

# FORENSIC ANTHROPOLOGY

## Current Methods and Practice

Second Edition

Angi M. Christensen, Nicholas V. Passalacqua, and Eric J. Bartelink

Forensic anthropology has seen a recent expansion in depth and scope as well as increased attention from the media and the legal system. This constantly evolving science requires a comprehensive introductory text that approaches forensic anthropology as a modern discipline, with attention to theory as well as recent advances in research, technology, and challenges in the field.

*Forensic Anthropology: Current Methods and Practice, 2<sup>nd</sup> edition* approaches forensic anthropology using current practices and case studies drawn from the varied experiences, backgrounds, and practices of working forensic anthropologists. This text guides the reader through all aspects of human remains recovery and forensic anthropological analysis. It presents principles at a level that is appropriate for those new to the field, while at the same time incorporating evolutionary, biomechanical, and other theoretical foundations for the features and phenomena encountered in forensic anthropological casework.

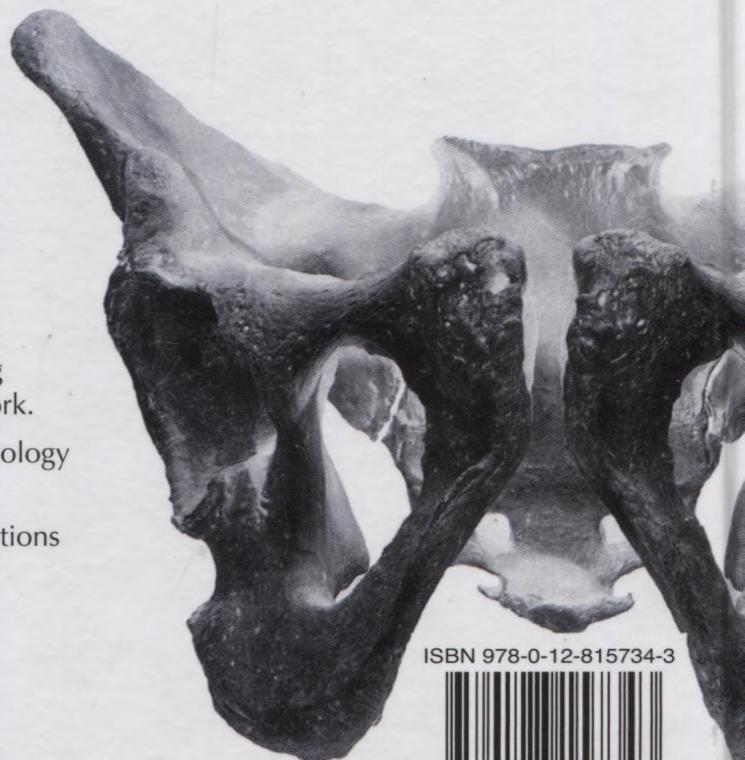

Attention is focused on the most recent and scientifically valid applications commonly employed by working forensic anthropologists. Readers will learn about innovative techniques in the discipline, and aspiring practitioners will be prepared by understanding the necessary background needed to work in the field today. Instructors and students will find *Forensic Anthropology: Current Methods and Practice, 2<sup>nd</sup> edition* comprehensive, practical, and relevant to the modern discipline of forensic anthropology.

### Key Features

- Focuses on current methods, advances in research and technology, and recent challenges in the science of forensic anthropology.
- Addresses issues of international relevance such as the role of forensic anthropology in mass disaster response and human rights investigations.
- Includes chapter summaries, topic-oriented case studies, keywords, and reflective questions to increase active student learning.

### Updates to the 1<sup>st</sup> Edition

- Incorporation of new developments and disciplinary shifts, updated methodological content, and new resources, including databases and web-based applications for research and casework.
- Addition of a chapter emphasizing the roles of forensic anthropology and archaeology in humanitarian and human rights work.
- More information aimed at aspiring practitioners, including sections on skeletal collections and ethics in forensic anthropology.
- Additional case studies in each chapter.

ISBN 978-0-12-815734-3

Author biographies .....	xi
Foreword .....	xiii
Preface to the first edition .....	xv
Preface to the second edition .....	xvii

## **CHAPTER 1 Introduction to forensic anthropology ..... 1**

1.1 Forensic anthropology defined.....	1
1.2 History of forensic anthropology .....	2
1.3 Forensic anthropology today .....	3
1.4 Skeletal collections.....	6
1.5 Forensic anthropology in legal and political contexts.....	8
1.6 Ethics in forensic anthropology .....	9
1.7 Careers in forensic anthropology .....	9
1.8 Skeletal remains as evidence .....	17
1.9 Case study: Report writing.....	22
1.10 Case study: Forensic anthropology testimony.....	22
1.11 Layout of this book .....	22
1.12 Summary.....	27
1.13 Test yourself .....	27
Definitions .....	28
References .....	29

## **CHAPTER 2 Human osteology and odontology ..... 33**

2.1 Principles of human osteology and odontology .....	33
2.2 Bone biology .....	34
2.3 Bone growth and development .....	38
2.4 Skeletal anatomy .....	40
2.5 Dental anatomy.....	60
2.6 Case study: Skeletal inventory.....	71
2.7 Case study: Dental anomaly.....	71
2.8 Summary.....	73
2.9 Test yourself .....	74
Definitions .....	74
References .....	75

