

CONTENTS

Preface		vii
Chapter 1	Human Motor Development in Individuals with and without Disabilities: An Overview <i>V. Gregory Payne, Jin H. Yan and Martin Block</i>	1
Chapter 2	Developmental Coordination Disorder in Children and Adolescents <i>Andreas D. Flouris</i>	37
Chapter 3	The Profile of Aquatic Motor Skills for Able-Bodied and Swimmers with an Impairment <i>Ludovic Seifert, Daniel Daly, Brendan Burkett and Didier Chollet</i>	65
Chapter 4	Evaluation of Motor and Process Skills <i>Esra Aki</i>	95
Chapter 5	Mobility Function Following Stroke: The Impact of Multiple Impairments <i>A. C. Novak and B. Brouwer</i>	117
Chapter 6	Implicit Motor Learning in Discrete and Continuous Tasks: Toward A Possible Account of Discrepant Results <i>S. Chambaron, B. Berberian, L. Delbecque, D. Ginhac and A. Cleeremans</i>	139
Chapter 7	On the Inability to Predict the Performance of Professional Golfers <i>Russell D. Clark III</i>	157
Chapter 8	Movement Related Brain Macropotentials and Skilled Motor Actions <i>Giuliano Fontani, Silvia Migliorini, Leda Lodi and Fausto Corradeschi</i>	171

Chapter 9	The Influence of Oromotor Functions and Diet Consistency on Caries Experience and Growth Rate in Cerebral Palsied Individuals <i>Maria Teresa Botti Rodrigues Santos, Maria Cristina Duarte Ferreira, Paula Celiberti and Renata Oliveira Guare</i>	187
Chapter 10	A Case Study of Capacities and Limitations related to Arthrogryposis Multiplex Congenita and Computer Interfaces <i>Wayne Shebilske and Jennifer Border</i>	211
Chapter 11	Comparative Study on the Development of Manipulative Skills in Chimpanzees and Humans <i>Misato Hayashi and Hideko Takeshita</i>	223
Chapter 12	Traditional Mirror Therapy (TMT) in the Physical Therapy Management of Movement and Postural Control Problems <i>Martin J. Watson</i>	237
Chapter 13	Effect of Multi-Modal Imagery Intervention on Pre-Competitive Anxiety and Stress Levels in Elite Tennis Players <i>Ricardo Weigert Coelho, Flavia Justus, Birgit Keller and Bubens Tempiski</i>	249
Chapter 14	A Developmental Systems Approach to the Study of Motor Development <i>Carl Gabbard</i>	259
Chapter 15	Omitted Stimulus Reaction Time: A New Tool for Exploring Cognitive and Motor Skills <i>Oscar H. Hernández, Muriel Vogel-Sprott and Victor Monteón</i>	269
Chapter 16	Muscle Strength Testing in Children: Development and Evaluation of a New Motor Performance Test <i>W. A. Van den Beld</i>	277
Chapter 17	Motor Development in Children with Autism Spectrum Disorders <i>Michelle Pope, Amy Lynch, Ting Liu and Nancy Getchell</i>	287
Chapter 18	Language-Based Learning Disabilities and Motor Coordination: Associations and Applications <i>Nancy Getchell, Samuel W. Logan and Kevin Neeld</i>	299
Chapter 19	The Development of the Adult-Like Strategy for Reaching Movements in Childhood <i>Marco Favilla</i>	313
Chapter 20	Motor Skills: Development, Impairment, and Therapy <i>A. M. Keane</i>	319
Index		323
