelvic organs from the left side	81
241	Skeletotopia of the veins of the head	27	295 B	<i>M. bulbospongiosus</i> and <i>m. levator ani</i> of the male; view of the ventrocaudal surface	82
242	Head; view of the right side	28	296	Topography of female pelvic organs; 11-day-old pregnancy	83
243	Chewing muscles; superficial and deep layers, view of the lateral surface	29	297	Genital organs of the male <i>in toto</i> , showing the surface; dorsal view of the urinary bladder and ventral prostate, and a detail of the genital glands, showing the dorsal surface	84
244	Median section through the head	30	298	Female genital organs; view of the ventral surface, and details	85
245	Hard palate and teeth	31	299	Skeleton of the right pelvic limb; view of the medial surface	86
246	Pharynx and the tongue viewed from above	32	300	Muscles of the right pelvic limb; view of the medial surface	87
247	Cerebral base with emerging nerves and arteries	33	301	Skeleton of the proximal end of the right pelvic limb; view of the medial plane and details of bones	88
248	The brain; view of the dorsal surface	34	302	Right part of pelvis and thigh of the male; view of the medial surface	89
249	Horizontal section through the brain; dorsal view of the base of the lateral ventricle and brain stem	35	303	Muscles of the pelvis and thigh; view of the lateral surface, superficial layer	90
250	Median section through the brain	36	304	The pelvic muscles and the thigh; view of the lateral surface, deep layer	91
251	Cervical spine from the left side and isolated vertebrae	37	305	Skeletotopia of the pelvic arteries and the right thigh; view of the medial surface	92
252	The deep muscles of the neck and chest from the lateral side; the larynx and the trachea, view of the ventral surface	38	306	Lateral surface of the tibia and the muscles of the distal end of the left limb; view of the dorsolateral surface	93
253	Neck; ventral view	39	307	Medial surface of the right tibia and the medioplantar surface of the distal end of the limb	94
254	Skeleton of the chest, the left side and the sternum; dorsal surface	40	308	Skeletotopia of arteries of the distal end of the right pelvic limb; view of the medial surface	95
255	Thoracic spine from the left side and isolated thoracic vertebrae	41	309	Skeleton of the distal part of the pelvic limb, talus, calcaneus, view of the dorsal surface; and os metatarsale V, from the medial side	96
256	Pelvic spine from the left side and isolated vertebrae	42	310	Skeleton of the distal part of the right pelvic limb, talus, calcaneus, view of the plantar surface; and os metatarsale III, view of the lateral surface	97
257	Muscles of a male trunk; deep layer after removal of the thoracic limbs, view from the left side	43	311	Muscles and veins of the distal end of the left pelvic limb; view of the dorsal surface	98
258	Caudal part of the neck, chest, shoulder and arm from the left; superficial layer	44	312	Muscles and nerves of the distal end of the left pelvic limb; view of the dorsal surface	99
259	Neck and chest; view of the ventral surface	45	313	Distal end of the right pelvic limb; view of the plantar surface, superficial layer	100
260	Viscera of the thoracic cavity from the right side	46	314	Muscles of the distal extremity of the right pelvic limb; view of the plantar surface, median and deep layers	101
261	Viscera of the thoracic cavity from the left side	47	315	Nerves of the distal end of the right pelvic limb; view of the plantar surface	102
262	Arteries of the thoracic cavity; view of the left side	48	316	Skeletotopia of arteries of the end of the right pelvic limb, view of the plantar surface; and the left pelvic limb, view of the dorsal surface	103
263	Veins of the thoracic cavity; view of the right side	49	317	Mammary gland; view of the lateral and ventral surfaces	104
264	Lung from the right and left sides	50			
265	Left and right lung; view of the mediastinal surface	51			
266	The lungs and heart; view of the diaphragmatic surface	52			
267	The heart; view of the right and left surfaces	53			
268	Section through the left half of the heart	54			
269	Male abdominal organs; view of the ventral surface with testes in the scrotal position	55			
270	Male abdominal organs; view of the ventral surface with testes in the abdominal position	56			
271	Viscera of the abdominal cavity after removal of the alimentary tract	57			
272	Diaphragm; caudal surface, dorsal surface at top	58			
273	Stomach; view of the visceral surface and a section	59			
274	Liver; view of the visceral and diaphragmatic surfaces	60			
275	Syntopy of organs on the diaphragm; caudal view, dorsal surface at top	61			
276	Diagram of the intestinal tract; view of the right side	62			
277	Kidneys; view of the ventral surface and a section of the kidney	63			
278	Skeleton of the right thoracic limb; view of the medial surface, scapula and the distal epiphysis of the humerus, frontal view	64			
279	Muscles of the left thoracic limb; view of the lateral surface	65			
280	Muscles of the right thoracic limb; view of the medial surface	66			
281	Skeleton of the proximal end of the left thoracic limb; view of the lateral surface and details of bones	67			
282	Left shoulder and arm; view of the lateral surface	68			

