

# TABLE OF CONTENTS

## INTRODUCTION

## POWER TRAINING DEFINED

## ANATOMICAL AND MECHANICAL PROPERTIES OF PLYOMETRIC TRAINING

## ENERGY SYSTEMS AND PLYOMETRIC PHYSIOLOGY

Exercise Forms

Muscle Physiology

Neuro-muscular Physiology

Plyometric Physiology

Training Adaptation

The Overcompensation cycle

## TRAINING PRINCIPLES AS APPLIED TO PLYOMETRIC TRAINING

Principle of Specificity

Principle of Individualization

Principle of Progressive Increase in Training Load

## METHODOLOGICAL GUIDELINES FOR PLYOMETRIC TRAINING

Intensity and Classification of Intensities in Plyometrics

The Number of Repetitions and Sets

The Rest Intervals Between Sets

## PLANNING

The Training Session Plan

The Microcycle

The Annual Plan

Long-Term Planning

## **PLYOMETRIC EXERCISES**

### **Introduction**

#### **Plyometric Exercises for Intensity 5**

- Single Leg Take-Off Exercises**
- Simple Bounding Exercises with/over Benches**
- Exercises on Stairs**

#### **Plyometric Exercises for Intensity 4**

- Single Leg Take-Off Exercises**
- Double Leg Take-Off Exercises**
- Bounding Exercises with Benches**
- Exercises with a Medicine Ball**

#### **Plyometric Exercises for Intensity 3**

- Exercises on Stairs**
- Single Leg Take-Off Exercises**
- Double Leg Take-Off Exercises**
- Upper Body Exercises**
  - Exercises for Arms and Shoulders**
  - Exercises for Abdomen Muscles**
  - Trunk Extension Exercises**

#### **Balistic Exercises**

- Exercises with a Medicine Ball**
- Exercises with Light and Heavy Implement**

#### **Plyometric Exercises for Intensity 2**

- Single Leg Take-Off Exercises**
- Double Leg Take-Off Exercises**
- Exercises for Upper Body**
  - Exercises for Abdomen Muscles**
  - Exercises with a Medicine Ball**

#### **Plyometric Exercises for Intensity 1**

- Reactive and Drop Jumps**
  - Single Leg Reactive Jumps**
  - Double Leg Reactive Jumps**
- Exercises for Upper Body**
  - Exercises for Arms and Shoulders**
  - Exercises for Abdomen Muscles**

#### **Simple Tumbling Plyometrics**

#### **Relays and Games**

## **TESTING**

**Upper Body Tests**

**Leg Tests**

**Power Tests**

**Power-endurance tests**

**Data Recording Sheet**

**Norms For Power Tests**

## **GLOSSARY OF TERMS**

## **REFERENCES**

## **APPENDIX**

**Charts for determining the starting point in plyometric training**

## **INDEX**
