List of contributors vii

Section I: Principles of oncology

- 1 **Interventional oncology: The fourth pillar of cancer care** 1
Michael C. Soulen and Jean-François H. Geschwind
- 2 **Principles of radiofrequency and microwave tumor ablation** 3
Anthony M. Esparaz, S. Nahum Goldberg, and Muneeb Ahmed
- 3 **Principles of irreversible electroporation** 13
Govindarajan Srimathveeravalli and Stephen B. Solomon
- 4 **Principles of high-intensity focused ultrasound** 20
Aradhana M. Venkatesan and Bradford J. Wood
- 5 **Principles of tumor embolotherapy and chemoembolization** 35
Hwan Jun Jae, Jae Hyung Park, and Jin Wook Chung
- 6 **Principles of radioembolization** 44
Vanessa L. Gates, Riad Salem, and Robert J. Lewandowski
- 7 **Principles of intra-arterial infusional chemotherapy in the treatment of liver metastases from colorectal cancer** 52
Fidel David Huitzil Melendez and Nancy Kemeny
- 8 **Imaging in interventional oncology: Role of image guidance** 65
François Cornelis and Stephen B. Solomon
- 9 **Novel developments in MR assessment of treatment response after locoregional therapy** 77
Kelly Fábrega-Foster, Neda Rastegar, Jean-François H. Geschwind, and Ihab R. Kamel

Section III: Organ-specific cancers – primary liver cancers

- 10 **Assessment and triage of hepatocellular carcinoma** 85
Riccardo Lencioni
- 11 **Image-guided ablation of hepatocellular carcinoma** 91
Laura Crocetti, Maria Clotilde Della Pina, Dania Cioni, and Riccardo Lencioni
- 12 **Embolization of liver tumors: Anatomy** 100
Hyo-Cheol Kim and Jin Wook Chung
- 13 **Conventional chemoembolization and chemoembolization with drug-eluting beads: Technique and future potential** 120
Julius Chapiro, Florian Nima Fleckenstein, Lynn Jeanette Savic, and Jean-François H. Geschwind
- 14 **⁹⁰Yttrium radioembolization for hepatocellular carcinoma** 128
Ryan M. Hickey, Riad Salem, and Robert J. Lewandowski
- 15 **Image-guided therapy of intrahepatic cholangiocarcinoma** 134
Michael C. Soulen and William S. Rilling

Section IV: Organ-specific cancers – liver metastases

- 16 **Colorectal masses: Ablation** 139
Elena N. Petre, Stephen B. Solomon, and Constantinos T. Sofocleous
- 17 **Assessment, triage, and chemoembolization for colorectal liver metastases** 148
Michael C. Soulen, Govindarajan Narayanan, and Ursina Teitelbaum

Dimitri Filippiadis MD PhD
Department of Radiology, School of Medicine,
University of Athens,
Athens, Greece

- 18 **Radioembolization for colorectal liver metastases** 158
Lourens Bester, Baerbel Meteling, and David Boshell
- 19 **Assessment, triage, and liver-directed therapies for neuroendocrine tumor metastases** 165
Terence P. Gade and Michael C. Soulen
- 20 **Preoperative portal vein embolization** 176
David Li and David C. Madoff

Section V: Organ-specific cancers – extrahepatic biliary cancer

- 21 **Extrahepatic biliary cancer: Stenting, brachytherapy, and photodynamic therapy** 193
Vlastimil Valek and Tomas Andrasina

Section VI: Organ-specific cancers – renal cell carcinoma

- 22 **Management of small renal masses** 203
Mansi A. Saksena, Debra A. Gervais, Michael C. Soulen, and Peter R. Mueller
- 23 **Embolotherapy in the management of renal cell carcinoma** 214
Ricardo Garcia-Monaco

Section VII: Organ-specific cancers – chest

- 24 **Image-guided ablation in the thorax** 223
Erica S. Alexander and Damian E. Dupuy

Section VIII: Organ-specific cancers – musculoskeletal

- 25 **Percutaneous ablation of painful metastases involving bone** 243
Matthew R. Callstrom and A. Nicholas Kurup

- 26 **Cementoplasty and musculoskeletal interventions** 255
Dimitri Filippiadis, Sean Tutton and Alexis Kelekis

Section IX: Organ-specific cancers – prostate

- 27 **Prostate ablations** 265
François Cornelis, Jeremy C. Durack, Behfar Ehdaie, Jonathan Coleman, and Stephen B. Solomon

Section X: Specialized interventional techniques in cancer care

- 28 **Vascular access: Venous and arterial ports** 283
Thierry de Baère and Eric Desruennes
- 29 **Palliative care and symptom management** 294
Drew A. Rosielle, Melissa Atwood, Sean Marks, and William S. Rilling
- 30 **CT-guided neurolysis for cancer-related abdominal and pelvic pain** 315
Ashraf Thabet
- 31 **Palliative procedures for ascites and effusion** 323
Hooman Yarmohammadi and George I. Getrajdman

Index 333