## **CHAPTER 3 Skeletal examination and documentation methods..... 77**

3.1 Overview of examination methods .....	77
3.2 Macroscopic analysis .....	78

<b>3.3</b>	Metric analysis .....	79
<b>3.4</b>	Fordisc .....	88
<b>3.5</b>	Statistics, error, and uncertainty in forensic anthropology.....	94
<b>3.6</b>	Radiology.....	97
<b>3.7</b>	Histology.....	104
<b>3.8</b>	Elemental analysis .....	106
<b>3.9</b>	Case study: Method selection and metrics .....	108
<b>3.10</b>	Case study: Radiology.....	109
<b>3.11</b>	Summary.....	110
<b>3.12</b>	Test yourself .....	110
	Definitions .....	111
	References .....	112

## **CHAPTER 4 Medicolegal significance.....** 115

<b>4.1</b>	The medicolegal context .....	115
<b>4.2</b>	Skeletal versus nonskeletal material .....	116
<b>4.3</b>	Human versus nonhuman skeletal material .....	121
<b>4.4</b>	Recent versus nonrecent human skeletal remains .....	126
<b>4.5</b>	Case study: Skeletal versus nonskeletal .....	134
<b>4.6</b>	Case study: Human versus nonhuman .....	138
<b>4.7</b>	Case study: Recent versus nonrecent.....	138
<b>4.8</b>	Summary.....	139
<b>4.9</b>	Test yourself .....	140
	Definitions .....	140
	References .....	141

## **CHAPTER 5 Forensic taphonomy.....** 145

<b>5.1</b>	Principles of forensic taphonomy .....	145
<b>5.2</b>	Decomposition and postmortem soft tissue changes.....	147
<b>5.3</b>	Postmortem skeletal changes .....	153
<b>5.4</b>	Scavenging.....	155
<b>5.5</b>	Body movement and disarticulation .....	163
<b>5.6</b>	Estimating the postmortem interval (PMI) .....	164
<b>5.7</b>	Humans as taphonomic agents.....	173
<b>5.8</b>	Case study: Postmortem tooth fractures .....	174
<b>5.9</b>	Case study: PMI estimation .....	175
<b>5.10</b>	Summary.....	176
<b>5.11</b>	Test yourself .....	177
	Definitions .....	177
	References .....	178

<b>CHAPTER 6 Forensic archaeology and scene processing methods.....</b>	<b>183</b>
6.1 Principles of forensic archaeology .....	183
6.2 Recovery scenes .....	184
6.3 Archaeological method and theory .....	184
6.4 Detection methods .....	187
6.5 Recovery methods .....	194
6.6 Scene documentation.....	198
6.7 Evidence collection and packaging.....	208
6.8 Case study: Burial recovery .....	209
6.9 Case study: Fire scene.....	211
6.10 Summary.....	213
6.11 Test yourself.....	213
Definitions .....	214
References .....	215
<b>CHAPTER 7 Processing, resolving commingling, and preserving remains.....</b>	<b>217</b>
7.1 Principles of skeletal processing and preparation .....	217
7.2 Skeletal processing methods .....	218
7.3 Skeletal reconstruction .....	223
7.4 Resolving commingling .....	225
7.5 Skeletal sampling .....	231
7.6 Skeletal preservation .....	231
7.7 Case study: Processing .....	236
7.8 Case study: Commingling .....	238
7.9 Summary.....	238
7.10 Test yourself .....	239
Definitions .....	239
References .....	240
<b>CHAPTER 8 Sex estimation .....</b>	<b>243</b>
8.1 Principles of sex estimation .....	243
8.2 Morphoscopic sex estimation methods .....	246
8.3 Metric sex estimation methods .....	253
8.4 Sex estimation in subadults.....	256
8.5 Other considerations in sex estimation .....	259
8.6 Case study: Sex estimation using scored pelvic and cranial traits .....	262
8.7 Case study: Sex estimation using metric analysis.....	262
8.8 Case study: (Incorrect) sex estimation using metric analysis .....	262
8.9 Summary.....	265
8.10 Test yourself .....	266
Definitions .....	267
References .....	267

<b>CHAPTER 9 Ancestry estimation.....</b>	<b>271</b>
9.1 Principles of ancestry estimation .....	271
9.2 Morphoscopic (nonmetric) ancestry estimation .....	277
9.3 Craniometric ancestry estimation.....	283
9.4 Ancestry estimation using dental metrics .....	283
9.5 Ancestry estimation using (hu)MANid.....	286
9.6 Postcranial methods of ancestry estimation.....	291
9.7 Other considerations in ancestry estimation .....	293
9.8 Case study: Ancestry estimation using OSSA.....	297
9.9 Case study: Ancestry estimation using Fordisc .....	298
9.10 Case study: Ancestry estimation using Fordisc .....	300
9.11 Summary.....	302
9.12 Test yourself .....	303
Definitions .....	303
References .....	304