Mus

Mouse

Mus musculus
domesticus f. *domestica*

318	Skeleton	108	349	Lungs; view of the left and right surfaces.	138
319	Superficial muscles of the body, cutaneous muscles removed	109	350	Left and right parts of the lungs; view of the mediastinal surface	139
320	Viscera of the thoracic and abdominal cavities of the male; view from the right side	110	351	Lung and heart; view of the diaphragmatic surface.	140
321	Viscera of the thoracic and abdominal cavities of the male; view from the left side	111	352	Heart; view of the left and right surfaces	141
322	Viscera of the thoracic and abdominal cavities of the female; view from the right side	112	353	Abdominal viscera of the male; ventral view	142
323	Viscera of the thoracic and abdominal cavities of the female; view from the left side	113	354	Abdominal viscera of the female; ventral view	143
324	Skeleton of the head; view from the left side	114	355	Viscera on the dorsal wall of the abdominal cavity of the female; ventral view	144
325	Mandible; view of the lateral and medial surfaces	115	356	Stomach; view of the cranial surface and a longitudinal section from the caudal side.	145
326	Median section through the skeleton of the head	116	357	Intestine; view from the right side	146
327	Skeleton of the head; view of the dorsal surface	117	358	Liver; view from the diaphragmatic surface and the visceral surface <i>in situ</i> , with extended lobes	147
328	Skeleton of the head; view of the ventral surface	118	359	Syntopy of viscera on the caudal surface of the diaphragm	148
329	Head; view of the lateral surface, superficial layer	119	360	Kidneys of the male; view of the ventral surface and a longitudinal section through the left kidney	149
330	Head; view of the lateral surface, deep layer	120	361	Viscera of the thoracic and abdominal cavities of the gravid female; view from the right side	150
331	Skeletotopia of the arteries of head; view of the lateral surface	121	362	Viscera of the thoracic and abdominal cavities of the gravid female; view from the left side	151
332	Masseter muscles and ocular plexus ophthalmicus; view of the lateral surface	122	363	Abdominal viscera of the gravid female; view of the ventral side	152
333	Median section through the head	123	364	Skeleton of the left thoracic limb, view of the lateral surface and the right thoracic limb, view of the medial surface, the distal part of the humerus, showing the dorsal and caudal surfaces, and diagram of the carpal bones	153
334	Hard palate and teeth	124	365	Medial surface of the proximal end of the right thoracic limb	154
335	Dorsal view of the pharyngeal cavity and the root of the tongue and the omohyoideus, viewed rostrally	125	366	Lateral surface of the proximal end of the left thoracic limb	155
336	Pharynx and part of the trachea; view of the ventral surface, the pharyngeal muscles and the thyroid gland from the left side	125	367	Pelvic bone, view of the lateral and medial surfaces; the sacrum, view of the dorsal and ventral surfaces	156
337	Brain with the superficial veins and nerves; view of the dorsal and ventral surfaces	126	368	Organs of the male pelvic cavity; view of the left side	157
338	Cerebral base with arteries and nerves; view of the ventral surface	127	369	Female pelvic organs; view from the left side	158
339	Horizontal section through the brain; dorsal view of the base of the lateral ventricle and the cerebral stem	128	370	Male genital organs; view of the ventral and dorsal surfaces	159
340	Some cervical, thoracic, pelvic and caudate vertebrae, viewed from different perspectives, and the sternum	129	371	Female genital organs; view of the ventral surface	160
341	Muscles of the trunk with and without the thoracic limb; viewed from the left.	130	372	Skeleton of the left pelvic limb from the lateral and medial sides; the proximal end of the femur from the medial and lateral sides; and the dorsal view of ossa tarsi	161
342	Neck and chest; view of the ventral surface	131	373	Proximal end of the left pelvic limb; view of the lateral surface	162
343	Viscera at the thoracic inlet and the root of the lung; view of the ventral surface	132	374	Proximal end of the right pelvic limb; view of the medial surface	163
344	Viscera at the thoracic inlet and around the root of the lungs; view of the dorsal surface	133	375	Superficial lymph nodes of the body and lymph nodes of the thoracic cavity	164
345	Viscera of the thoracic cavity; view from the right side	134	376	Lymph nodes of the organs of the abdominal cavity	165
346	Viscera of the thoracic cavity; view from the left side	135	377	Mammary gland; view of the lateral and ventral surfaces	166
347	Skeletotopia of the branches of the thoracic aorta; view from the left	136			
348	Skeletotopia of the large thoracic veins; view from the right.	137			

