III. Urinary Bladder	99	84	XI. Vertebral and Visceral Innervation	84
IV. Urethra	103	84	XII. Conduction Delay	48
V. Micturition Reflex	103	84	XIII. Neural Regulation of the Heart	48
VI. Radiology	103	84	XIV. Clinical Consideration	33
<b>13 Suprarenal (Adrenal) Glands</b>		108	XV. Cross-Sectional Anatomy	33
20 I. General Features	108	108	XVI. Aqueous Wall	33
II. Adrenal Cortex	108	108	I. Aqueous Region	33
III. Adrenal Medulla	110	108	II. Clinical Features	33
IV. Radiology	111	108	III. Surgical Region	26
<b>14 Female Reproductive System</b>		112	IV. Summary	26
<b>Preface</b>		v		
<b>1 The Vertebral Column</b>		1		
I. The Vertebral Column	1	1		
II. Radiology	5	1		
<b>2 Spinal Cord and Spinal Nerves</b>		13		
I. Structure of the Spinal Cord	13	13		
II. Vascular Supply of the Spinal Cord	14	13		
III. The Spinal Nerve	15	13		
IV. Dermatomes	16	13		
V. Major Tracts of the Spinal Cord	16	13		
VI. Clinical Considerations	16	13		
VII. Clinical Procedures	19	13		
VIII. Radiology	22	13		
<b>3 Chest Wall</b>		23		
I. Breast	23	23		
II. Anterior Chest Wall	26	23		
III. Lateral Chest Wall	28	23		
IV. Posterior Chest Wall	29	23		
V. Mediastinum	31	23		
VI. Radiology	31	23		
<b>4 Pleura, Tracheobronchial Tree, and Lungs</b>		34		
I. Pleura	34	34		
II. Tracheobronchial Tree	35	34		
III. Lungs	41	34		
<b>5 Heart</b>		44		
I. The Pericardium	44	44		
II. Surfaces of the Heart	45	44		
III. Borders of the Heart	45	44		
IV. Blood Supply	47	44		
V. Venous Drainage	47	44		

VI.	Valves and Auscultation Sites	48
VII.	Conduction System	48
VIII.	Neural Regulation of the Heart	49
IX.	Clinical Considerations	49
X.	Cross-Sectional Anatomy	52
<b>6</b>	<b>Abdominal Wall</b>	<b>56</b>
I.	Abdominal Regions	56
II.	Clinical Procedure	56
III.	Inguinal Region	56
IV.	Scrotum	58
<b>7</b>	<b>Peritoneal Cavity</b>	<b>61</b>
I.	Peritoneal Cavity	61
II.	Omentum	61
III.	Intraperitoneal and Extraperitoneal Viscera	62
<b>8</b>	<b>Abdominal Vasculature</b>	<b>63</b>
I.	Abdominal Aorta	000
II.	Venous Drainage of the Abdomen	000
III.	Hepatic Portal System	000
<b>9</b>	<b>Abdominal Viscera</b>	<b>67</b>
I.	Esophagus	63
II.	Stomach	63
III.	Duodenum	66
IV.	Jejunum, Ileum, and Large Intestine	70
V.	Gallbladder, Extrahepatic Biliary Ducts, and Bile	71
VI.	Liver	73
VII.	Pancreas	75
VIII.	Cross-Sectional Anatomy	75
IX.	Radiology	75
<b>10</b>	<b>Sigmoid Colon, Rectum, and Anal Canal</b>	<b>84</b>
I.	Sigmoid Colon	84
II.	Rectum	86
III.	Anal Canal	88
IV.	Defecation Reflex	88
V.	Radiology	88
<b>11</b>	<b>Spleen</b>	<b>90</b>
I.	Anatomy and Function	90
II.	Clinical Considerations	90
III.	Radiology	92
<b>12</b>	<b>Urinary System</b>	<b>94</b>
I.	Kidneys	94
II.	Ureters	97

III. Urinary Bladder	99	IV. Urethra	103	V. Micturition Reflex	103	VI. Radiology	103
<b>13 Suprarenal (Adrenal) Glands</b>	<b>108</b>						
I. General Features	108						
II. Adrenal Cortex	108						
III. Adrenal Medulla	110						
IV. Radiology	111						
<b>14 Female Reproductive System</b>	<b>112</b>						
I. Ovaries	112						
II. Uterine (Fallopian) Tubes	112						
III. Uterus	113						
IV. Vagina	115						
V. External Genitalia	116						
VI. Radiology	117						
<b>15 Male Reproductive System</b>	<b>118</b>						
I. Testes	118						
II. Epididymis	120						
III. Ductus Deferens	120						
IV. Contents of the Spermatic Cord	120						
V. Seminal Vesicle	120						
VI. Prostate Gland	121						
VII. External Genitalia	122						
VIII. Radiology	122						
<b>16 Pelvis</b>	<b>124</b>						
I. Bony Pelvis	124						
II. Greater and Lesser Sciatic Foramina	124						
III. Pelvic Inlet	124						
IV. Pelvic Outlet	126						
V. Support of the Pelvic Organs	126						
VI. Clinical Considerations	126						
VII. Radiology	126						
<b>17 Perineum</b>	<b>129</b>						
I. Perineum	129						
II. Deep Perineal Space	129						
III. Superficial Perineal Space	129						
<b>18 Upper Limb</b>	<b>132</b>						
I. Arterial Supply	132						
II. Collateral Circulation	134						
III. Clinical Considerations	134						

**x High-Yield Gross Anatomy**

IV. Components of the Brachial Plexus	135
V. Nerve Lesions	137
VI. Shoulder Region	140
VII. Elbow Region	142
VIII. Wrist and Hand Region	144
IX. Cross-Sectional Anatomy of the Right Arm and Forearm	146
<b>19 Lower Limb</b>	<b>148</b>
I. Arterial Supply	148
II. Venous Drainage	151
III. Lumbosacral Plexus	152
IV. Nerve Lesions	155
V. Hip and Gluteal Region	157
VI. Knee Region	159
VII. Ankle and Foot Region	159
VIII. Cross-Sectional Anatomy of the Left Thigh and Leg	162
<b>20 Head and Neck</b>	<b>164</b>
I. Arterial Supply and Venous Drainage	164
II. Cervical Triangles of the Neck	169
III. Larynx	173
IV. Thyroid Gland	176
V. Parathyroid Gland	176
VI. Parotid Gland	176
VII. Skull and Foramina	177
VIII. Cranial Nerves	178
IX. Extraocular Muscles and Clinical Tests	178
VII. Pancreas	75
VIII. Cross-Sectional Anatomy	75
IX. Radiology	75
<b>16 Sigmoid Colon, Rectum, and Anal Canal</b>	<b>84</b>
I. Sigmoid Colon	84
II. Rectum	86
III. Anal Canal	88
IV. Defecation Reflex	88
V. Radiology	88
<b>17 Spleen</b>	<b>90</b>
I. Anatomy and Function	90
II. Clinical Considerations	90
III. Radiology	92
<b>18 Urinary System</b>	<b>94</b>
I. Kidneys	94
II. Ureters	97
