

# CONTENTS

Preface .....	vii
<b>1. Definitions .....</b>	<b>1</b>
Man .....	2
Space.....	6
Time.....	16
Motion.....	23
Light.....	31
<b>2. Linear Motions in Moving Frames .....</b>	<b>41</b>
Aristotle .....	42
Oresme .....	44
Copernicus .....	47
Kepler .....	50
Galileo.....	54
Newton.....	58
<b>3. Optokinetics .....</b>	<b>65</b>
Refraction: Interface events .....	66
Reciprocity.....	91
Colors.....	101
The Spectrum .....	107
Normal Spectrum.....	121
Anomalous Spectrum.....	124
Red Shift .....	127
Double Refraction.....	137
Interference .....	141
Reflection.....	147
Diffraction.....	163

<b>4. Optokinematics .....</b>	<b>167</b>
Speed in line of sight: Roemer's measurement .....	168
Speed in perpendicular direction: Bradley's observation .....	179
Speed in both directions: Michelson's experiment.....	186
Interpretations .....	197
<b>Index of Names.....</b>	<b>208</b>
