How to Use This Book 1

The Future of Cities and the Concept of Smart Cities 3

1. The Future of Cities 5
   - Cities as a Megatrend 6
   - Current Challenges for Cities 8
     - Challenge 1: Urbanization and Opposing Trends 9
     - Challenge 2: Modernization Requires Time 13
     - Challenge 3: Development of Diverse Lifestyles 13
     - Challenge 4: Demographic Developments 13
     - Challenge 5: Overloading of Infrastructure 13
     - Challenge 6: Air Quality and Smog 17
     - Challenge 7: Noise 19
     - Challenge 8: Limited Resources of Cities 19
     - Challenge 9: Mobility and Tourism 20
     - Challenge 10: Tragedy of the Commons 20
     - Challenge 11: Immigration 22
     - Challenge 12: Flexibility 22

2. Smart Cities 25
   - A New Role for City Administration 26
   - The Digital Shadow of a City 27
   - Service Areas of a Digital Shadow 31
     - Smart Environment 32
     - Smart Living 34

Smart Economy 38
Smart Mobility 40
Smart Government 42
Smart People 45
Obstacles for a Smart City 46
Volatility 47
Uncertainty 48
Complexity 50
Ambiguity 51
The Most Common Obstacles 51
Business Models for a Smart City 57
What Is a Business Model? 57
The Smart City Management Model 61
Service Areas 61
The Transformation Process 63
Basic Elements 65

3. Smart City Lighthouse Projects 67
Case Study: Vienna 67
Initiate Transformation 69
Determine Location 71
Develop Concepts and Synchronize Partners 74
Activate Resources 79
Realize Projects 81
Operation and Institutionalization 87
Conclusion 88
Case Study: Munich 89
Initiate Transformation 91
Determine Location 95
Develop Concepts and Synchronize Partners 99
Activate Resources 103
Realize Projects 104
Operation and Institutionalization 106
Conclusion 107
Case Study: Lyon 109
Initiate Transformation 110
Determine Location 112

Develop Concept and Synchronize Partners 114
Activate Resources 116
Realize Projects 117
Operation and Institutionalization 120
Conclusion 120
Case Study: Songdo City 121
Initiate Transformation 122
Determine Location 123
Develop Concepts and Synchronize Partners 125
Activate Resources and Realize Projects 127
Operation and Institutionalization 129
Conclusion 130
Case Study: Toronto 130
About Toronto 131
Overview of Smart City Toronto 132
Initiate Transformation 132
Determine Location 134
Develop Concepts and Synchronize Partners 136
Activate Resources 137
Waterfront Toronto: Initiate Transformation 138
Waterfront Toronto: Determine Location 140
Waterfront Toronto: Develop Concepts and Synchronize Partners 141
What's Interesting about Toronto? 143
What Can We Learn from the Lighthouse Projects? 147

4. Guidelines for Smart City Transformation 153
St Gallen's Pilot Projects 158
Initiate Transformation 162
Preparations and Initial Considerations 162
Assembling a Project Team 165
Developing a Vision 166
Setting Priorities 170
Kickoff and Clarifying Responsibilities 172
Determine Location 178
Internal Perspective 178
External Perspective 180
The Point-of-view Method 184

Stakeholder Map 186
Environmental Analysis 189
Identifying Strategic Options 191
Determining the Direction of Impact 194
Developing Concepts and Synchronizing Partners 197
Ensuring Partner and Citizen Participation 198
Designing and Implementing Data Governance 201
Preparing Funding 203
Developing Project Concepts 207
Selecting the Right Technology Platform 209
Developing Business Models 216
Finding Partners for Implementation 222
Dealing with Risks 224
Define Criteria for Project Selection 231
Performing Project Selection 233
Developing Roadmaps 234
Learning to Synchronize 237
Activate Resources 238
Finding Partners 238
Mobilizing Citizens 240
Building a Project Coalition 242
Clarify the Project Organization 245
Defining Funding 248
Removing Barriers 253
Realizing Projects 256
Operation and Institutionalization 259
Designing an Operating Model with Scaling 262
Initiating a Continuous Improvement Process 265
Exploiting Synergies between Initiatives 267

5. Outlook 269
Software Is Eating the World 269
The Ubiquity of Data and Computing 269
Computational Materials 270
Decreasing Transaction Costs 271
A Trend Toward Ecosystems 272
The Rise of Artificial Intelligence 273

Unprecedented Forms of Mobility 275
New Work or No Work 276
The Merging of Humans and Machines 277
The Dark Side of the Moon 277
Twenty-one Critical Questions for Smart Cities in the Twenty-first Century 278

6. Tools for the Transformation into a Smart City 283
The Smart City Maturity Model 283
How to Use the Model 283
Stakeholder Map 292
Worksheet: Smart City Initiative 293
Risk Assessment 296
How to Complete a Risk Assessment 296
Cause and Effect Tree 300
How to Use This Tool 301
Question for Business Model Scaling 302
How to Use This Tool 303
Patterns of Synergy 304

Contacts 309

Acknowledgements 311