Mes

Golden Hamster

Mesocricetus auratus
f. domestica

378	Skeleton	170	416	Longitudinal section through the left atrium and left ventricle of the heart and detail of the ostium of the aorta; view from the side of the left ventricle	208
379	Cutaneous muscles, superficial and deep layers	171	417	Abdominal male viscera; ventral surface	209
380	Superficial muscles of the body from the lateral side (cutaneous muscles removed).	172	418	Abdominal female viscera; ventral surface	210
381	Viscera of the male; view from the right side.	173	419	Viscera of abdominal cavity after removal of the alimentary tract	211
382	Viscera of the male; view from the left side	174	420	Intestinal tract; view from the right side	212
383	Viscera of the female; view from the right side.	175	421	Stomach; view of the diaphragmatic surface and longitudinal section through the stomach from the caudal side	213
384	Viscera of the female; view from the left side	176	422	Liver; the diaphragmatic and distal surfaces and the distal surface with the lobes separated.	214
385	Skeleton of the head; view of the lateral surface	177	423	Syntopy of organs at the caudal diaphragmatic surface; caudal view	215
386	Mandible, view of the lateral and medial surfaces; and the hyoideum, view of the dorsal surface.	178	424	Kidneys; view of the ventral surface	216
387	Median section through the head	179	425	Abdominal viscera of gravid female; view from the right side	217
388	Skeleton of the head; view of the dorsal surface	180	426	Abdominal viscera of gravid female; view from the left side.	218
389	Skeleton of the head; ventral surface	181	427	Abdominal viscera of gravid female; view of the ventral surface.	219
390	Tympanic and petrous parts of the temporal bone; view of the left lateral and right medial surfaces	182	428	Skeleton of the left thoracic limb; lateral surface and details of bones	220
391	Chondrocranium of 14-day-old foetus; dorsal surface	183	429	Skeleton of the right thoracic limb; view from the medial side and details of bones	221
392	Superficial muscles of the head and the open paraoral sac; lateral surface.	184	430	Lateral surface of the thoracic limb; superficial layer	222
393	Mastication muscles; view of the lateral surface and the veins of the head.	185	431	Medial surface of the right thoracic limb	223
394	Head; view of the lateral surface	186	432	Skeletotopia of the arteries of the right thoracic limb; medial surface and the distal end of the limb	224
395	Skeletotopia of the arteries of the head; lateral surface.	187	433	Skeleton of pelvis, dorsal view; left pelvic bone, the lateral surface and the right side of the medial surface.	225
396	Median section through the head	188	434	Topography of the male pelvic organs	226
397	Hard palate and the upper teeth	189	435	Topography of the female pelvic organs	227
398	Dorsal view of the oesophageal cavity, root of the tongue and the tongue; larynx and part of the trachea, view of the left surface, and the basihyoideum, dorsal side	190	436	Male genital organs; ventral surface and details	228
399	Brain; dorsal and ventral surfaces	191	437	Female genital organs; ventral surface and diagram of the transverse sections of the urethra	229
400	Base of the brain with arteries and nerves	192	438	Skeleton of the left pelvic limb; medial surface and details of bones	230
401	Horizontal section through the brain; dorsal view of the base of the lateral ventricle and brain stem.	193	439	Skeleton of the right pelvic limb; medial surface and details of bones	231
402	Bones of the axial skeleton	194	440	Lateral surface of the left pelvic limb; superficial layer	232
403	Muscles of the trunk; middle layer	195	441	Lateral surface of the left pelvic limb; deep layer	233
404	Muscles of the trunk, thoracic limb removed; deep layer.	196	442	Medial surface of the right pelvic limb	234
405	Neck and chest; ventral surface	197	443	Skeletotopia of the pelvic arteries and the right pelvic limb	235
406	Viscera of the thoracic cavity; left side	198	444	Mammary glands; ventral surface and the superficial lymph nodes of the body	236
407	Thoracic cavity; view of the right side	199	445	Lymph nodes of the thoracic cavity, view from the right side; and lymph nodes on the dorsal wall of the abdominal cavity, ventral view	237
408	Thoracic cavity; view of the left side	200	446	Lymph nodes of the liver and the intestines	238
409	Skeletotopia of the branches of the thoracic aorta; view of the left side	201			
410	Skeletotopia of the great thoracic veins; view of the right side.	202			
411	Right lung; view of the lateral and mediastinal surfaces	203			
412	Left lung; view of the lateral and mediastinal surfaces	204			
413	Lungs and heart; view of the diaphragmatic surface	205			
414	Heart; view of the left and right surfaces	206			
415	Right cardiac ventricle and right auricle, and detail of the caudal wall of the right ventricle	207