<b>CHAPTER 10 Age estimation.....</b>	<b>307</b>
10.1 Principles of age estimation .....	307
10.2 Subadult age estimation: Dental methods.....	309
10.3 Subadult age estimation: Osteological methods.....	323
10.4 Adult age estimation: Pubic symphysis methods .....	330
10.5 Adult age estimation: Auricular surface methods .....	333
10.6 Adult age estimation: Sternal rib end methods .....	336
10.7 Adult age estimation: Histological methods.....	338
10.8 General indicators of advanced age .....	339
10.9 Other considerations in age estimation.....	341
10.10 Case study: Subadult age estimation .....	342
10.11 Case study: Adult age estimation .....	343
10.12 Case study: Age estimation using radiology .....	344
10.13 Summary.....	344
10.14 Test yourself .....	345
Definitions .....	346
References .....	346

<b>CHAPTER 11 Stature estimation and other skeletal metrics.....</b>	<b>351</b>
11.1 Principles of stature estimation .....	351
11.2 Full skeleton methods of stature estimation .....	352
11.3 Regression methods of stature estimation .....	353
11.4 Body mass estimation .....	357
11.5 Analysis of cremains weight .....	359
11.6 Other considerations in stature estimation.....	360

11.7	Case study: Stature estimation using the full skeleton method .....	362
11.8	Case study: Manual calculation of stature estimate using regression.....	363
11.9	Case study: Stature estimation using Fordisc .....	363
11.10	Summary.....	365
11.11	Test yourself .....	365
	Definitions .....	366
	References .....	366
<b>CHAPTER 12</b>	<b>Individual skeletal variation .....</b>	<b>369</b>
12.1	Principles of skeletal variation.....	369
12.2	Normal skeletal variation .....	371
12.3	Skeletal anomalies.....	373
12.4	Pathological conditions .....	382
12.5	Repetitive mechanical stress .....	396
12.6	Case study—Proliferative lesions .....	400
12.7	Case study—Dental anomalies .....	401
12.8	Case study: Button osteoma.....	401
12.9	Summary .....	402
12.10	Test yourself .....	403
	Definitions .....	403
	References .....	405
<b>CHAPTER 13</b>	<b>Analysis of skeletal trauma .....</b>	<b>407</b>
13.1	Principles of skeletal trauma analysis.....	407
13.2	Forces, bone biomechanics, and fractures .....	407
13.3	Trauma timing .....	412
13.4	Trauma mechanism .....	417
	Blunt trauma .....	417
	High-velocity projectile trauma .....	420
	Sharp trauma .....	424
	Thermal alterations.....	428
	Blast trauma.....	432
13.5	Other considerations in skeletal trauma analysis.....	433
13.6	Case study: Antemortem and perimortem pediatric trauma .....	434
13.7	Case study: High-velocity projectile trauma .....	435
13.8	Case study: Fall from a height.....	436
13.9	Summary .....	437
13.10	Test yourself .....	438
	Definitions .....	438
	References .....	440

<b>CHAPTER 14 Personal identification .....</b>	<b>443</b>
<b>14.1 Principles of personal identification .....</b>	<b>443</b>
<b>14.2 Narrowing the pool of potential matches .....</b>	<b>445</b>
<b>14.3 Identification comparisons .....</b>	<b>446</b>
<b>14.4 Other identification approaches .....</b>	<b>452</b>
<b>14.5 Quantification in identification .....</b>	<b>456</b>
<b>14.6 DNA approaches .....</b>	<b>458</b>
<b>14.7 Facial approximation .....</b>	<b>459</b>
<b>14.8 Case study: Radiographic comparison of foot.....</b>	<b>461</b>
<b>14.9 Case study: Exclusion based on cranial radiographs .....</b>	<b>462</b>
<b>14.10 Case study: The state of <i>Tennessee v. David William Cosgrif, III</i> .....</b>	<b>463</b>
<b>14.11 Summary.....</b>	<b>465</b>
<b>14.12 Test yourself .....</b>	<b>466</b>
Definitions .....	466
References .....	467

<b>CHAPTER 15 Forensic anthropology in humanitarian and human rights investigations .....</b>	<b>469</b>
<b>15.1 Humanitarian and human rights applications of forensic anthropology .....</b>	<b>469</b>
<b>15.2 Forensic anthropology in armed conflict-related investigations .....</b>	<b>470</b>
<b>15.3 Forensic anthropology in mass disaster response and disaster victim identification .....</b>	<b>472</b>
<b>15.4 Forensic anthropology and human migration routes .....</b>	<b>477</b>
<b>15.5 Forensic anthropology and human rights investigations .....</b>	<b>481</b>
<b>15.6 Case study: Unidentified border crossers .....</b>	<b>482</b>
<b>15.7 Case study: Mass graves from the Spanish Civil War .....</b>	<b>484</b>
<b>15.8 Case study: World War II US service member recovery.....</b>	<b>484</b>
<b>15.9 Summary.....</b>	<b>487</b>
<b>15.10 Test yourself .....</b>	<b>487</b>
Definitions .....	488
