

Contents

Introduction	3
1 Analytic geometry	4
1.1 Planar analytic geometry	4
1.2 Spatial analytic geometry	6
2 Technical isometry	10
3 Planar kinematic geometry	18
3.1 Motion given by trajectories and envelopes	18
3.2 Cyclic motion	31
4 Surfaces of revolution	46
4.1 Intersection of surfaces of revolution	56
5 Helicoidal surfaces	64
5.1 Helix	64
5.2 Helicoidal surfaces	68
6 Developable surfaces	74
6.1 Transition developable surfaces	82
